Double Tulips Again Popular

As large as a dinner plate, apricot-colored, fragrant and large, the double tulip is a favorite garden flower. They are usually planted in pairs in the early spring and should be treated as tender annuals, as they do not naturalize. The bulbs are usually planted in the fall and the flowers bloom in the spring. They are often used in flower arrangements and as cut flowers.

Little Bulbs to Start the Spring Season

The little bulbs that spread their green leaves across the garden in the early spring are a welcome sight for many gardeners. They include such favorites as crocuses, daffodils, and hyacinths. These bulbs are easy to grow and can be planted in the fall for early spring bloom.

SHAPED AND WEIGHT OF EGGS

RELATION TO SEX

In the poultry industry, shape and weight of eggs are important factors that can affect the profitability of a flock. These factors are influenced by the sex of the hen, as well as other factors such as nutrition, genetics, and environmental conditions.

Beef Quality Tested

As the season turns colder and the days grow shorter, it is time to consider the quality of the beef we eat. The beef quality tested in the United States is a critical factor in determining the taste and tenderness of the meat. This involves a complex process of evaluating the animals and their feeding practices, as well as the processing and handling of the meat.

PROBLEMS OF CO-OPERATIVE ASSOCIATIONS

Managers of co-operative associations may face some difficulties in their operations. Many of these associations are in the United States Department of Agriculture, which regulate the activities of the associations. They are required to file reports on a regular basis, which can be time-consuming and costly. In addition, there may be legal and regulatory issues that require additional time and resources to address.

WATER TROUGHS

The construction of a concrete trough is a common task in many gardens and farms. It involves several steps, including digging a hole, setting the form, and pouring the concrete. Once the concrete has hardened, the trough can be used to water livestock or for other purposes.

Cutaway view of a concrete trough shows the various components, such as the form, the concrete, and the reinforcing bars. The form is made from wood or metal, and the concrete is poured into it. The reinforcing bars provide strength and support to the structure.

MATERIALS REQUIRED FOR TANK

Outside dimensions: 6-3/4 in. by 9-3/4 in. by 12 in. By adding the length of the tank to the total length of the parts, you can determine the quantity of materials needed.

Deserted Village to Come to Life With Activity in Coach

Cliff, a long desolate village in Keweenaw county, the scene of placer copper mining operations in the 1850's, has been reactivated after years of neglect. The village, which was the scene of extensive mining operations in the 1850's and 1860's, was abandoned in the 1870's and has been virtually deserted ever since. Now, with the help of federal and state funds, the village is being restored to its former glory.

What is known as the old Avon Mine, located on the east side of the village, is being developed into an important commercial enterprise. The village of Deserted Village will be revitalized and become a center of tourism.

"We also have some other plans for the village," said the mayor. "The idea is to bring the village back to life and make it a tourist attraction."

Emperor

Molly Mangle was in a bad temper. She dragged her hat and went out to walk without informing her mother. The little thief made her way quickly, skimming over the fences and leaping over the ditches, and finally dropped on the gravel road. She had expected to find her sister out there, but her mother was not there. 

"You little thief!" Molly exclaimed angrily. "What are you doing out here? I thought you were going to the tennis court!"

"I didn't know it was closed," the younger girl replied. "I just wanted to practice my serve."

"That's no excuse," Molly scolded. "You should have asked me before you went out."

"But I was just going to ask," the younger girl protested. "I promise I won't do it again."

"That's not good enough," Molly said. "You have to earn your privileges."

"Okay," the younger girl reluctantly agreed. "I'll get back home and ask you.

Molly walked into the house, a scowl on her face. She pulled the little girl by the arm and dragged her into the kitchen.

"You little thief!" Molly exclaimed again. "What are you doing out here? I thought you were going to the tennis court!"

"I didn't know it was closed," the younger girl replied. "I just wanted to practice my serve."

"That's no excuse," Molly scolded. "You should have asked me before you went out."

"But I was just going to ask," the younger girl protested. "I promise I won't do it again."

"That's not good enough," Molly said. "You have to earn your privileges."

"Okay," the younger girl reluctantly agreed. "I'll get back home and ask you.

Molly sighed and left the kitchen, her scowl still on her face.

GAMES TO PLAY

Circle Ball

From a circle of players, with one of them standing inside. The players, with their backs to the inner side of the circle, are to take turns choosing a basketball from one to another, and the inner person is to try to catch the basketball before it makes one full turn of the circle. The player who is caught goes to the center of the circle. The game continues until all players except one have been caught. This player is then the winner.

Hand Tag

This is a game for young people of school age, and should be played in a large, open area. One boy is chosen to be the "siren," or the one who has two more balls than anyone else, and then he has a special ball that must be郁郁葱葱地 returned to him. The siren is the only one who can catch anyone else with the special ball. If a player is caught with the special ball, they must drop it and go to the center. The game continues until only one player is left standing.

SKIRT DROOPS FRONT AND BACK

By MISS LEIBETH

A dip in the front and back of the skirt of this clover dress is a bit of novelty—like the apple in dressing the centerpiece of the dessert. We have been carefully trained this reason to have the skirt droop in the front and back, and it looks very pretty. The skirt is not excessively long, and the front and back dip are at the natural waist, which is very fashionable. The skirt is made of chiffon, a light flannel or a crepe de chine, and the skirt is finished with a bias cut, which gives a more interesting effect.

SUGGESTIONS

Mother Saver

A simple skirt is a benefit to a mother of small children. Use one of the small skirts, in the bathroom and for summer odd jobs. It is so easily carried about and saves both time and labor. The little skirt can be easily washed and hung on a line. It is the way to save money and to be thrifty.

For the Pan Cover

A simple, yet effective and economical pan cover is this: Take a double thickness of muslin, cut into a square just large enough to cover the pan, and sew it into a loop at the top. This loop can be used as a handle and the pan can be quickly lifted and replaced.

Dressing Up the Bedroom

When the bedroom is in need of a freshening up, the entire room can be done in a few minutes. The bedspread can be changed, the curtains drawn, and the room will look completely new. The room will also have a fresh, clean smell, and the occupants will feel more comfortable.

WEDDING ANNIVERSARIES

At the end of 20 years of marriage, the anniversary should be celebrated by a "silver" party, and the couple should be given a new ring or a silver bracelet. At the end of 25 years of marriage, the anniversary should be celebrated by a "gold" party, and the couple should be given a new ring or a gold bracelet. At the end of 50 years of marriage, the anniversary should be celebrated by a "diamond" party, and the couple should be given a new ring or a diamond bracelet.

WEDDING ENGAGEMENTS

At the end of 2 years of engagement, the engagement should be celebrated by a "sand" party, and the couple should be given a new ring or a sand bracelet. At the end of 5 years of engagement, the engagement should be celebrated by a "feather" party, and the couple should be given a new ring or a feather bracelet. At the end of 10 years of engagement, the engagement should be celebrated by a "jewelry" party, and the couple should be given a new ring or a jewelry bracelet.
