

A MICHIGAN AIR LINE ESTABLISHED

Michigan will have a regular air mail service beginning in the near future. It is reported officially that Postmaster General New awarded the contract for the air mail route from Chicago to points in Michigan, to the Thompson Aeronautical corporation, Cleveland.

The St. Louis via Kansas City to Omaha contract was awarded the Robertson Aircraft corporation, of St. Louis.

The Chicago Michigan line will start early in the summer, New said. It will run from Chicago to Kalamazoo, via South Bend; Bay City via Lansing, Flint and Saginaw; a spur from Kalamazoo to Pontiac, via Battle Creek, Jackson, Ann Arbor and Detroit; and Muskegon via Grand Rapids.

The Thompson corporation will carry mail for 89 cents a pound. New said the St. Louis-Kansas City-Omaha route would not be put in operation for months.

Plan \$650,000 Hospital

Plans have been announced for the proposed General Memorial Hospital in Bay City costing \$650,000. A total fund of \$800,000 will be raised, of which \$150,000 will be used for endowment purposes. The hospital fund is expected to be raised by public subscription.

HANDS ACROSS THE SEA

70-Year-Old Deputy Is Hero of Blaze At Manistee Resort

Deputy Sheriff Martin Anderson, 70, is lauded as a hero by owners of several cottages at Oak Park beach, two miles north of Manistee.

Anderson looked across Bar lake, where he lives, and saw a forest fire raging in the woods on the opposite shore. He ran half a mile with a shovel to put out the blaze, but found it too big to handle alone. Then he ran another mile to a farmhouse, commanded an automobile and drove to Manistee for fire fighters. When the fighters arrived the cottage of John W. Sparks, under construction, was on fire and the blaze was speeding toward other cottages.

The fire was extinguished speedily but three times thereafter sprang up from smoldering moss. Watchmen prevented its spread again.

The forests are dry as tinder now and several small fires have been discovered by tower men and others, particularly in the eastern part of the county.

Plans \$1,000,000 Laboratory

Research laboratories of the General Motors Corporation, concentrated for the most part at Dayton, Ohio, at the present time, will be housed in a \$1,000,000 building to be erected soon in Detroit at Second Boulevard and Milwaukee avenue. This information was brought to light when C. P. Jolle, of the G. M. C. legal department, asked the Detroit City Council for permission to close the alley in the block concerned and informed the council of the building plans.

While definite plans have not been completed for the structure, it is understood that the building will probably be from 11 to 15 stories in height and will cost more than \$1,000,000.

GREYHOUND TO TAKE OVER LAKE LINES

The Greyhound Line, Inc., has assumed control of the Lake Line, operated for the past eight months by the Grand Rapids Trust Company, receivers for the Grand Rapids, Grand Haven and Muskegon Interurban railway. Buses are being operated between Grand Rapids and Muskegon over the southern route by way of Coopersville, Spring Lake and Grand Haven, and over the northern route by way of Casnovia and Kent City.

Sour Stomach

"Phillips Milk of Magnesia"
Better than Soda

Instead of soda hereafter take a little "Phillips Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.

For fifty years genuine "Phillips Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. It neutralizes acid fermentations in the bowels and gently urges the souring waste from the system without purging. Besides, it is more pleasant to take than soda. Insist upon "Phillips." Twenty-five cent and fifty cent bottles, any drugstore. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

IN the tropics one finds the beautiful flamingo birds—tall and graceful—so symbolic of the Hotel Flamingo.

An hotel arising eighteen stories in the air with an unobstructed view of beautiful Lake Michigan from every room.

Here one finds the utmost in hotel refinements—360 rooms, each equipped with filtered ice-water, combination tub and shower, and specially designed ventilating system.

WOULD CHANGE BENTON HARBOR'S FORM OF GOVERNMENT

The attack on the commission form of government, which has been brewing in Benton Harbor for many months was made at a recent meeting of the city commission when a petition, signed by 825 voters of the city, was presented asking for a special election that some changes in the

present form of government be made. The signers of the petition do not like the idea of having the commissioners and the supervisors elected from the city at large, but they want the old ward lines re-established, and they want the mayor elected by the people, rather than by the commissioners. Other changes are also asked, but they make no attack on the city manager plan. The signatures on the petition will be checked up and if they are found to be O. K., it is very likely that a special election will be submitted within the next sixty days to give those who are dissatisfied with the present commission form of government an opportunity to vote for the old alderman form.

U. S. May Take 400,000 Acres For U. P. Park

Substantial additions to national forests in the lake states as well as in New England and the south are assured under the McNary-Woodruff act which signed by President Coolidge several days ago authorizes the appropriation of \$8,000,000 for the purchase of national forest lands during the next three years.

During the three years period, under authority provided in the new act, the purchase of 400,000 acres of cut-over or burned over forest lands in the upper peninsula of Michigan and an almost equal area in Minnesota will be concluded if the present program of the federal forestry service is accomplished.

One of the contemplated purchases in the upper peninsula is that of 250,000 acres in the so-called Mackinac area, situated in Chippewa county about 30 miles west of Sault Ste. Marie. The second unit to be acquired in the upper peninsula, for the purpose of rounding out and extending existing national forests in Michigan, is a 150,000 acre tract known as the Marquette area, about 10 miles south of Munising and located in Delta, Schoolcraft and Alger counties.

Under the terms of the act \$2,000,000 will become available on July 1, 1928; \$3,000,000 on July 1, 1929, and \$3,000,000 on July 1, 1930. As a result of the passage of the act at this time, the government will be able to exercise an option which was to have expired on June 1 next, and add to the White Mountain national forest in New Hampshire 22,500 acres in the famous Waterville area, which includes 800 acres of the finest virgin spruce left in New England.

As originally sponsored by the American Forestry association and introduced in both houses of congress, the McNary-Woodruff bill proposed a ten year purchasing program, involving an ultimate aggregate expenditure of \$40,000,000. The senate approved the plan, but the house slashed the program to a two-year term, with an annual authorization of only \$2,000,000. The bill as finally sent to the President was the result of a compromise.

Urge Harbor Springs to Support Pennsy Service

The Harbor Springs chamber of commerce adopted a resolution urging business men and establishments to pledge their support toward making the Pennsylvania railroad branch coming into Harbor Springs a profitable undertaking the year around.

CLUB WILL DINE 326 FEET UP

The first of their kind in Detroit will be the quarters of the new Savoyard Luncheon Club, to be ready for occupancy on the roof of the 26-story Buhl building on August 1. This club, with a membership limited to 300, will be similar to the famous Noonday Club of Chicago, and the Lawyers' Club of New York.

Construction has already started on the club quarters, which will comprise an additional story to the building. The main dining room will be 40 by 70 feet, approximately the same as the large ball room of the Statler Hotel. Huge windows on three sides will reveal a view of city and river from 326 feet above the ground. Officers of the club are: President, Alfred V. Breaux; vice president, Harrod C. Newland, and secretary-treasurer, F. Henry Wurzer.
