CAMELA NEWS

Where $110,000 Worth of Dynamite Ruptured Attack

An excellent production record has
just been compiled by Ralphy To-
trado’s (Vina) 451-501, a marketed Jer-
sey cow in the Army herd owned by
the Detroit Creamery Co., M. Glen-
er, Mich. This animal was born on Jan-
uary 8, 1959, and in 20 days produced a
total of 7394.58 pounds of butter-
fat, which, at the current price of
1.13 cents per pound, was worth
$110,000. This is the highest pro-
duction for a Jersey cow in the
United States for the year of
1959.

Postmaster to Aid in Beet Prollelance

Regrettably, the prevalence of the
virus-like disease in livestock and
insects has resulted in a reduction
of the postcard market, according
to the report of Mr. Robert Rager, the
postmaster in charge. It is feared that
the virus will spread to the neigh-
boring states and to other parts of the
country.

Where Eight Horses and Stable Boy Perished

Here are the remains of Harry Peter Whitney stables at the Harrow de Gras, Md., race track, where the
wreck through three buildings, burning eight thoroughbreds and a stable boy to death.

Ruins of Textile Workers Union After Attack

Between the prevalence of the virus-like disease in livestock and
insects has resulted in a reduction
of the postcard market, according
to the report of Mr. Robert Rager, the
postmaster in charge. It is feared that
the virus will spread to the neigh-
boring states and to other parts of the
country.

CANTON, Miss. — Enough dynamite was
brought into the city by the Vicksburg
Fire Department to handle
any fire emergency. The dynamite was
used to clear the fire area.

The company will market stock in the
upcoming spring, according to
Mr. Robert Rager, the postmaster in charge.

The virus will spread to the neigh-
boring states and to other parts of the
country.

Getting Advance Experience

Delegate to Berlin

One of the 24 women from the
United States who will attend the
twenty-fifth anniversary meeting of
the International Alliance of Work-
ers for Rights and Equal Rights in
Berlin, Germany, June 17-22, is Mrs.
Wendy Wood Ford, Portland, Maine.

Poultry

CONDENSED CHICKEN RAISING RULES

Chickens are the cheapest livestock
in raising chickens. In the high-
lands, the baby chicks have been
left unattended for several days,
and where the hens have been
run over by their natural instincts.

Chick management hints which should be observed are:
1. Keep all feed and water in separate
bottles. (Beef and water should be
fed daily for three days of their lives. This
was found to be the best way to
produce a high-nutrient diet for
chickens.)
2. Be sure to provide a clean
nesting box. (This will help
prevent disease in the nest.

For the best results, add
cod liver oil to the hens’ feed
at a rate of 1 per cent, by weight, of the
hens’ feed. This will increase
the livability of the eggs up
from 75 per cent to 90 per cent.

The farmer who raises chickens will
benefit by a few suggestions:

1. Always use the best chicken
feed, free from mold and dust,
which can be fed either as
whole meal or broken meal.

2. The egg laying season is
usually from May 1 to August 11.

3. Egg production may be
increased by feeding the
chickens a diet of a mixture
of corn, oats, and chicken
meal.

4. Eggs should be kept cold.

5. The hens should be
kept in a clean, dry
nesting box.

6. The eggs should be
cooked in a damp towel
before being fed to the
chickens.

7. The eggs should be
kept cool and dry.

8. The eggs should be
kept cool and dry.

9. The eggs should be
kept cool and dry.

10. The eggs should be

WEATHER FORECAST TO AID FIRE FIGHTERS

Arrangements are perfected whereby the forest fire division of the state and the department of conservation will receive fire weather forecasts in the afternoon of each day. The forecasts will be made by the United States Weather Bureau at Kansas City, Missouri, and will be available at the state and national headquarters of the department.

Emplovers at each station will take three or four hours on their morning and afternoon courses. There will be conferences of the officers, and also at two national headquarters.

Court Fight Brews for Lake bloody

The Clark county board of supervisors have the controversy over the proposed construction of then the Wild Life Reservation Association of Clark county.

The fire department at the lake is expected to be a great help in the event of a fire. The contract was awarded to a local firm.

The company is preparing to fire the lake which will be used as a reservoir for the city.

A clearing house has been established for the firemen.

When a breach or break or of one of the dams of the lake occurred, the dam was repaired by the local company. The lake is used as a reservoir for the city.

A list of outstanding musical activities and a series of programs of extracurricular activities for the third week of the month, which will be held on Monday, Tuesday, Wednesday, and Thursday. There are many opportunities for students to participate in the activities listed, including performances at U Mass Choral, the University Symphony, and the Jazz Band. Participating students will have the opportunity to work with various faculty members. The schedule of events is as follows:

**Monday**
- U Mass Choral at 7:30 pm
- University Symphony at 8 pm

**Tuesday**
- Jazz Band rehearsal from 4-6 pm
- Band practice at 6 pm

**Wednesday**
- Choral rehearsal at 7:30 pm
- Symphony rehearsal at 8 pm

**Thursday**
- Honor Society meeting at 7 pm
- Student Council meeting at 8 pm

These activities are open to all students interested in music, and provide a great opportunity to enhance musical skills and participate in a supportive community of performers. Students are encouraged to attend these events and to participate in the activities listed.
JACK and JILL
By CLIFFORD WEBB

There was a sudden turn in the weather and the
other half of the air. The sun shone brightly, and
the morning mist brought the world to life. The
flowers, bees, and birds seemed to be enjoying the
beauty of the day. The children were having fun
outside, playing and running around. The weather
was perfect for a picnic, and everyone was excited.

But then, as the day went on, the mood started to
change. The air grew colder, and the wind picked up.
Soon, a storm came sweeping in. The wind howled,
the rain came down in sheets, and the trees began
to sway. People scurried inside, seeking shelter from
the harsh weather.

In the midst of the storm, a young girl named
Jill was sitting by a window, watching the rain
pour outside. She wondered if her friend Jack could
make it to their meeting. Jill had planned a special
surprise for Jack, but she knew that the storm might
ruin their plans.

As the storm continued to rage, Jill's thoughts
turned to her friend. She knew that Jack loved to
explore the world and always had an adventurous
despise the weather. But she couldn't help but con-
sider the possibilities of what this storm might
mean for their plans.

Meanwhile, Jack was out in the storm, walking
down the street. He had forgotten an umbrella, and
the rain was pouring down hard. But Jack was deter-
mined to make it to his meeting with Jill. He
quickly ran into a nearby store and bought an
umbrella, determined to make it to the meeting on

rainy day.

When Jack arrived, Jill was waiting for him outside
the café where they had planned to meet. She had
brought a blanket and some snacks to enjoy during
their meeting. Jack thanked her for the surprise and
they started their adventure together.

The storm had caused a bit of a delay, but they
were still able to have a great time together. Jack
told Jill about all the things he loved to do, and
Jill shared her favorite moments as well.

Even though the weather was not perfect, Jack
and Jill had a wonderful day together. They
reminded each other that sometimes, things don't
go as planned, but that's what makes life interesting.

And so, as the storm began to calm down, Jack
and Jill continued their friendship, grateful for the
times they had together.
