LOCAL BREATHES
Lillian Gouin is returning from the vacation.

Mr. Harry Pearson has been visited by Admiral.

J. O. Lawrence left on Monday morning to drive to North Dakota.

Chester and Gladys Rich are home from the U. of M. this week.

George Walter of Northville is visiting his parents, Mr. and Mrs. B. L. McFarland.

Solomon Albert, Clifford Smith, and Waldey Joy have had several parties.

Arvin Myres is home from a visit to Chippewa Falls and Muncie, Indiana. He and Patricia returned with

Mr. Edward Selander and children of Ann are spending the week with her mother, Mrs. Paul.

Mrs. Fred Pierre and children have returned to Kalamazoo after spending the week with their parents and friends there.

The interiors of Vera Thayer's store are now painted a red soda-colored shade, reiterating the color of the new interior of City's Winer of Goody.

Mr. and Mrs. A. B. Post and son, Glen of Cory, Ind., Mrs. Bayntun and two children of the Rev. Post, Sunday guests of Mrs. George Post.

Miss Katherine Merrill, who is visiting for a 4-month course in June, is spending her summers in the city of Lewisburg, Texas.

Theresa Wokeker, who took her junior year in Gobles high in all "A's," is doing fine this year. Another evidence that our school is doing well.

Mr. and Mrs. W. H. Douton of Southport, Mr. and Mrs. A. F. B. Holman of Mary, Mrs. C. B. Figures, Mrs. James Warren of Kal- amazoo and Mrs. Robert W. Wroblewski of Chicago.

The boys' classes of the First M. E. Church, high school, and St. John's, grade school, are due to give their re- prise the week before they leave for the year....

The Gobles Post Arcade, which was held at the main- sale at Gobles' store Saturday evening, was well attended and no- one could tell the time.

GOLDFIELD TO HEAD ICE CAP SEARCH

Professor Laurence M. Gould, of the University of Michigan, was named as head of the scientific work of the George Palmer Putnam expedition to the Adelie and Victoria regions, north of Hobart- town, Australia. Professor Gould has been urged on many occasions to make this trip.

Professor Gould, who was born in New York, is a graduate of Columbia University and holds the degrees of A.B., M.A., and Ph.D. in geology. He has been engaged in scientific work for many years, and has made several expeditions for the United States government in the Arctic regions. He is a member of the American Geographical Society and the American Geophysical Union.

Professor Gould, who is a native of Michigan, was graduated from the University of Michigan in 1909 with a degree in geology. He was appointed professor of geology at the University of Michigan in 1916, and has been engaged in scientific work since that time.

The expedition will consist of a party of 20 men, including the scientific staff, and will be equipped with the latest scientific instruments. The party will leave New York on June 1 and will reach the Antarctic region on July 15.

The expedition will be under the direction of Professor Gould, who will be assisted by a staff of scientists, including geologists, biologists, and meteorologists. The party will be equipped with the latest scientific instruments, including a magnetic compass, a theodolite, a seismograph, and a meteorological station.

The expedition will be financed by the U.S. government, and the work will be done for the purpose of exploring the Antarctic region and collecting scientific data.

The expedition will be in the Antarctic region from June 15 to August 15, and will return to New York on August 31.

VOYAGE OF THE ROYALIST

The Royalist, a small fishing schooner, was launched at Eastport, Maine, on January 1, 1916. The vessel is owned by the Royalist Fishing Company, and is operated by Captain John Johnson.

The Royalist is 60 feet long, 12 feet wide, and has a draft of 4 feet. She has a power of 150 horsepower and carries a crew of 12 men. The vessel is equipped with the latest fishing gear, including a net 400 feet long, and a seine 100 feet long.

The Royalist will be used for the purpose of fishing for cod, haddock, and hake in the waters off the coast of Maine.

The vessel is built of oak and pine and is of the type known as a dragger. She has a speed of 10 knots and can carry a cargo of 50 tons.

YPSILANTI PLANS UNION BUILDING

Plans for raising $100,000 for the construction of a union building at the State Normal School in Ypsilanti, Mich., have been announced. Among those interested in the project are the mayor of the district, Inc. College, and 80 or more prominent citizens of the city. The building will be called the "Union Building." The project was started by the late Dr. H. J. Berry, a prominent citizen of the city, and it is estimated that the completion of the building will bring in $100,000.

Governor Green, an assistant professor of education at the school, is co-chairman of the project, and he will be joined by Dr. J. H. Berry, the late mayor of the district, in charge of the project. The project will be completed by the end of the year.
