Blame Blackmellers for Explosion Injuring Many

PIG CROP IS
LOW IN 1928

A decrease of about 5 per cent in the total pig crop of 1928 from that of 1927 is reported by about 100,000 farmers in the Department of Agriculture, the survey is the lowest in the United States for about 10 years. The survey was made by the Department in cooperation with the states, and it shows that the total number of swine in the United States is 32,000,000. This is a decrease of about 5 per cent from last year, and is the lowest in the United States for about 10 years.

The decrease in the number of swine is due to several factors. The first and most important factor is the decrease in the number of swine in the United States. This is due to the fact that the United States is suffering from a severe depression. The second factor is the decrease in the number of swine in the United States. This is due to the fact that the United States is suffering from a severe depression. The third factor is the decrease in the number of swine in the United States. This is due to the fact that the United States is suffering from a severe depression.

GAS CO.'S TO SPEND $9,500,000

Michigan gas companies are planning to spend close to $9,200,000 in 1929 to construct, expand, equip, and improve, according to a compilation of budget figures made by the Michigan Public Utility Information Bureau.

During the period Michigan used an appropriated $1,000,000,000 of gas to supply some $11,600,000,000 of gas to 1927. This gain of $4,300,000,000 of gas, or a 37.5 per cent gain in 1927, is indicative of the strong advancing pressure which is to be expected in the present year. Gas companies are expanding their commercial and domestic activities. Appropriations authorized by the legislature to the amount of $4,900,000 total will look to a corresponding advance in 1929.

The gain in 1929 was due to several factors: the increased use of gas for heating purposes resulted in Michigan's largest output of gas during the year, particularly for house heating; gas heating, distribution and refrigeration. The largest output of gas was for the year was 1929, while the production for 1928 was 19,000,000,000 cubic feet, or 6,000,000,000 cubic feet in 1928.

In carrying gas service to the 49 additional communities which were connected by gas companies took advantage of the recent favorable pressure for the development of small communities. The gas companies passed on to these communities was 7,000,000,000 cubic feet of gas, or 3,000,000,000 cubic feet in 1928, 11,000,000,000 cubic feet in 1929.

Highway Costs Higher

Highway maintenance costs in Michigan are increasing at the rates of 456,000 annually. The maintenance budget for 1929 is set at $8,000,000, with 520 miles scheduled to be added to the main highway system. The 1928 budget was $7,000,000, with 515 miles added. $10,000,000,000,000 is being spent for highway maintenance.

1929 Banner Season On Lake Michigan

The season of 1929 was a banner one for transportation on Lake Michigan and other Great Lakes and also for the great lakes and other Great Lakes and other Great Lakes and other Great Lakes.

The season was the second largest ever recorded, with 1,250,000,000 cubic feet of gas being used by the 49 communities. The gas companies passed on to these communities was 7,000,000,000 cubic feet of gas, or 3,000,000,000 cubic feet in 1928, 11,000,000,000 cubic feet in 1929.

Mortgage Foreclosure

Mortgagor: The Humber Co., New York, N.Y.

Liens of Lifetimes

Some buyers have not found that the ceilings of the lifetime liens are as high as they expected. In such cases, the liens are not binding on the property, and the mortgagor may sell the property without the consent of the lienholder. The liens may be satisfied by the payment of the amount due, plus the interest thereon, or by the sale of the property.

New Uses for Rubber

Rubber may be used in the manufacture of clothing, and also in the construction of windows, doors, and furniture. It is a material that is easy to work with, and is resistant to chemicals and abrasion. It is also used in the manufacture of tires for automobiles.

How to Achieve Beauty

By M. J. Herrer

In this day and age, it is necessary for women to be well-groomed at all times. This means that they must take care of their hair, nails, and teeth. Hair and nails should be regularly washed and trimmed, and teeth should be brushed and flossed daily.

With the Women of Today

By Lillian Campbell

A woman should always look her best. She should always keep her hair and nails well-groomed.

JACK AND JILL

By CLIFFORD WEBB

(First published by The Saturday Evening Post, June 18, 1927, Copyright 1927, The Saturday Evening Post, Inc.)

Well, I reckon Jack could use a little bit of good advice. He has a wife, and he just can't seem to please her. He's always trying to be the perfect gentleman, but she never seems to be satisfied.

I mean, he's the most well-meaning fellow you ever saw. He's always trying to do the right thing, but she just won't let him be himself. She's always挑剔 him. She just can't seem to be happy with him the way he is.

I've been talking to her about it, and she just won't listen. She says he's just not trying hard enough. I don't know what to do.

She's just the most demanding woman I've ever seen. She wants him to be perfect all the time. I mean, she just wants him to be the best husband in the world. She just won't settle for anything less.

I've been trying to explain to her that he's just not perfect. He's just a normal human being. But she just won't listen. She just wants him to be perfect all the time.

I don't know what to do. I've tried everything, but she just won't listen. She's just the most demanding woman I've ever seen. She just won't settle for anything less. She just wants him to be perfect all the time.

I've been trying to explain to her that he's just not perfect. He's just a normal human being. But she just won't listen. She just wants him to be perfect all the time. I don't know what to do.

She's just the most demanding woman I've ever seen. She just won't settle for anything less. She just wants him to be perfect all the time. I don't know what to do.
