FLINT, PONTIAC ON MAIL ROUTE

This Thompson Aeronautical Corporation planning is putting on a passenger service between the Michigan city and Toledo, which aircraft arrives next spring, using three motor planes. It would also like to supplement the present service with another flight from Bay City to Toledo which would enable it to pick up at the bay city airport, Saginaw, Flint, Pontiac and Detroit a few days after the view on the Michigan road. The new service will also enable a really fast and worthwhile service to the west coast, and will present the advantage to aerial traffic in Michigan to the west transmission to eastern, Pacific coast and southern points. The latter letter points to the main point in the mailing of the letter on the Pacific coast is also discussed Michigan aerial points with the first additional points. Since the announcement of The Outstanding Chevrolet of Chev-
role History, tens of thousands of people have already placed
their orders for this sensational new car! Never before has any
Chevrolet ever won such tremendous popular acceptance in so
short a period of time.

The great new six-cylinder valve-in-head motor is an engineering
masterpiece. Not only does it develop 32% more power than any
previous Chevrolet motor...not only does it offer a sensation-
ally increased speed and faster acceleration—but it provides this
amazing performance with such outstanding economy that it
delivers an average of better than 20 miles to the gallon of gasoline!

This spectacular performance and economy have been achieved as a result of the greatest
group of engine advancements that Chevrolet has ever announced—by a new and
heavier crankshaft...new carburetor...venturi choke and automatic accelerating plunger
...new camshaft...automatic rocker arm lubrication...new gasoline pump and
filter...semi-automatic spark control...and hot spot manifold.

The marvelous new bodies by Fisher
are designed for distinctive beauty and style
as well as exceptional comfort and safety.

The Case of the Day-Coach Passenger versus the Elimination of the Pullman Surcharge

A BOLITION of the Pullman Surcharge is once more being urged
for passage by the Congress of the United States.

A DPTION of the Robinson (Senate) Bill involves direct loss to
the railroads in revenues aggregating $40,000,000 per annum and this half
of necessity to have it be made up in some manner. There are three
expedients only:

(1) Increased passenger rates for all passengers whether in the day
coach or in the Pullmans or Parlor Cars.
(2) Restricting passenger service on certain lines.
(3) Charging this expense to the shippers of freight.

ANY one of these three expedients is undesirable, unfair from the
community standpoint, and not in the best interests of society as a whole.

IFTER all the Pullman service—first-class passengers traveling in sleeping
or parlor cars—is a high class hotel service on wheels, that a great part
of the traveling public does not demand nor expect.

THE surcharge—the 50 cent additional—tacked on to the regular
Pullman charge—is the special revenue derived by the railroads from this
perforf for the comfort and luxury. Such passengers require

A heavier capital investment in cars for Pullman passengers.
Two and one half times the space that is allotted to the passenger
in the day coach.

An average of twelve thousand two hundred and sixty yards of
car as against 9,800 pounds per passenger riding in day coaches.

Parking of Pullman cars before train departure from and after
arrival at the terminals involving considerable extra work and
basso transportation and requiring the building, for that purpose
only, of the railroads’ highest-priced lands in the larger cities.

Pullman cars being moved on a round trip—yearly—any distance,
in the California and Florida service, which means a double road
hand for one end and extra passenger service cars to be hauled extra
distances.

Railroads having to guarantee earnings on every line of Pullman
cars operated and running on the railroad over a period of years.

ALL of these obligations are extra expenses upon the railroads which
are not in the hands of the regular passenger.

IT is a principle of good business and good government to make
the user of a service pay for that special service. That is followed in the higher
levels for a fee per mile as against the ordinary service.

The Interstate Commerce Commission has twice refused to abolish
the surcharge as being contrary to the basic principle of the common
railroad to the greatest number, the guiding standard of all of that body’s doings.
The Interstate Commerce Commission is the proper constituted court
which represents the interests of all the people. Why should its decisions be upset
for the benefit of very few to the prejudice of the interests of the many.

Write your senator or congressman today protesting against this unfair and unwise legislation

Michigan Church Membership Increases 600,000 in Decade

The real-news center of the news from Michigan, as well as the number of churches and churches of church propriety, increased substantially during 1927. The total number of church members, according to the official records of the Michigan Union, was 1,276,873, compared with 751,815 in 1919. This is an increase of 525,058 in 10 years.

The report states that this increase is due mainly to the higher membership of the larger churches, whose membership has increased by 200,000 in the last decade. The smaller churches have also shown a corresponding increase, with the result that the total membership of the churches of church propriety has increased by 600,000 in the last decade.

How to Achieve Beautiful Skin

Dr. Phelps Addresses L. M. of Connecticut

"Strange as it may sound, a man may have lived a Christian life as well as his wife," said Dr. William W. Phelps, president of the English University, in his recent address on "The World and All." He explained that the reason for the phenomenon was that God was present in the classroom, and that this presence was evident in the way the students behaved towards each other.

The World and All

"Many girls have been shot in China," said Miss Jane Smith, the Chinese representative, "and the reason is that the Chinese government is very strict about the movement of women. If any young woman is caught near the border of China, she is immediately shot. The Chinese are very strict about their women, and they do not allow any girls to leave their homes without permission."

Living and Loving

By MRS. VIRGINIA ROBERTSON

DO YOU CRAVE LOVELY LIPS?

"You will never love a man if you do not love his lips," said Mrs. Virginia Robertson, author of "The Art of Loving." "Lips are the first thing a man notices in a woman, and they are the last thing he forgets." She recommended using a special lip balm that contains natural oils and herbs to moisturize and nourish the lips.

How to Achieve Beautiful Skin

"There are many things you can do to achieve beautiful skin," said Dr. John Smith, dermatologist. "First, keep your skin clean and moisturized. Use a gentle cleanser and a moisturizer that is suitable for your skin type. Second, protect your skin from the sun. Use a sunscreen with a high SPF. Third, eat a healthy diet. A diet rich in fruits and vegetables will provide your skin with the nutrients it needs to look its best."
The Goldsmith's Daughter

By F. A. DURIGAL

When your Children Cry for It

CASTORIA

It is a comfort when Italy is portrayed in its true colors. Fifty years ago, when the famous Italian writer, E. A. Poe, wrote his famous novel, "The Goldsmith's Daughter," it was with the purpose of showing the true nature of the Italian people. The novel was written in a time when Italy was divided into several states, each ruled by a different dynasty. The novel was a portrayal of the life of a young Italian girl, who was forced to leave her home and family in order to save her father from the hands of the Spanish Inquisition. The novel was a masterpiece of its time, and it continues to be a popular work of literature in Italy today.
