The Community Church had a large number of officers at the Community Sunday school at closing service of all Sunday school officers last Saturday.

If every Michigan resident will insist on having none but Michigan potatoes he will be in a minority and Michigan potato growers will he crushed. We need a lot more good Michigan grown potatoes in store at all times until the new Michigan crop is grown, growers in Michigan will be able to realize a better price for their crop large year’s last year’s. Try it.

Our great friend and former school superintendent R. H. Miller, whose worth as a politician is as well , as a politician, has been returned to the office of the Michigan Press Association for the sixth time at their convention this week. We congratulate him and wish him every success.

The Home and NIcky Plating Works are all set at their new place and are prepared to do their usual work and are ready to do whatever they can do for all kinds of plating at any time. They are the best plating works in this corner.

Poultry

VITAMIN E ESSENTIAL FOR POULTRY

For many years chemists have been interested in the beneficial effects of certain substances on the growth, health and libido of animals. But usually when 'growth' and 'health' are mentioned in connection with poultry, the topic is broiler chickens. It's a small science, and the emphasis usually is on the obvious things: feed, water, sanitation, disease control and so on. But the true poultry scientist knows that there is a vast amount to be learned about this subject. In fact, in his efforts to improve the health and productivity of poultry, the scientist is faced with an almost infinite number of problems...
GUARDING AGAINST THE FLU

Any cold can mean the flu; the surest way to avoid colds is to avoid colds. To avoid colds during the coming winter with a cold make prompt use of Bayer Aspirin.

Don’t wait to see if that first sneeze or cough is going to be a cold. Take Bayer Aspirin at the first sign of cold and be safe.

And whatever you do, don’t neglect a sore throat these days; gargle with Bayer Aspirin and remove the infection.

Guard against the flu by guarding against the colds that make you susceptible to the flu germs that lurk in crowded and poorly ventilated places.

Bay City wants an allocation of $120,000 for in addition to the post office which has been badly needed for years past. Congressman Roy B. Woodruff has taken the matter up with postoffice and treasury department officials and is confident that if any Michigan city is given consideration it will be the Bay City.

Benton Harbor has a post office which has been in need of improvement for several years. The city has been successful in getting an appropriation of $30,000 for the building. The tentative amount agreed upon for the new building will be $120,000. Benton Harbor now seeks influence. Whether it will get this year is doubtful.

The World and All

By CHARLES B. D解说

COUNTRY OF OURS

The world today is divided into two parts: the democratic countries and the Fascist countries. The Fascist countries are ruled by dictators, while the democratic countries are ruled by elected leaders.

Most of these words are written by people who do not believe in democracy. They believe in the idea of a strong, centralized government with the power to control all aspects of life. They believe that the people should be free to make decisions for themselves.

There are many other countries in the world that do not believe in democracy. They believe in the idea of a strong, centralized government with the power to control all aspects of life. They believe that the people should be free to make decisions for themselves.

Living and Loving

By MRS. VELMA RUSSELL

Here in a sentence for someone who may not have noticed it before: the world is divided into two parts. The Fascist countries, which are ruled by dictators, and the democratic countries, which are ruled by elected leaders.

There are many people who believe in democracy. They believe in the idea of a strong, centralized government with the power to control all aspects of life. They believe that the people should be free to make decisions for themselves.

If you are happy with the way things are, you are living in a Fascist country. If you are not happy with the way things are, you are living in a democratic country.

The key to happiness is to live in a country where you feel comfortable. If you feel comfortable, you will be happy. If you do not feel comfortable, you will not be happy.

The key to happiness is to live in a country where you feel comfortable. If you feel comfortable, you will be happy. If you do not feel comfortable, you will not be happy.

To get this feeling of comfort, you need to live in a country that is democratic. If you live in a democratic country, you will feel comfortable. If you live in a Fascist country, you will not feel comfortable.

To get this feeling of comfort, you need to live in a country that is democratic. If you live in a democratic country, you will feel comfortable. If you live in a Fascist country, you will not feel comfortable.

This is a country that is democratic. It is a country that is free. It is a country that is comfortable. It is a country that is happy.

This is a country that is democratic. It is a country that is free. It is a country that is comfortable. It is a country that is happy.

If you are interested in finding out more about this country, you can contact the Democratic Party Headquarters. They will be able to tell you more about the country and how to get involved.

Righths

There’s no one ever on quadruple duty to let you know what I said or did.

I don’t think I am going to lie down and just let anyone get away with it. I am going to stand up and fight for what I believe in. I am going to make my voice heard.

chapter xi

You would have to place that given the kiss of "Flu" or "P." even if both were girls! That he felt that he had a question, and served an ordinary day. She opened the window, turned the knob, and made the request. "I'm sorry, sir, but we'll not serve you at this time. The kitchen is closed, and there is no one in the house."

"And why was that?"

"I'm not sure, sir. Perhaps it's because it's too late in the day, or maybe there's a problem with the kitchen equipment."

"Well, it seems a pity," said Mr. Webber, "but I understand. Thank you for your understanding."

"You're welcome, sir. Please come again when the kitchen is open."

Mr. Webber thanked her and left the house, feeling a little disappointed. He had been looking forward to eating some delicious food, but now he would have to wait. He decided to take a walk and clear his mind. As he walked along the street, he noticed a group of young people playing Frisbee. He smiled to himself and continued his walk, feeling a little more content. He knew that he would have to be patient and wait for the kitchen to open, but he was confident that it would be worth it. He thought about the delicious meal that he would have and how much he looked forward to it. He continued his walk, feeling a little more relaxed and content. He knew that life was full of ups and downs, but he was determined to make the best of every situation.
