"Path Across the Hill"
See the Black fox coming be- 
tween the two hedges at the 
Parent's, Teachers of Merrim " 
children, serve at home Friday night. 
Franky has a new 
Rolph's, and "The" 
Charles Howard has moved to his 
new home on South Auberjonois. 
Catherine Fick was a frequent guest 
at Vern Hudson's. 
Mr. and Mrs. E.Kenneth of Gosport, Ind., visited at All 
Hartford. 
Ray Knox has sold his house to 
Charles Howard, who is moving to the 
Cap Long house. 
Another fine new summer home 
opened for business is "The Mill" on Lake Road. 
Mr. and Mrs. Sutliff, Tom 
Green, and Mr. and Mrs. 
John Green, called on 
Mr. and Mrs. W. Dinwiddie 
Sunday. 
Mr. and Mrs. E. Randolph 
visited at John C. York's 
Sunday. 
Mr. and Mrs. Chalmers of Lake 
Minnetonka and Mr. and Mrs. 
Arthur C. Peterson at 
Paw Cat at Ed Cover's Sun-
day. 
Mr. and Mrs. J. Nightingale, Mr.
and Mrs. Ernest Day, Mr. and Mrs. 
John H. Howard, and Mr. and Mrs. 
J. W. Coburn and family 
visited the Petersons Sunday. 
This dweller declared the appoin-t 
tment of village utility man and the 
dweller, the Miss Pettit, the 
job and he will be on duty as 
early as the first of June. 
George Fugate attended the 
Lake Minnetonka Camp annual 
meet Thursday and Friday, and 
reports everything both good for 
the members of this popular re-
cess. 
The Lewis/Coffinger home has been 
sold to Dr. F. N. Fordham of 
Chicago and he will soon move in. 
This town has not had its share of sunny weather this 
year and this sale will be welcome. 
Dr. F. N. Fordham is a 
member of the Medical Board for 
Gobles, as of late interest.

WANTED

What Will You do

When your Children Cry for It

There is hardly a household that has not heard of Catillation. At least five million dollars worth of Catillation is created daily out of the work and troubles of smaller children. And not only are the children affected, but the whole household is thrown into emotional turmoil. This makes a catillation a deadly dangerous trouble. But you can save your family from the results of Catillation by the use of our exclusive children's aid. With Catillation, you can prevent the untold misery that has brought millions of suffering children into the world. And now you can have Catillation for only five dollars. The price will be raised at once. Each child must have a copy of this book. You can order it at any newsstand. And you can place your order at any newsstand. But you can save your family from the results of Catillation by the use of our exclusive children's aid. With Catillation, you can prevent the untold misery that has brought millions of suffering children into the world. And now you can have Catillation for only five dollars. The price will be raised at once. Each child must have a copy of this book. You can order it at any newsstand.
Residents of Des Moines, Mtc., received an idea of what the spring thaws that have been sweeping the Missouri Valley are like, when Cameron creek, driven out of its beds by a Coolnoff, poured through a two-mile area, causing some property damage. The river drew a broad avenue, and the difficulties experienced by a miller in the inundated section of the city.

Poultry

At the start of the new farm year, milkymen as well as farmers with flocks of hens from Michigan counties and poultry growers in the states to the eastward, are powdering the subject of milk prices. It is said that just what steps may be taken to bring about a more salutary state of affairs is at present the central topic of discussion. Many farmers in Michigan are beginning to get the idea that the state of milk prices, which is usually a matter of small consequence, may actually be important to their profits. If steps cannot be taken to straighten the producer up with the public, it is feared that the Michigan poultrymen will lose their position in the market.

Lindbergh Rejoins His Fiancée in Mexico City

When Col. Charles A. Lindbergh arrived in Mexico City recently, from Harlingen, Tex., the consumation was had by thousands in the air and on the streets. The aeroplane was brought to the airport by an auto and the couple were whisked to the St. Regis Hotel without any further ado. The visit is said to be of temporary character.

State Militia Keeps Order in Carolina Strike

The adjourned session of the State Legislature in North Carolina was opened Thursday with a show of strength. The State militia is said to be on the alert all along the line. The situation in the State is said to be quiet except for a few disturbances. The State militia is said to be on the alert all along the line. The situation in the State is said to be quiet except for a few disturbances.

Points to observe in making, feeding silage to stock

Some important points to observe in the making and feeding of silage are discussed by livestock specialists of the United States Department of Agriculture in a revised edition of Farm Bulletin No. 179, "The Making and Feeding of Silage," which is now ready for distribution.

1. "Silage," the cuttings of the bulking matter, is the most important part of the silage, and should be made in the best manner possible. It is necessary to use as much green matter as possible, and to do so as prompt as possible. It is necessary to use as much green matter as possible, and to do so as prompt as possible.

2. "Silage is stored for feeding to livestock. The process involves the heating of the green matter to a high temperature, which destroys the harmful bacteria. The process involves the heating of the green matter to a high temperature, which destroys the harmful bacteria.

3. "Silage ought to be stored in a cool, dry, and well-ventilated place. The place should be well-ventilated and well-ventilated. The place should be well-ventilated and well-ventilated.

CAMEBACK NEWS

Michigan’s Milk Supply

For some years the state of Michigan has been short of milk supplies. Michigan dairy products are in great demand, and the state is being forced to import milk from other states in order to meet the demand. A surplus of milk is needed in the state in order to meet the demand.

Do You Know These?

1. What are milk prices at this time?
2. What is the price of milk in the city?
3. What are the prices of milk in the country?

6. Milk prices are generally downward, and are dependent upon the supply of milk available in the market. Prices vary from town to town and from county to county, but are generally lower in the city than in the country.

7. In some places, milk prices are at their lowest point in years, while in others they are at their highest point. Prices are subject to wide fluctuations, and are influenced by many factors, such as the weather, the supply of milk available in the market, the demand for milk, and the prices of other commodities.

8. Milk prices are subject to wide fluctuations, and are influenced by many factors, such as the weather, the supply of milk available in the market, the demand for milk, and the prices of other commodities.

LAUD MICHIGAN FIRE VIGILANCE

SPEAKING OF DANCE REVIVALS

The value of state-wide effort in fire prevention is demonstrated in the recent activities following the 1930 Fire Wars conduct- ed by the Michigan Fire Marshals Association, the United States and the National Fire Wars Council. This is a national competition for the best fire prevention campaign and similar organizations affiliated. Each year, the fire marshals attempt to educate the public in fire safety through public presentations, exhibit booths, local newspapers, and radio and television spots.

The Michigan Fire Marshals Association, under the leadership of Chief Fire Marshal Harold W. Satterfield, has made significant contributions to fire safety education. The association receives recognition for its efforts to reduce the incidence of fire and promote public awareness.

The State Forestry Work Reaches Peak in 1930

The peak of reforestation in Michigan in recent years was achieved in 1930. A total of 3,000,000 seedlings were planted with more than 400,000 acres of new forestland established. This achievement was due to the combined efforts of the Michigan Forestry Commission and the Department of Conservation.

Jackson Plans D.G. MARKER

A Republican memorial commission of the University of Michigan has outlined preliminary plans for a campus to be developed on property owned by the university's faculty. The campus will be constructed in connection with the observance of the 50th anniversary of the university's founding in 1930. It is expected that the plans will be completed in the spring and construction will begin in the fall of 1930. The plans will be prepared by architects from various parts of the United States.

Published Named for Berrien County Judge

Harry L. Benham, publisher of the Berrien County Record, who was born to Robert B. Benham, was named secretary of the Berrien County Chamber of Commerce, succeed to Alfred W. N. Charlton. The latter resigned, after serving four years.

Farms Increased by 1,000,000 Acres

Farms in Michigan have increased by 1,000,000 acres since 1925, according to the latest estimates. This increase is attributed to improved crop yields and better farming practices.

Paper Makers Fight Case in Tarrytown

A committee is fighting the proposed increase in the tariff on paper in order to protect the interests of the paper industry. The proposed increase would add costs to the price of paper, which is already high.

The Chestnut Bean

The Chestnut Bean is a popular type of bean, known for its distinctive flavor and texture. It is a good source of protein and fiber.

Ward B. James, Manager

David Roy, FANNED AMES

Davy the "Weir" man in the House of David, between factions headed by Attorney H. D. Davidson and "Queeny" Mary Parrott, rivalry tends for official corps. In the Battle of the House of David, which was opened yesterday, the "Weir" faction fared badly against the "Queeny" faction. The "Weir" faction seemed to have gained the upper hand in the early stages of the battle, but the "Queeny" faction fought back with great vigor and eventually emerged victorious.

Smell Seen as Menance to " Poky Fish in North"

Danger of taking "poky" fish from the rivers of Michigan was expressed by George E. Sisley, director of the Department of Natural Resources.

"The overreaching presence of piscivorous animals is still causing a decrease in the number of other fish every year," Sisley noted.

"In the state's fishery department, the problem was to reduce the population of certain species of fish, such as "poky" fish, which is commonly found in the rivers of Michigan. Overreaching can have significant impacts on the fish population and the ecosystem as a whole."
