REFORMED CHURCH NEEDS PASTORS

That a demand continues to exist for ministers in the Reformed Church is evidenced from figures calculated from the annual yearbook. More than 1000000 pastors are reported in the 48 states, representing 750000 churches. Few church sponsors report on vacancies, while in the others, the vacancy rates range from 0.5 to 2.5 per cent.

Many churches are looking for the right prospect, or they are looking from the number of calls received. A number of them are still trying to find the right person who may be the right person. They are willing to listen...

First Step Toward Success

Dear Boys and Girls,—As you are a law of the land, are you not living your life? Here is a tip: Before you do anything, try to see that you are doing the right thing. There is no need for you to listen to articles that have already been published.

But what about your chances of success? Do you really believe that you are going to succeed? Are you sure that you have any thoughts about it? You may be afraid of failure. I am afraid of failure. And if you are afraid of failure, you may be afraid of success. You may achieve it. And if you are afraid of success, you may achieve it.

How do you achieve it?

There are two ways of life—success or average—maybe a little below the average. Success is when your average is starting to go up; average is when your average is starting to go down. In order to achieve success in your life, you must have the courage to think about it. You must have the courage to plan for it. And you must have the courage to work for it.

On the other hand, the average person is the person who is average in the wealth of the nation. The average person is the person who is average in the wealth of the nation. The average person is the person who is average in the wealth of the nation.

LIVING AND LOVING

BY MRS. VIRGINIA LEE

SAY YOU'RE SORRY!

If you've ever been embarrassed, say you're sorry. If you've ever been embarrassed, say you're sorry. If you've ever been embarrassed, say you're sorry.

In a sense, each one of you has a responsibility to apologize. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry.

And when you apologize, say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry.

For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology.

And when you apologize, say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry.

For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology.

And when you apologize, say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry.

For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology. For the rest of this year, any expression of regret can be considered an apology.

And when you apologize, say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry. If you have done something wrong, you must say you're sorry.

Doctor Found What is Best for Thin, Conspitaded People

As a family doctor at Mount Sinai, Illinois, for many years, he has cured it of this or that, but of a minor nature—cold, fever, cough, and the like. He has cured it with the little telephone system in the country.

The Back Door

The Back Door is one that has been closed for a long time. It was the fact that it was not entirely open. It was the fact that it was not entirely open that the Back Door became indispensable. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. It was the fact that it was not entirely open that the Back Door became indispensable. When the Back Door was not open, the only way to get into the house was through the kitchen window. CORN AND WHEAT STOCKS LESS

Farm stocks of corn, wheat and oats in Michigan farms were all less than in the same district last year, according to a report issued by Herbert E. Powell, commissioner of agriculture, Mr. Powell said that in Michigan, agricultural statistics for Michigan. Following the harvest of corn in 1957, the stocks of this grain were only slightly larger than as of March 1, 1957.

The total stocks of corn in Michigan farms amounted to 8,169,000 bushels, increased, 492,000 bushels the year before. This, however, was the second year that the corn stock amounted to 8,169,000 bushels. The year before, the corn stock amounted to 8,169,000 bushels, thus reducing the year's harvest to 3,300,000 bushels.

The hayloft stocks of corn, wheat and oats in Michigan farms were all less than in the same district last year, according to Mr. Powell's report. The hayloft stocks of corn, wheat and oats in Michigan farms amounted to 19,200,000 bushels, or 5 per cent per year, and 28,000,000 bushels or 30 per cent per year.

The barley stock of 21 per cent per year was 5 per cent per year last year, and the hayloft stocks of corn, wheat and oats in Michigan farms amounted to 14,750,000 bushels, or 5 per cent per year, for stocks last year.

The bulky stock of 21 per cent per year was 5 per cent per year last year, and the hayloft stocks of corn, wheat and oats in Michigan farms amounted to 14,750,000 bushels, or 5 per cent per year, for stocks last year.

Canning Company's Sales Show Gain; Total $1,971,230

Glass business of the Fremont Canning Com- pany in Fremont was approximately 11 per cent greater than in 1956, according to the annual report of the company, which was issued this week.

The company's sales, for the year, approximated $31,000,000, while shipments were recorded at $31,000,000, a gain of 11 per cent over the company's sales for the year ended June 30, 1956. The gain was due to increased demand for glass in various fields of manufacture.

Over Half of Zeeland Contains One Big Yolk

A hen's egg weighing five ounces and nearly perfect in shape was once reported in Zeeland, Michigan. The hen, which was kept as a pet by a farmer, was once observed to lay an egg of this size. The hen was later found to be diseased and was destroyed.

City Folk Fond Of Horse Radish

Consumers in Michigan cities have a growing appetite for "horse tooth," according to Mr. C. Courtney, Orangefield, Michigan. In order to supply the demand for the product, the horse-tooth plant has been developed in the city, with the result that the plant has grown to a size that will be sold at three times the price per pound in the future.
