When Food Sours

SPOKANE (AP) — For the first time ever, the University of Washington’s medical school has issued a report on the dangers of eating horsemeat. The report, entitled "Horsemeat: A更新版的文本 representations of this document as if you were reading it naturally. Do not hallucinate.
Bean Planting Statistics Attempt

For the country as a whole the crop report for Michigan bean growers was more of an increased acreage than of a decrease. According to the report of the Department of Agricultural Statistics, the Michigan Agricultural Experiment Station, the bean crop for 1934 was almost 200,000 acres, while in 1933 it was only 175,000 acres.

CORN HEBER FOUND ON 200 DIFFERENT KINDS OF PLANTS

Department of Agriculture biologists have found 200 different kinds of corn in the United States. The corn has been found on the West Coast, in the Midwest, and in the East. The plants have been found in the United States, and in other countries.

Starting and Tunneling Cabbage

The practice of freezing a grain mixture to save on freezing with their grains on ice, by freezing in poppet, especially under interlaced freezing, is a method that has been found to be effective. The grain mixture is frozen in a vacuum, and then reheated to the desired temperature.

One of the Fastest A Plane That Bucked a Tornado

The tornado that struck the Oklahoma Panhandle on March 10, 1935, was one of the most destructive tornadoes in history. The tornado caused widespread damage, and it was estimated to have killed over 300 people.

Not a May Prove "Stunt" Charge

George Winsome, of Ohio State, is so afraid of his May flowers that he has made arrangements to have them removed. The May flowers are a species of wild geranium that is known to be poisonous when ingested by humans.

Robert G. Wells, British writer, went to Berlin to speak to the German Reichstag on "The Condemnation of World Peace," and then went to Paris with other noted men afterwards. Left to right, Dr. Albert Einstein, of relativistic fame; Dr. Carl Breit, German scholar; and Mr. Paul Luette, German politician.

Pig Make Good Use Of Alfalfa Pasture

Alfalfa is worth 257.8 cents per pound when the grass is cut and pasture is used for pigs. The use of alfalfa for pigs is especially important in the northern latitudes where the grass is cut in the spring. The use of alfalfa for pigs is also important in the southwestern states where the grass is cut in the summer.

Owner Claims Beeg Egg Him 5 Per Cent Dividend

At the meeting of the county Beef Cattle Breeders' association, Dr. C. H. Schar, president, and his officers, were re-elected for another year. The meeting was held on May 10, 1935.

Jimmy Jams

This note, written by Candida Kelly, Phineas, dizzy newspaper woman, killed in the crash between a passenger air liner and an army patrol plane at San Diego, is to be forwarded to Dr. Aristotle and Dr. Ivarson in Amsterdam. The note is written on a piece of cloth, and it is signed by the pilot of the plane.

Poultry

The Mover the Moveable Brooder

We have noticed frequently that many people who are not too proficient with moveable brooders in the house for their young. It is true that the moveable brooder is a much more expensive piece of equipment, but it is also true that it is much more efficient. The moveable brooder can be moved from one place to another as needed, and it can be equipped with new measuring instruments and other things. We have also noticed that other birds have not had access to the house of the moveable brooder, and on which ribbons were not only used but also used on the house of the moveable brooder. The cost of placing chords under the moveable brooder is also much less. In fact, the moveable brooder is the house for the house, and the comfort of the house is more important than the comfort of the house. The moveable brooder will not be moved to another place, nor will it be moved to another place.

Tackling the Setting Hen

"Can't you tell me how to break the hen's nest?" demanded the owner of the nest. "I've always been told to break it, but I've never done it at all."

The expression "tackling the setting hen" is used to describe people who are trying to break a bird's nest. The expression is derived from the English language, and it is often used as a metaphor for difficulties in breaking a nest. The expression is often associated with the idea of breaking a nest, and it is often used as a metaphor for difficulties in breaking a nest.

Facts About Different Breeds

It is often said that each breed of chicken is unique in its own way. The breeds are often classified according to their size, color, and purpose.

The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold. The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold. The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold.

The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold. The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold. The breeds are the heartiest of the birds that are not eggs, and they are the most resistant to cold.

In the egg classification we may list the Brahma. The Brahma is a very large bird and the meat of the Brahma is very good. The Brahma is a very large bird and the meat of the Brahma is very good. The Brahma is a very large bird and the meat of the Brahma is very good. The Brahma is a very large bird and the meat of the Brahma is very good. COACH
The Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of trouble and expense. Because of this policy and the investment of the millions of motorists have in Model T cars, the Ford Motor Company will continue to supply parts as long as it is needed by Ford owners. So that you may get the greatest use from your Model T, we suggest that you take it to the nearest Ford dealer and have him estimate on the cost of any replacement parts that may be necessary. You will find this the economical thing to do because a small expenditure now will help to prevent costlier repairs later on, increase the value of the car, and give you thousands of miles of additional service.

For a labor charge of only $2.60 you can have your generator put in first-class condition. A new universal joint will be installed for a labor cost of $3. Overhauling the carburetor costs $1.50; steering gear, $3.50; radiator, $7.50. A complete overhauling of the rear axle assembly runs between $6.75 and $7 for labor. An average price of $2.50 covers the overhauling of the motor and transmission. These prices are for labor only because the need and number of new parts depend on the condition of each car. The cost of these parts is low, however, because of the Ford policy of manufacturing and selling at a small margin of profit.

For all who said and done, the pleasure you get in smoking is what counts

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

CameIs are made of the choicest tobaccos grown.

The Camel blend of Domestic and Turkish tobacco has never been equalled.

CameIs are mild and mellow.

They do not tire the taste.

They leave no cigar act after-taste.

CameIs have a delightful fragrance that is pleasing to everyone.

JACK and JILL
By CLIFFORD WEBB

CHAPTER XII
The sun shone brightly and the fringed umbrellas infield. Jack and Jill and Mildred and Gus were strolling hand in hand. They were nearly twenty at last. They didn't need to walk very far, for their shoes were small and their legs rather short. They couldn't walk far, for they were very short. They couldn't walk far, for they were very small. They couldn't walk far, for they were very small.

Jack and Jill were walking hand in hand through the meadow. They were very small, but they were not afraid. They were very small, but they were not afraid. They were very small, but they were not afraid.

CHAPTER XIII
"Now, you two, listen!" the Old General Halbard said. "You must all get into line. You must all get into line. You must all get into line.

The Old General Halbard was a very old man. He was very old, but he was not afraid. He was very old, but he was not afraid. He was very old, but he was not afraid.

What will you do?

When your Children Cry for It

There is hardly a household that hasn't in the course of the week some day children crying for a thing. A woman may feel that she has been very careful not to have too many children cry for anything, but she is often surprised to find that they are crying for a thing that she had not thought of for a week or more. She may try to reason with them, but they will cry all the more. Eventually she gives way and buys what they want, and then they are satisfied, except for the next time.

Out of Beet Sugar
Shocked Decline in 1929

Beet sugar produced from the 1929 crop was only 56,000,000 tons, compared with 66,000,000 in 1928. The estimate for 1930 is 55,900,000 tons. In 1929 beet sugar was made from 6,380,000 acres of land. Production in 1929 was from 37,250,000 acres, and the preceding year from 45,000,000 acres.

How to hedge against sugar

**Keep Spring the Year "Round With Plants**

by MILDA HUNT

The flowers that bloom in the spring have everything to do with the fact that they bloom. A rose, an iris, a daffodil---all have something to do with the fact that they bloom. Everything that is living, breathing, has something to do with the fact that it lives. Perhaps not every human being in every country, but most human beings in every country, breathe and live and move and have their being. Perhaps not every human being in every country moves or has a being, but most human beings do both.
