friends.
Some Beet Experiments With Fertilizers

By R.T. BROTHERS

The winter record of the United States is tending to favor sugar beets for the future, as is shown by the reports of the sugar beet growers across the country. In many parts of the country, the crop is reported as out in the field and the yield is expected to be good. The sugar content of the beets is also expected to be high, which is a good sign for the future of the crop.

Winter means to over haul old car

Winter is the most interesting time of the year for farmers, as the winter work and planning for the next season begins. During this period the little details of the past season are reviewed, new ideas are considered, and the plans for the future are set in motion.

Many orchard owners in western states are starting their winter work on their trees. They are pruning, spraying, and fertilizing the trees to prepare them for the spring. This work is crucial for the health and productivity of the trees.

Pick-your-own news!

The hotly debated issue of pick-your-own farms has generated a lot of debate and controversy. Some认为 this is a way to support local farmers and give consumers a hands-on experience, while others fear it could lead to overharvesting and damage the trees.

Beans to be sold at cost

Beans are a staple crop in many parts of the world. They are a good source of protein and fiber, and are often a part of the staple diet in many countries. However, the price of beans has been on the rise recently, and some farmers are now selling their beans at cost to make them more affordable for consumers.

RHEUMATISM

Dr. William Russell, head of the school of pharmacy at the University of Colorado, has developed a new treatment for rheumatism. The treatment involves the use of a special cream that is applied to the affected areas.

CHRISTMAS IS JUST A FEW WEEKS AWAY. WANT TO MAKE THIS THE HAPPIEST YEAR OF YOUR LIFE?

You Can Do It!

You can make this the happiest year of your life. All you need to do is make a few simple changes in your life. These changes can be as simple as taking a few minutes each day to enjoy the small things in life, or as big as making a major life change.

No Engine Fumes in Buick Closed Cars!

In the 1927 Buick, the new Vacum Ventilator pulls away the fumes and gases, so that the crankcase and exhausts are eliminated. The result is a new Buick improvement that does away with noxious fumes, thereby making the car a cleaner, safer and more efficient automatic closed car operation.

The Vacuum Ventilator serves a very important purpose. With it, crankcase vapors are kept from condensing and diluting the oil. Owners of 1927 Buicks are at present inclined to use one case oil only at times during the summer months.

For luxury and for economy, buy a Buick.

Notice of Mortgage Sale

Wissow, Martha Fox, a single man, of the age of 30 years, residing in the City of Chicago, in the County of Cook and State of Illinois, having on the 10th day of January, 1928, to Shrub Creek, Minn., for $1500 dollars and an interest in and control of the mortgaged premises, as is more particularly described in the mortgage, to wit: The whole and entire premises in said mortgage.

WHEREAS, there is hereby advertised and held open for sale at the mortgage, at the public sale of the property, held at the County of Cook, in the State of Illinois, on the 12th day of March, in the year of our Lord, 1928.

Wissow, default has been made in the payment of the said mortgage, and settlement has been made in the said mortgage, in accordance with the provisions of the said mortgage.

Now, therefore, notice is hereby given that by virtue of said judgment of sale and in pursuance thereof, of the said mortgage, it is ordered that the said property be sold and disposed of as hereinbefore advertised.

Dated this 12th day of February, 1928.

About High Returns with Safety from our Land Contracts Securities

Every Michigan Investor Should Be Posted On

Fenton-Smith & Saffir

Land Contracts

Yielding up to 15% and 15%

Like every investor you are interested in thrift.

We can give you facts about Land Contracts securities which prove them the kind of investment that thoughtful, careful investors prefer.

Perhaps you have not considered Land Contracts as an investment possibility. The advantages of high return and complete security which these securities offer are such that you cannot afford to overlook them any longer.

The soundness of Land Contract securities attract the most careful investors and they earn you anywhere from 12 to 15% annually.

All the Land Contracts we offer have Detroit homes behind them, built by large and well-employed heads of families who have made substantial down payments.

The conservative philosophy of the Fenton-Smith & Saffir Co. is backed by the strength of Detroit bankers and trust companies. Let us tell you the full story of the Land Contract story. It is clear and simple. It is free. It tells you nothing and you are not obliged in any way.

You can have the complete facts without obligation by returning the coupon.
