The commercial apple growers of the Pacific states and particularly those in Washington, are in a state of near panic over the present situation which threatens to ruin their apple crop. The market for their fruit is at a standstill, and many growers are faced with the prospect of having to destroy their entire crop or suffer heavy losses.

One of the most pressing problems facing the growers is the lack of buyers. Most markets are饱和 with apples, and there is simply no demand for the fruit at the current prices. This has led to a sharp drop in prices, with many growers being forced to sell their apples for fractions of the cost price, or even at a loss.

Another issue that is exacerbating the situation is the presence of disease in the apple crop. A widespread blight has been reported across the region, and it is feared that this could cause further damage to the fruit.

The growers are calling for immediate action from the government to help stabilize the market and provide some relief. They are also calling for support from consumers to help promote apple consumption and reduce the surplus.

Despite the challenges, the apple growers remain hopeful. They are urging the public to continue supporting apple consumption and to buy apples whenever possible.

The situation remains critical, and the apple growers are working tirelessly to find solutions to the problems they face. They are relying on the support of the public and the government to help them through this challenging period.
SAGINAW GETS $256,000 REFINERY

A contract has been entered into between the Saginaw Development Corporation, a subsidiary of the Saginaw Standard Oil Company of Saginaw, and the Standard Oil Company of Indiana, which will provide for the erection at Saginaw, at an early date, of a $256,000 refinery capable of producing about 100 barrels of gasoline a day. Construction is expected to start in May and an initial handling of 1,000 barrels is expected by the middle of the year.

The refinery will take care of the filling of the substantial Standard Oil Company account for furnace fuel oil, and will have an annual capacity of 1,200,000 barrels.

The establishment of a refinery at Saginaw is due to the development of the new industry in that territory. Hereafter the oil products have been loaded in tank cars and sent by the Standard Oil Company's refinery at Saginaw. The present situation of the new plant at Saginaw, the Saginaw Development Company, will be able to handle the oil products without the necessity of motor cars and will serve a great deal of the local demand for fuel oil.

The contract, as stated, has been signed.

RHEA THAYER

The Lice Powder with The Big Black X

In that it is known locally to prevent head lice and is a perfect remedy for the case of intense itching or loss of scalp hair. It is just what the doctor ordered, and works up to your satisfaction. It is used upon a large scale in many of the leading schools in the country and is especially recommended for the use of all schools and churches.

In the back yard of the house, which is very large, there are a lot of flowers, both in pots and in the ground. The ground is covered with green grass, and there are a lot of birds flying about. The sky is blue and there is a small cloud in the distance.

Saukatack Artist Leaves for Europe

Carl Heelman, artist and architect, from Saukatack, is starting this week on a visit of a year in Japan. The Michigan native was born in 1893 and has been active as an artist and teacher since the turn of the century. His work has been exhibited widely, including a recent show in Detroit. He is planning to visit Tokyo and other major cities during his trip.

HOLLAND CHURCH
NEARS 50TH YEAR

Three Romance of the Church this week will conclude the 50th year of its organization. The date of its founder's date was in 1877, and the church was built in 1880.

TO ADD 60 ROOMS TO LUDINGTON INN

A $100,000 addition to the first floors of Ludington HOTEL will be started this fall. The addition will be built on the west end of the hotel. It will be the second addition in three years and will considerably increase the comfort of the hotel.

Vacation Days Are Crammed with Work for This Missionary

Vernon has only been in town for the past day and a half. He has been very busy since he came back from the medical mission field in India. Last Sunday morning Mr. Brown arrived in town. He was very tired and looked very pale. He has been working very hard since he came back from the mission field. He has been planning to leave for the mission field later this week.

Tongue and the Pussy Cat were in a dispute.

They had seen plenty and plenty of things.

Wrapped up in a fine purse.

And to a small particle.

"What a beautiful Pussy you are..."

Puss said to the Owl, "You ought to be ashamed of yourself..."

"O let us be married--so long as we live!"

"But what shall we do for a ring?"

"We have an idea for a ring, a large ring for a party, and a small one for a wedding."

"To the hand where the long-fingered ring of the wedding band is worn."

And then in a wood, a wing-wing.

With a ring and a ring and a ring."

"This is the ring to sell for a thing."

"There's the ring I sold you."

When you are discovered

indulging in gobbling on ice cream cone.

Rip-off in fat with tip of fagots or fork.

LIVING AND LOVING

LITTLE MOTHERS

We heard of the "little mothers" of New York's east side, the little girls of the tenements, who must care for the babies while their mothers, work in sweatshops. There are, as said, many "little mothers" in our land, older than the younger workers and sisters.

They are often reported to the police and are arrested, but often the registration is not forced. The little mothers are not forced to register and are not forced to pay the fine.

The letter following is from such a little mother, who is trying to help the younger sister and is worried about what she can do by herself.

"My Dear Mrs. Lee: Although I am quite a young mother, I have been in business since I was six years old. I do the best I can. I have a little girl of my own, and I do the best I can to help her. I do not think you are the best mother."

Your affectionately,

"My little daughter, I am so proud of you. I have been in business since I was six years old. I do the best I can. I have a little girl of my own, and I do the best I can to help her. I do not think you are the best mother."

Rip-off in fat with tip of fagots or fork.

WOMEN OF TODAY

President Coolidge has appointed Mrs. Helen Varick Bowell of New York City a commissioner to represent the United States in the International Exhibition to be held in Chicago in 1933.

Mrs. Bowell will be known in Europe as the "First Lady" of the United States. She is the first woman to be appointed to the position of commissioner in the history of the World's Fair.

HELEN VARICK BOWELL

The International Exhibition to be held in Chicago in 1933.

A campaign has been started by the Women's National Council of the United States to help pay off the national debt.
Taking the field, I got a good grip on the pole and shot into the air. It is a never-ending struggle to please my friends. It requires more than skill and strength to win their approval. But you must take it seriously.

The little catch of the breath, and her powder on.

You are certainly doing a

strange sort of work.

I am saving her.
