"French Ring Idol Now a Superb Ring" by J. Young

The practice that Perpetual Carpenter, former French heavyweight champion, obtained through skipping the rope and simple swinging seems to be in a most remarkable form. Carpenter has appeared in London, where he has a decided success in his exhibitions, and has played a notable role in producing other results.

For Dick's Admirers

Carpenter has appeared in London, where he has a decided success in his exhibitions, and has played a notable role in producing other results.

Arkansas Officials Lead Tour

When it comes to working for the public, it is not quite as pleasant as it sounds. However, the boys have been doing it, and this picture here shows the group of them. They have just finished "Wearin' Stripes." a tune.

Poultry

"WATCH FOR LEAGUE WEAKNESS IN THE POULTRY INDUSTRY"

At this season of the year, when the weather is too cold to lay the eggs, the laying flock becomes a heavy load to handle and to maintain. The price of layers is well regulated by the market, and the poultry man should watch the weather and adjust his poultry business accordingly.

"Mummies" Should Be Removed to Prevent Poultry Bacterial Infection

Removal of the "mummies" from the apple orchard during the dormant period is the best way to prevent bacterial infection. The bacterial infection is caused by the fungi that live on the surface of the infected apples. The fungi reproduce and spread to the healthy apples, and the infection spreads through the entire orchard.

"Putrid" Corn and Other Feed

An easy and effective method of curing the non-producing out of the mature corn is to remove it from the field as soon as possible. The corn should be thoroughly dried and then ground into a fine meal. The meal should be thoroughly mixed with the corn, and then the mixture should be spread on the ground and left to dry.

May Build Dock Near Muskegon

The possibility that the Illinois Land and Steel company would cut two miles of Muskegon harbor was eliminated when a delegation of Muskegon businessmen and representatives of the Illinois Steel company, at Chicago, met yesterday with the Illinois representative of the new harbor and reported conditions very favorable for both construction purposes and navigation. The meeting was held in the room of John E. Wilkerson, who represents the city of Muskegon in the Chicago legislature. Mr. Wilkerson, the representative of the city, was present at the meeting. He is a member of the Illinois Steel company, and is one of the most active members of the Muskegon chamber of commerce.

A further investigation will be made to determine the effects of the new entrance on the harbor, and other conditions and questions of relative importance will be discussed. While the bill may be in the harbor, the Muskegon Steel company has insisted on making a study of the subject, and the condition of the Muskegon harbor will be considered, subject to the possibility of the company's purchasing the property.

Would Combine Counties

Suggestions are being advanced in Lansing for the combination of several counties, including a proposal to combine Washtenaw and Ingham counties. The proposal would be a step in the direction of regional planning, and has been discussed at several meetings of the county commissioners. The proposal would not be new, as similar proposals have been made in other states. The proposal is based on the idea that a larger county would be able to provide better services and more efficient administration. The proposal has been met with some opposition, as some believe that a larger county would be too large to be effectively governed. However, the proposal has been discussed in detail, and the idea has been received with some favor by the county commissioners.

P. J. Hoffman, superintendent of the State parks for the Department of Conservation, announced plans for the improvement of several parks. The plans include the development of new facilities and the expansion of existing facilities. The parks will be improved to provide better recreational opportunities for the public. The improvements will be funded through state and federal grants.

State Parks Ready to Open to Public

Michigan has 6,673 miles of national, state, and local parks ready for the public this spring. The parks include state and county parks, state forests, state recreation areas, state natural areas, and state wildlife areas. The parks are open to the public for a variety of activities, including hiking, camping, picnicking, and fishing. The parks are located throughout the state, and are well-equipped with facilities and amenities. The parks are managed by the Michigan Department of Natural Resources, and are open to the public from dawn to dusk.

Six Thumb Phone Companies Merge

The six telephone companies in the Thumb district of the state have merged to form a single organization. The merger was announced by the companies, and will provide improved service to customers in the Thumb district. The companies include the Michigan Bell Telephone Company, the Grand Traverse Telephone Company, the Huron Telephone Company, the Bay County Telephone Company, the Saginaw Telephone Company, and the Thumb Telephone Company. The merger will provide improved service to customers, and will result in a more efficient and effective organization.

When your Children Cry for it

Baby has little sports at arms. All you have to do is prepare what you want to train your child to do. Then, when you want your child to do that exact thing, you can always say "see your little sports at arms!" and your little sports at arms will be ready to do whatever you want. It's always ready for the event of trust and confidence, too, for older children.

PASSING OF A FAMOUS HOSTLER

The funeral of 25-year-old Harry L. Frick, the popular hostler at the Bar, was held on Thursday afternoon. The service was conducted by the Rev. Mr. Frick, who was his father. The casket was draped with a black sash and a large bouquet of flowers. The service was attended by a large number of friends and acquaintances. The body was then taken to the home of the deceased, where it will remain until the interment in Graceland Cemetery.
Mortgage Foreclosure

Cuba's national visitors are determined that their candidates, Reina aparicio and Carolina Torres, will win the election for the president of Cuba. Reina has been favored by many of the voters in Cuba and has a good chance of winning.

OUTNUMBERED, MEN NOT DOWNHEARTED

The election of Mr. Reina appears to be a foregone conclusion, but there are those who believe that Mr. Torres can still win. The campaign has been very bitter and the results are not expected to be announced for several days.

More Visionaries Are Returning to America

Barofo Muntu was a young African who had been a leader of the freedom movement in his country. He left for the United States many years ago, but he has now returned to his homeland. His return has been greeted with great enthusiasm.

Caution Solons Against Naval Expansion

It is feared that the return of Mr. Muntu will lead to renewed demands for naval expansion. The government has been cautious in its responses to these demands, but it is not clear how it will react to the movement.

CUBA B aprAGAUS

The government has been criticized for its handling of the situation in Cuba. It is accused of being too soft on the rebels and too hard on the people of Cuba.

CUBA B aprAGAUS

Mother!
Clean Child's Bowels with "California Fig Syrup"

A Sour Stomach

Sour Stomach is not a disease; it is a symptom of many different conditions, from very simple to very serious. It is often caused by too much food, too little food, or too many liquids. It is important to consult a doctor if the symptoms persist.

How best to use Vicks VaporRub

1. AS A PREVENTIVE
Several times a day, inset Vicks up the nostrils. Also melt a little night and morning in a bowl of boiling water and inhale the steamizing medicated vapor. This helps to ward off germ-infection.

2. IF A COLD STARTS
If possible, go home and go to bed. Take a laxative and a hot lemonade. Apply hot, wet towels over throat and chest until the skin is thoroughly cold. Then rub vigorously with Vicks. Spread on thickly and cover with warm flannel. Leave on until hot, covering, so that the vapor, released by the body-warmth, may be freely inhaled. At the time, Vicks also acts through the skin like a poision.

Repeat the treatment every four hours, eat lightly, and stay in bed until the cold is broken. Complete rest helps the body throw off the cold more quickly.

3. AFTER A FLU ATTACK
Physicians advise that the chief danger in this epidemic is THROMBOSIS. For this reason, especially in the weak, the weakened system, may lead to bronchitis, sinusite-trouble or pneumonia. The child is especially tender, and often as needed, requires upsetting delicate digestion, as too much “dosing” is so apt to do.
