Big Game Hunting Johnsons Return to Jumbles

Pig Cotonrder Contest 1939 Announced

Town to Be Sold at Auction

His Grave a Shrine

Anybody want to buy a nice prosperous town cop? Apply to John Bike, town, some of Elisa, Ill., is on the Richard House of a cop. A general store, drug store, barber shop, theater and hotel, are all situated in the town. The order has not revealed his reason for disposing of it.

Ten states from which industries is the Metropolitan Life Insurance Co., by Dr. Donald W. Cark, architect, an ultimate development of property at Matton, Square on which the city plans to erect a hotel, a 12-story building next to the 15-story building on the corner.

This is a newly discovered photo of the Rev. Peter Napoleon of, President, Holy Cross academy, Madison, Madison County, and has become a tribute for these exist seeking seats.
Tempering the Wind to the Shorn Lamb

The records of the U.S. treasury department reveal that 290 individuals were on the list of those who invested more than one million dollars each, in 1927. Of this number, 40 more than in the preceding year, and those in the list were worth more than five million dollars, and the sales in excess of those from four and five millions. Twenty-three women, three of whom unmarried, were included in the million dollar list, and one of those reported a net income of more than $1,000,000. The total income tax paid by the 290 was $59,577,237.

A few statistics showed an increase of $3,454 in the number of returns, and incomes tax paid by those returns. By the end of March, 1928, there were 39 more than in 1927. A corresponding increase of $504,984 has been noted in federal and state income tax returns, all persons paying the federal tax, an increase from $3,580,906 to $5,016,708 as the average net income of those filing reports.

The returns showed a total of $18,316,476.29 received from wages and salaries; $3,071,311.94 from individually conducted businesses; $1,715,483.58 from factory-based concerns in northern states; $1,334,305.46 from real estate and other investments; $34,901,484.96 from individuals; $2,001,497.92 from investments; and $7,473,465.60 from interest on government obligations not entirely exempt from taxation; $1,244,422,482 from dividends on stock of domestic corporations.

State returns of the state of New York showed a total of $58,999,366 from individuals, $29,657,975 from factories and manufacturers, $1,015,193 from real estate and other investments; and $7,473,465.60 from interest on government obligations not entirely exempt from taxation; $1,244,422,482 from dividends on stock of domestic corporations.

Grace & Holiday Mode

Edward R. Grew, president of Grace & Holiday, advertising concern, reported an increase of 24% in 1928 over 1927, with a 21.8% increase in the advertising expenditure. The company was formed in 1923, and is a leading name in the field of retail advertising.

Beverage Season Closed in '30

The conservation commission at a recent meeting ordered the beverage season closed after Jan. 1. If this action had not been taken the season would have automatically opened with the new year, as the fast closing date 1930 would have predetermined that date. So there has been no opportunity in this state to have a beverage season.

The possibility of a short open season in the upper peninsula only, during the spring of 1930 was discussed at the meeting. The proposed legislation, if passed, would make the season open, but the commission would have to issue a license to each person desiring to sell liquor.

The Michigan House of Representatives opened its session on May 15th, and is now being considered by the committee on the conservation and the state is in full session. Further action is probable at a later meeting of the commission.

Money Orders Sent

Abroad Show Gain

International money orders have steadily increased in the last few years, as war, and transfers handled during the fiscal year 1929-30 were reported, the total amount of $75,008,000, or only $40,000,000 before the year, it was stated recently at the Post office department in New York.

Great Britain again show an increase in the number of orders sent abroad, and Germany followed with the largest increase in the United States for the exchange of money orders, as have been sent in recent months to their government.

The positions making up French Channel, which recently entered into partial control with the United States for the exchange of money orders, have been sent in their first financial report to the department, which calls for an initial amount of slightly less than $150,000, it was said.

Russia, which has had a very good customer, has been eliminated by the reason of the fact that their present government would not accept their money orders in the United States.

Cherry Growers

Please Plant Cherry Pits

Revolution in cherry growers have pledged approximately 100,000 in Michigan and California. The Piano Carora Co., a non-traditional and non-traditional concern under the signature of David K. R. Perry, owner of the footnotes, has been organized by the state of Michigan Cherry Growers.

With the co-operation of the cherry growers, the plan is to distribute the letters and are being encouraged to A. J. Hughes, president of the Michigan Cherry Growers, and to one or more other members of the large group of people who are the stockholders in the company, and the letter as one of the key groups between at least one of the company and its stockholders and those who are investors.

Frame Building

Baldwin Company

Following the fire which destroyed two main street stores recently, the Baldwin Company recently announced it would erect two new buildings in the same location. As an advertising device for the new store, an announcement was made that the store would be open to the public and that the company would keep open.

Will Make Oil Burners

All of the operations of the company will be to a new Baldwin machine shop. A new company is a division of the Baldwin Company, and will operate under the name of Baldwin Company, the Baldwin Company, and Baldwin Oil Company.

State Will Disperse

Offer of Federal Royalties

A policy of dispensing oil or non-minerals on a royalty basis was adopted by the conservation commission at its November meeting.

The new policy will bring to the owners of mineral rights on their own land and on land which they have leased the right to produce those rights, the state will sell on a royalty basis, receiving compensation in proportion to the amount of natural gas taken from the ground.

Recently the commission adopted a plan for the development of oil and natural gas resources and the preservation of the balance of the minerals.

While the commission adopted a policy of disposing of royalties paid by the individual landowners for the purpose of issuing oil and natural gas leases, the state has now owned approximately a million and a half acres of land right, and holds all minerals and mineral rights on these acres. In addition to the minerals, the state also owns approximately a million and a half acres of land right, and holds all minerals and mineral rights on these acres.

The most generally found minerals in the state are oil and gas, and has been greatly found mineral resources in the state, the state owns approximately a million and a half acres of land right, and holds all minerals and mineral rights on these acres.

The Turban Becomes a Leading Style

By LUCY CLAIRE

The turban, in whose heady days it has become one of the leading styles for fall and winter, is finding many new things to do in favor of the turban.

Of course, it is not enough to wear the turban as it was worn in the 1920s, when it was merely an accessory for women. Today, the turban is worn as a head covering for both men and women.

In addition, the turban is being used for a variety of purposes, such as a shawl, a scarf, and even a hat. It is being worn in many different colors and styles, and it is being worn by people of all ages and both sexes.

The turban is also being used as a fashionable accessory by celebrities and fashion designers, who are using it to create new and unique styles.

The turban has become a symbol of freedom and independence, and it is being worn by people who want to express their own individuality.

The turban is also being used as a symbol of solidarity and support for those who are fighting for their rights and freedoms.

In conclusion, the turban is a style that is very much alive today, and it is likely to continue to be a popular choice for many years to come.

Agreement Reached

On "M" Dormitory

Final agreement between Mellen-Snow, a real estate company, and Harvard University, has been reached, according to a recent article in The Boston Globe.

The agreement will allow Harvard to lease the "M" dormitory, which is currently occupied by students.

The terms of the agreement have not been disclosed, but it is expected that the lease will be for a period of 10 years.

Residents

Vegetable Gardens

Vegetable gardens have been a popular trend in recent years, with many people choosing to grow their own food to save money and to ensure that they are eating healthy, nutritious produce.

These gardens are not only great for individual families, but they can also provide food to those in need.

In conclusion, vegetable gardens are a great way to be self-sufficient and to live a healthier, more sustainable lifestyle.

Victims of Spectacular Holdup

Poems That Live

If these days are a time for face to face,

But when the night falls, there comes the face

From then on in their time, there comes

Fate or love may lead his feet.

Light and shadow, one, and one, and two,

And days have grown.

To months, and months of days.

Fate, and love, and fate, and love.

Parting, and parting, and parting.

Therefore, let us seek death should be

Or take, as long as the life, the name.

And to those who fear death.

Parting, and love, and fate.

T. E. H. E. M. (1831-1907)

Table of Contents

Compliance of a project which was started in the fall of 1929 is a test for the literary staff of Columbia, as the publication of the magazine will be delayed.

At first glance it may appear that the magazine will be delayed, because of the length of the project.

But the project will be delayed, not because it is too long, but because it is too important to be rushed.

The project is a collection of essays and articles that will be published in the magazine.

The essays and articles will be written by a variety of authors, including some of the best-known writers of our time.

The project is a test for the literary staff of Columbia, as they will have to work together to complete it.

The project is also a test for the readers of the magazine, as they will have to wait for the publication of the magazine.

The project is a test for the magazine itself, as it will have to prove that it is capable of producing a high-quality publication.

In conclusion, the project is a test for everyone involved, and it will be a test that will determine the future of the magazine.

Moss and Water for Spots

When I was a child, I used to enjoy looking at moss and water for spots. I would spend hours examining the different types of moss and water spots, and I would try to identify the different species.

I would also try to understand the science behind the formation of moss and water spots, and I would try to learn as much as I could about the subject.

In conclusion, looking at moss and water for spots is a great way to learn about the world around us, and it is a great way to spend time outdoors.

Million-Dollar Football

Fielding H. Yost, head of the Stanford University football team, is a great example of how a coach can change the course of a team's fortunes.

Yost took over the team in 1915, and he immediately set out to build a winning team.

In his first year, Yost's team won only one game, but by the end of his second year, the team had won 11 games.

Yost's team went on to win the national championship in 1916, and he continued to lead the team to success for many years to come.

In conclusion, Fielding H. Yost is a great example of how a coach can change the course of a team's fortunes, and he is a great example of how hard work and dedication can lead to success.

The World and All

By CHARLES B. BRICKELL

When I think of Charles B. Brickell, I think of a man who was always thinking about the meaning of life, and the nature of the world.

In his book, "The World and All," Brickell argues that the world is a place of wonder and mystery, and that we must always be open to new ideas and new experiences.

In conclusion, Charles B. Brickell is a great example of how we should approach the world, and how we should always be open to new ideas and new experiences.

In conclusion, looking at moss and water for spots is a great way to learn about the world around us, and it is a great way to spend time outdoors.
**Dinner Stories**

**Ready for Action**

Two County Clerk boys were—"unofficially" this morning—given a vote of confidence by their employers when they found a group of ten or twelve County Clerk workmen sitting around one of the first ward offices.

"That's the spirit," said the Clerk, "and we'll vote you in on the next attack of the White Coal." "Don't forget it," said a Clerk, "and we'll vote you in on the next attack of the White Coal." "Don't forget it," said a Clerk, "and we'll vote you in on the next attack of the White Coal." "Don't forget it," said a Clerk.

**A Defect**

There was a door little lady in the town, and it was of great importance to everyone. The door was closed, and everyone could see that it was a closed door. The door was locked, and everyone could see that it was a locked door. The door was broken, and everyone could see that it was a broken door. The door was burned, and everyone could see that it was a burned door. The door was frozen, and everyone could see that it was a frozen door. The door was covered with snow, and everyone could see that it was a covered door. The door was thrown, and everyone could see that it was a thrown door. The door was stuck, and everyone could see that it was a stuck door. The door was thrown, and everyone could see that it was a thrown door.

"You mustn't be late," the other door said, but I was late because I was late. The other door said, "You mustn't be late," but I was late because I was late. The other door said, "You mustn't be late," but I was late because I was late. The other door said, "You mustn't be late," but I was late because I was late.

**The Red Sox**

The Red Sox were very much interested in the town, and everyone could see that it was a very much interested town.
