TUESDAY, NOVEMBER 3

The weatherman this week finished his forecast of the weather, and we are generally safe with the dry spell remaining. However, the eastern areas may receive some snow, so be prepared for the possible change.

As the weatherman's forecast at the weather station predicts, the temperatures will moderate slightly. The high temperatures will reach around 50°F, and the low temperatures will dip to about 32°F.

The chance of snow is slim, but it's always good to have an umbrella handy. Be sure to dress warmly if you're planning on being outside for any extended period.

In other news, the city council has approved a budget for next year, which includes funding for new parks and recreational facilities. They also discussed the possibility of implementing a new recycling program to reduce waste.

Local businesses are facing challenges due to the recent economic downturn. The Chamber of Commerce is holding a meeting on Friday to discuss strategies for supporting local businesses.

Stay tuned for more updates and news. In the meantime, stay safe and warm.
