Developing a Market by Standardization

By F. A. MOITZ, Virginia Polytechnic Institute

Start the Lawn This Fall

Fall-started lawns are thoroughly practical and, as a matter of fact, extremely more serviceable than the dormant lawns that are started during the heat of summer. Lawns that are started during the late summer and early fall are not only in the fall, but also almost ready to use in early spring, and the results will get the same high-quality end product.

It may seem too early to start the lawn for the winter, but many people, even in the fall, start the lawn during the winter. The reason is that during the winter, the soil is more capable of holding moisture, and the plants have a better chance to establish themselves. Moreover, the soil temperature is more favorable for germination and growth during the winter.

The idea is to plant the lawn during the winter to get the best results.

Home Grown Mushrooms

The new idea of growing mushrooms in the home is beginning to catch on. It is a popular hobby, and many people are growing mushrooms in their home gardens. The mushrooms are not only a delicious addition to the diet, but they also provide a source of income for the grower.

The mushroom industry is growing rapidly, and the demand for mushrooms is increasing. The mushrooms are grown in a variety of ways, including in soil, in wood chips, and in natural caves. The mushrooms are harvested when they reach the desired size and are sold fresh or dried.

The mushroom industry is a profitable business, and the growers are making a good income. The mushrooms are sold wholesale to grocery stores, restaurants, and other retail outlets. The mushrooms are also used as a food source for pets and for incorporation into various dishes.

The Commonwealth has been activated in the local high school as the new year's director in the project, according to the headmistress.

For the past four months the school has been in operation, and the project is due to begin in January under the direction of Miss E. A. Brown, principal of the high school.

The head of the school has been appointed as the director of the project, and will be assisted by two teachers.

The project is being carried out in co-operation with the local schools and will be in operation from January 1 to June 30.

The project is being carried out in co-operation with the local schools and will be in operation from January 1 to June 30.
Would it Be Fair to Elect a Democrat to the Office of Prosecuting Attorney?

MR. VOTER: Do you realize that all of the voters of Van Buren County, with a population of 30,000, the Democratic Party has polled about one-third of the total votes? After you allow for the third of the voters who mail to the polls but never vote, do they elect a county officer?

Woud it not be better to have a more even distribution of power and would it not tend to have a healthy and stimulating effect on future voting in the county?

Would it not tend to increase interest in both parties and bring more ME and WOMEN into active participation in public affairs and in the choice of candidates?

There are the names of some eleven Republicans candidate on the ticket for County Office, while MY NAME IS THE ONLY DEMOCRAT THAT APPEARS ON THE DEMOCRATIC TICKET FOR COUNTY OFFICE, and at that for the office of Prosecuting Attorney.

Will you not vote for ONE DEMOCRAT for COUNTY OFFICE (in as an office where politics should be disregarded) and give Van Buren County what it has not had in your memory—namely One Democratic BOLDFACE of County Office.

I appeal to the voters in all fair ways to give the minority a voice in COUNTY GOVERNMENT.

I ASK FOR YOUR VOTE.

Respectfully submitted,
ROBERT H. CAVANAUGH.

Don't Fail to Register.

AUCTION
