CHINA SHOWS US A THING OR TWO HATCHING EGGS

Southwestern Ohio farmers are being urged by federal entomologists to introduce some native and a few non-native species to help control the northward invasion of the Mexican bean beetle, a pest that is reaching Lambda, the government is saying, if there is not a federal campaign to control the beetle when it does appear. Central Ohio is heavy with this entomologist. The same agency that is using chemical sprays and pesticides to control the insect is using the same methods to control the beetle. The chemical sprays are the same as those used in other regions of the country. NEW BANK FOR MACKINAW CITY

Mackinaw City, at the "jumping-off" place of the lower peninsulas of Mich- 
egano and Wisconsin, and the great Northern trade, is to have a state savings bank. Organizers of the Mackinaw City State Savings bank by local capital have 25 cents on deposit with the State Bank. Old people of both banks and of 20 years ago, including bankers, are making a great deal of money in this venture. Mackinaw has great need of a bank.

Thursday the old banks are to be opened and the doors of the new Bank of Northern Illinois will be opened, and both institutions will be open for business.

The Michigan Central, D. B. & A. and the Pennsylvania Lines, are keeping their trains there, the first and last runs to the northwestern Michigan points, and the 200 and 400 passengers on the trains will be added. The buildings of the new bank and the old banks are to be converted into a large hotel.

The town is prosperous, too, and the country is doing a small business in the new railroad town and the new railroad.

GRAND RAPIDS GET CONVENTIONS

GRAND RAPIDS—The Michigan Railroad Builders associ- ation will bring its annual convention to Grand Rapids, Feb. 1 and 2, 1899. Headquarters will be at the Grand Hotel.

Annual convention of the Michigan Order of the Eastern Star will be held in Grand Rapids, Oct. 11, 12 and 13. American Order of Deaconess will hold its convention in Grand Rapids same time.

Lake Michigan rises 11 inches in a year

According to the United States Harb- or Bureau at Detroit, Lake Michigan approximately two feet in a year, reaching a record high level of over 578 feet above mean sea level. This is the highest reported level for this year, and it is more than 10 inches higher than the lake level recorded for July 1898, which was 568 feet above mean sea level.

Are You Toxic?

It's a good point to be raised in the earliest stages of any philosophy of living. The habit of seeing ourselves as toxic is one of the most destructive, if not the most destructive, of all the habits of thought.
