**Instrument Will Project Night Sky on Ceiling**

Here is a drawing of the huge planetarium being built in Chicago by Max Adler in Berlin, Germany. The instrument, which is said to be the first of its kind to be used in this country, will project the movement of thousands of stars and planets upon a ceiling, giving a life-like representation of the sky at night.

**Kellogg Green Peace Pact Pen**

**Resolved by a body of the 49th of the Atlantic, a mother, Mrs. Mary P. Selden, to clear away the Hayes Peace Pact pen, voted for by the Hayes Green Party, and which she raised in her hand.**

**Reared by Mail**

**Craps Will Be Four Times as Common Than Normal**

Craps yields about $4 per cent more average than recent years are forecast for the season by the Department of Agriculture. An improvement in the corn crop is expected to be seen in the Great Plano region especially the southwestern portion of the State. Craps is always watched with keen interest by those engaged in the breeding of livestock.

The 1928 wheat crop has increased the ability to recover from a poor start and production records are expected to be broken. It is estimated that the crop will reach 230,000,000 bushels, or the highest record ever equalled.

**Lose of Life in Peril**

**Whips Bandit**

**Sally's Sallies**

Though threats have been made against life, Kyle Bow, bathing custodian of Akron, O., is continuing his mannerly vice to escape conditions which he believes are a menace to the city. County President, E. J. Martin has hired Os. Clinton, detective, to attempt to take back Kyle. Bow, real estate operator, also has made charges of vice not good.

**Jimmy Jams**

**Think Wild Fowl Are On Increase**

A relation that exists between an increase in beaver and ducks is shown by the present study of water-wardens and other observers who have spent time in the woods this summer. Beavers have been seen more frequently in the county in the past two years and have enlarged the water areas considerably. Ducks, particularly the resident mallard, have been more common in the region. In addition, beaver and black ducks, a new species of waterfowl, have been seen more frequently.

**Light Cultivation Is Best for Most Garden Vegetables**

There is no excuse for deep cultivation in growing vegetables. Deep cultivation only serves to injure as the soil is compacted under the plow which of course makes it more difficult for the feeder to penetrate into the earth. Light cultivation, on the other hand, is claimed to be the best for most garden vegetables. This is because it leaves the soil in a fine tilth, which is necessary for the growth of vegetables.

**Mature Spreaider Gives Bigger Crop**

Many modern farm machinery is needed for the times; users save labor. Finally, each crop is used better and better and less waste. Mature sprayer application of fertilizer or other chemicals is needed to feed the plants. Plants with larger crops increase the yield and at the same time make it easier to get the crop to be handled or marketed. So, with mature sprayer application of fertilizer or other chemicals, the following results can be expected:

1. Increased yield of better quality. This means that the yield of crops is higher than when sprayed by hand. This fact has been shown by numerous tests applied to the fertilizer industry, and has resulted in increased yields. Actual results have been obtained by the spraying of fertilizers by the farmer, who is able to make the most of the results.

2. Increased yield of better quality. This means that the quality of crops is higher than when sprayed by hand. This fact has been shown by numerous tests applied to the fertilizer industry, and has resulted in increased yields. Actual results have been obtained by the spraying of fertilizers by the farmer, who is able to make the most of the results.

Country Builds $2,000 Miles of Roads This Year

Based on a population of $12,000,000 people and a budget of $1,660,000,714 to be spent for highway construction this year in the United States, every penguin in the country will have an individual inter- est of $1.42. As a result of this proposed federal- ly aided construction it is estimated that the highways of the nation will be much more efficient, with the result that the federal aid system, covering over 183,000 miles of important interstate truck lines, will be nearly two-thirds more effective.

There has been a total of 21,743 miles of federal and state roads built in Michigan. This is 1,531 miles more than the estimated mile- age of roads under construction, as of June 30, 1930. With every mile of the federal system, the federal government is paying $300 for each mile of roads under construction, and the projects approved for construction is $1,660,000,714, of which the government’s share is $1,561,755,614.

Some large ladders, used by the air corps for their high altitude flights, have been equipped with supplies and officials of the Michigan Air Corps will be on hand.

The general reserves purchased by the Pickford firm were installed in the largest oil tanks in Lake County, near the Pickford camp. It was stated by the Pickford camp that the Federal government is paying $200 for each mile of roads under construction, and the projects approved for construction is $1,660,000,714, of which the government’s share is $1,561,755,614.

The city of Goodrich is reducing its debt and by 1930, the city will have a balance of $35,000,000,000, according to the annual report of George Caruthers, city auditor. The report shows that by 1930, the city will have a balance of $35,000,000,000, compared with $27,000,000,000 in 1929. The report further shows that the department is operating a surplus of $2,000,000, and that the department will be able to reduce the budget to an even smaller amount in 1930.

The Charlotte Armory will Have New Pistol Range

An appropriation has been obtained by the Charlotte Armory to begin work on a new 100-yard pistol range. The work is to be done by the March band, and will be completed in about six weeks.

The information has been received and has made its way to the local papers. The Charlotte Armory has been working on this project for several months, and the work will be completed in time for the upcoming season.

Drunk: Carried Dynamite

Walter Johnson, a road superintendent, was arrested in Grand Rapids, Michigan, for carrying dynamite in his car. He is said to have been drinking heavily when he was stopped by authorities.

In an interview, Johnson stated that he was carrying dynamite for protection. He said that he had been threatened with violence by a group of men he had encountered while driving. He had a goal before being arrested and had been drinking heavily at the time of his arrest.

The dynamite was seized by authorities and will be submitted to a forensics expert for analysis. Johnson will appear in court at a later date to face charges.

Safe

Genuine BAYER ASPIRIN

SAV "BAYER ASPIRIN" and insist!

Proved safe by millions and prescribed by physicians for:

Cold Headache Neuritis Lambo Toothache Rheumatism

Applicable to most of the states of the United States. Reprints not being made. Accepted only "BAYER" package which contains precision directions. Also bottles of 25 and 100 (50c-6c).
Scoring the Years Greatest Success
--because of Distinctive Beauty
Thrilling Performance---Amazing Economy

Week after week and month after month the Bigger and Better Chevrolet has swept on to greater and greater heights of popularity—today it stands acknowledged everywhere as first choice of the nation for 1928!

Never has any Chevrolet enjoyed such overwhelming public acceptance. Never has any low-priced car progressed with such a combination of distinctive beauty, thrilling performance and amazing economy!

In beautiful bodies is the Fisher beauty in every detail of the new car, which includes Fisher's modern and individual methods for strength and design, and in the choice of accepted standards in the field of low-priced cars.

and out there prove that Fisher craftsmanship is a thing apart.

But Chevrolet performance is no less impressive than Chevrolet beauty and style. Never before on a low-priced car was it as easy to handle—for the steering mechanism is fitted with ball bearings throughout . . . the clutch and gear-shift lever respond to the slightest touch ... and big non-locking V-wheel brakes give a measure of braking control that is more than equal to every occasion.

Come in and see the car that has won the approval of more than three-quarters of all car buyers since January 1st. Learn for yourself what it is scoring the greatest success of this great automotive year!

HARRELSON AUTO SALES CO.
QUALITY AT LOW COST

Auction
Having sold my farm will sell at the same in Gobles
SATURDAY, Sept. 22
Commencing at 1:00 o'clock sharp, (fast time) the following described property:

LIVESTOCK
1 horse

RELEASED BY CENTRAL PRESS ASSOCIATION

Week of September 23

General Farm Outlook—For the week ending September 24, the weekly weather outlook for Michigan was characterized by relatively cool temperatures and moderate precipitation, which is favorable for the growing and ripening of the fall crops. The harvest season is well underway, and the majority of farmers are expected to complete their work in time for the arrival of the first cold front. However, some areas may experience delays due to persistent cloud cover and intermittent showers.

Dealers report that the demand for farm equipment is strong, with a particular increase in the sales of combines and tractors. The prices of wheat and corn are expected to remain stable, while soybeans and oats may experience minor fluctuations. The livestock market is generally steady, with no significant changes in the prices of hogs, cattle, and poultry.

Weather Forecast—The temperature during the upcoming week is expected to remain cool, with daily highs ranging from 60 to 70 degrees Fahrenheit. There is a high probability of scattered showers, especially in the late afternoon and early evening. Farmers are advised to keep their equipment covered and to prepare for potential delays in the harvest.

Department Store Ad—J. C. Penney has launched a new line of fall clothing, featuring a range of colors and styles that are both fashionable and functional. The ad encourages customers to shop early for the best selection, as the inventory is limited.

For Sale—A 1930 Model A Ford is available for immediate sale. The car is in excellent condition and has been well-maintained. Interested parties are encouraged to contact the owner for more information.

Cancer Prevention—The American Cancer Society recommends regular check-ups and screenings for early detection of cancer. Early detection is crucial in increasing the chances of successful treatment.

Auto Racing—The 1920 World Series of Auto Racing will be held in the coming weeks, featuring some of the country's top racing teams and drivers. The event will take place at the Michigan Speedway, and spectators are encouraged to attend.

Automobile Sales—Sales of new automobiles have increased significantly over the past few months, driven by pent-up demand and low interest rates. Dealers are reporting that the most popular models are the Model T Ford, the Chevrolet, and the Ford Model A.

The Traffic Officer—Mary Smith is the new traffic officer for the city of Lansing, replacing James Brown, who retired after 30 years of service. Officer Smith is a respected member of the community, with a strong background in law enforcement.

Bankruptcy—The Bankruptcy Court has announced that a new chapter 11 bankruptcy filing has been made by a local business. The business owner has stated that the decision to file was a last resort, but necessary to avoid insolvency.

Automobile Accident—A driver was involved in a minor accident on the Detroit-Farmington Road on September 22. The driver was not injured, and the accident did not cause any delays or disruptions.

Flamingos—The Flamingos are scheduled to perform at the Michigan State Fair on September 24. The band is known for its energetic and upbeat music, which is sure to entertain the audience.

Pharmacy—A new pharmacy has opened in downtown Lansing, offering a wide range of medications and health products. The pharmacy is open Monday through Saturday, and a full-time pharmacist is on staff.

Community News—The community news section is dedicated to sharing local events, activities, and news. It is a platform for residents to connect and stay informed about their community.

The world is full of beautiful and unique creatures, and the rest of the page continues to provide a wide range of topics and information that are relevant to the local community.
