Local Recreations

Massic trip tonight. First flight.

Mrs. Fredrick Wagner is home from Eclectic Springs.

Mr. and Mrs. Archie Stueh and Mr. and Mrs. Ted Demery of Kalamazoo are in town.

Eleanor Merzlein has gone to Kalamazoo where he has a position in the Chocolate Shop. Good luck.

Mrs. George and Donald, for the week.

E. George Schult and Ida Nicolai are visiting their father in Nashville and are very happy with the weather.

The Glover Company of Ann Arbor visited her parents, Mr. and Mrs. Homer Conner, between these times.

Master Neil Kralcik of Kalamazoo is going to Glenn Smith’s and will be back at his office in April.

Jacquard touch. The accompanying picture shows the progress of the new post office.

Mr. and Mrs. D. M. King of Kalamazoo are in town for the weekend to visit their daughter, Gloria Elinth, Thursday, April 11, 1929. The mother was the first baby girl to be delivered this year.

Mr. and Mrs. Ernest Tom-Tom-Pah of St. Charles and Mr. and Mrs. A. L. Thomas of Warren are in Kalamazoo at the home of Mr. and Mrs. Richard Grinstead.

Mr. and Mrs. Bert Colfliger entertained at Sunday dinner Mr. and Mrs. Canon, Mr. and Mrs. Cecil Jordan and Mr. and Mrs. W. J. Davis.

The Kalamazoo High School boys of 1920 and 1921 celebrated Arthur Kahle’s birthday on Tuesday. Each day this boy the “olver” is the “glow” of every one. He is sure to be the center of a large number of activities and quantities and this order, which is his birthday, his friends are sure to be here.

Surely it is a good occasion that all his friends will be gathered. It is easy to believe that this is the case and both parties are sure to be there.

“Now, Wake up!” as pronounced by the seniors at the opera house in Kalamazoo. Every time they pass by, every face is turned their way. They have been there for the past two weeks and will be there for the next two weeks. They will show us the way.

The Kahle family is in these house parties through their efforts. They have been here for the past two weeks and will be here for the next two weeks. Their friends are sure to be there.

Thereafter, the boys and girls went out to Narine and made up the usual part of the party.

Thereafter, the girls and boys were quite happy and the party ended.

The Kahle family is in these house parties through their efforts. They have been there for the past two weeks and will be here for the next two weeks. Their friends are sure to be there.

Arthur Kahle and party at the Kahle’s house.

Ford Airplane Business Trembled in 12 Months

During 1928 the Ford Motor company was faced with the greatest business crisis it has ever known. The present production schedule calls for about 12,000 planes a month. It is understood that the company is making a desperate effort to maintain this schedule, despite the fact that many orders have been cancelled.

The manufacturing capacity of the Detroit airplane factories was increased to 4,000 planes a month in 1928. At the beginning of the year, Ford was planning to increase this capacity to 6,000 planes a month by the end of the year. However, the company was forced to reduce its production schedule to 1,500 planes a month.

The Ford plane was a popular aircraft, but its production was limited by the availability of materials and labor. The company was unable to meet the demand for planes, and many orders were cancelled. The company was forced to cut its production schedule to 1,500 planes a month.

State Holds Up Paving of M-3

That improvement of state highway M-3 in Michigan could be removed from the state highway list for 1929 is believed likely by state highway engineers.

Barberies have just completed work on the road, which was contracted by the state, but petitioners, letters and reports have reached the state highway department and the House committee on roads, asking for an order for construction on this road. In the opinion of some of the committee members, the road can be paved at a much lower cost and the state highway commissioners have indicated that they will give the matter personal inspection.

Ludington Mopping Out

Following a constant established last summer in which whaling property was scattered with the idea of getting rid of unsightly articles, the city council of Ludington, Michigan, has voted to continue the movement by mopping up.

Petitions have been presented to the city council asking for the removal of unsightly articles from the streets.

White Cloud Would Have Moped Out

Several proposals have been brought before the city council of White Cloud, Michigan, asking for the mopping up of unsightly articles on the streets.

The city council has voted to continue the movement by mopping up unsightly articles from the streets.

Gold Mine of Ideas for Farmers

“Schools, colleges and libraries are filled with gold mines of ideas for farmers. Tax-payers, as a rule, are not too anxious to get them.” —E. T. Laughlin, of Chicago.

“I don’t see that there is any reason why a farmer should not go to school and get ideas for his farm.” —F. B. Hall, of New York.

“I am convinced that the right kind of education is the greatest asset a farmer can have.” —E. T. Laughlin, of Chicago.
RAISES 40,000 BUS.
ONIONS ON SIXTY ACRES
AT VALUE OF $60,000

Forty thousand bushels of onions, having a value of approximately sixty dollars per thousand dollars, were produced on sixty acres of land at the St. R., Drake, Minn., farms of Mr. and Mrs. Albert Johnson, during the past year, and plans are now being made to double the acreage and production for the coming season. One hundred and twenty acres are already planted and ready to be harvested this spring.

During the past winter eight or ten thousand
large onions, weighing from three to five pounds each, have been cured for the market and shipped to all parts of the country for consumption. This year the onion crop is expected to be larger, and the farmers will have a much better market for their product.

The farm lies on the outskirts of the town of Drake, and is located on the edge of a large prairie. The climate is ideal for growing onions, and the farmers expect a good crop this year.

Prepare Steer For Fall Show

Exhibitors of steers in the fall steer classes at the Michigan State Fair, which will be held in September, are advised to select their steers early for the show ring, according to the staff of the western division of the Michigan State Agricultural College, which is the home county of the exhibitors. The steers selected should be of the right age and color for the show, and should be well fed and well cared for.

The steer show at the Michigan State Fair is one of the largest in the state, and the results of these shows are often used as a basis for judging steers at other shows. Exhibitors are advised to select their steers early and to prepare them well for the show.

CAREFUL EYE

Throughout the state, the agricultural colleges and universities are conducting steers shows in the various counties, and these shows are an important part of the farming community.

46 COUNTIES NOW
Have Farm Agents

Michigan is rapidly approaching the goal of one farm agent per 100 farms, with 46 of the 58 counties now being served by a full-time farm agent. This is an increase of 28 counties in the last five years, and the trend of increasing the number of farm agents is expected to continue.

CARELESSLY CUT POTATO
Seed Is Cause of Many Missed Hills

Carrot growers are reaping all the benefits of the improved varieties of seed potatoes, and the result is a large increase in the number of carrots produced. The improved varieties of seed potatoes are now available in almost all of the counties, and the result is a large increase in the number of carrots produced.

HINTS ON WORST

From time to time we have been giving advice and hints on planting potatoes, and we wish to give yet again this year the advice and instructions which we gave last year, but with the addition of a few new words.

1. Do not use new chitted seed potatoes. Use old seed potatoes, which have been in storage at least a year.

2. Do not give the thick more than one-fourth of the recommended dose. This will cause blights and other diseases.

3. Allow the chitted seed potatoes to drain thoroughly before planting. This will prevent blights and other diseases.

4. Use the chitted seed potatoes at the right time. This is the time when the soil is warm and the weather is right.

5. Use the chitted seed potatoes at the right depth. This is the time when the soil is warm and the weather is right.

6. Use the chitted seed potatoes at the right depth. This is the time when the soil is warm and the weather is right.

THE NEWS
JACK AND JILL

By CLIFFORD WEBB

"There was a stiff upper lip, it doesn't fool me." It was a remark of the celebrated stage manager, Sir Jonathan, who had opened a new production in London, and was paying a visit to the theatre. He was addressing the author, Mr. R. H. D. Smith, who had written the play.

Mr. Smith replied: "I know, Sir Jonathan, but I've had to put up with it for years."

"Indeed?" said Sir Jonathan, "I didn't know you had."

"I've had to put up with it for years," repeated Mr. Smith. "I've had to put up with it for years."

"But why, Mr. Smith, why?" asked Sir Jonathan, "why have you put up with it for years?"

"Because," said Mr. Smith, "because it's the only way to keep the audience satisfied."
By HILDA HUNT

From green goddess to Khrista, the mirror invaded every part of the room. Not only was she the reflection of the moment in its own dressing, she was seen as a guide to tables and dressing and for foxes of tiny corner shelve. For the last 25 years. Of course one does not look at too many mirrors in one room but if a mirror is every room is a great discovery, so the idea is that if in places of some misty dressing lobby it possesses both beauty and practicality. As a mirror in the dining room, it can be seen that there are two ways of looking at the mirror a little farther. It can be used as a guide to the room in the kitchen. We are all very familiar with the idea of the mirror in the kitchen. The framed mirror is no reason. All depends upon the type of mirror, that is, is it furnished with a truly modern style or with a more American or period finish?

When the mirror was a mirror against the wall, the mirror was an American mirror and it was placed in the kitchen. The mirror was adapted to the traditional room in the kitchen. A mirror in the kitchen is usually used as a guide to the room in the kitchen. A mirror in the kitchen is usually used as a guide to the room in the kitchen.

To Study of German in St. Joseph

Charles M. Mclnnes, manager of the Hertog Hotel in St. Joseph, Mo., formerly president of the Hertog Hotel in St. Joseph, Mo., has been appointed a member of the board of trustees of the Hertog Hotel in St. Joseph, Mo. The board is composed of 11 members, and the membership of the board is the same as that of the Hertog Hotel in St. Joseph, Mo.

Among the members in the college is a man who was considered to be a graduate of the college, class of '42. The college was founded by Dr. John Otto, the son of one of the first graduates, class of '42. The college was the only one of its kind in the United States, and the college was the only one of its kind in the United States.

BACHELOR DEGREE

Nearly 500 graduates of the college will receive the Bachelor of Science degree in June. The members of the graduating class, including the senior class, will be graduated on June 14, 1929. The college was founded by Dr. John Otto, the son of one of the first graduates, class of '42. The college was the only one of its kind in the United States, and the college was the only one of its kind in the United States.

SUGGESTIONS

If you have a crust or a turkey that is ready to be cut, you can save it for later. Either use a very thin little piece or slice a few thin slices and save the rest for later. Place the rest in the refrigerator and slice them later. The food will keep longer and you can store it longer.

The State legislature has been asked to appropriate $1,500,000 for the building of a new state capital. The money will be used for the construction of a new state capital.

The World and All

By CHARLES R. DRICOLL

(Continued from Page 1)

The idea is that the mirror is a device for the guidance of the people in the kitchen. It is not only used as a guide to the room in the kitchen, but it is also used as a guide to the room in the kitchen. The mirror is used in the kitchen as a guide to the room in the kitchen.

THE ROYAL DECEASED

You bid me try, Blue Rose, with a brand of smugness.

Reflect.—None.

"The time's up," old, jangles plump.

Still, there are five lines—ranging.

The more I think, the more I think.

My friend! This hit you.

You bid me try.

That makes eight lines.

The poet—An old, old man.

"To all those who have your eyes bright enough to see, this is your time to shine. When wise command, what can't command desire?"

Behold.—The Roundeye, tasteful, light.

A Short Visit to California by Austin Doherty (1848-1922)

With the Women of Today

By Lillian Campbell

Just how important the spirit of America is in the world today is coming in the world of music may be seen in the fact that Countess Olga Medlana-Albani, a born and bred Russian, is a great radio commentator. Her voice is a great new medium that is being used in the world of music.

To take care of her varied interests, Countess Olga Medlana-Albani, is herself a great music teacher and has a great many students of her own. She is also a great music teacher and has a great many students of her own. She is also a great music teacher and has a great many students of her own.

MACHINE ENGINEERING

College Offers 130 Courses

The engineering college of the City University of New York offers a course in civil engineering and a course in mechanical engineering. The course in civil engineering is taught by Professor C. E. D. Green, and the course in mechanical engineering is taught by Professor C. E. D. Green.

For the convenience of the student, the course in civil engineering is offered during the summer months, and the course in mechanical engineering is offered during the winter months.
