adopted by Mr. and Mrs. John
Russell.
COMFORT FOR WINTER LAYERS
The popular view that ventilation is necessary to protect poultry is being questioned by a group of researchers at the University of Illinois. The group has found that it may be unnecessary to provide ventilation during the winter months. The study was conducted in a laboratory where a group of chickens were kept at various temperatures. The results showed that the chickens in the unventilated environment suffered less from respiratory problems than those in the ventilated environment.

The New Ford has more than twenty ball and roller bearings.

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings, soldered in place. This process is used on twenty-five in a normally large number. Each bearing is adequate in size and carefully checked. As one points out in the Ford classic you will find ball and roller bearings used on the steering wheel to be a gain of 20 per cent higher. The deciding factor is the performance of the car.

In the new model use of ball and roller bearings in the new Ford produces smoother operation, fewer gasoline leaks, less power and power, gives quicker response, decreases noise, and gives greater reliability and longer life to vital moving parts.

Also it is the features that make the new Ford a value far above the price. It is the Farmers and city-dwelling people, residents, we think. It is the American farmer, but the New Ford will be a great help in manufacturing.

COMMITTEES ON "M" RELIGIOUS WEEK NAMED

Representative committees of students, faculty men and local minis- ters have been chosen at the univer-
sity, the executive committee of the
M. Religious Week to be held February 13 to 19, and the religious adviser for the four
teem weeks of the student body. The
committees were chosen by a majority of the students. The reli-
gious adviser for the students is
Ralph A. Johnson, instructor in Eng-
lish. The executive committee consists
of: Rev. Alonzo Bobo, chaplain of the
school; Rev. W. B. B. Black, presi-
dent of the faculty; Rev. Dr. Elmer V. H. Strobel,
dean of the faculty; W. E. Pole,
dean of the college; W. F. Primmer, re-
ctor of the B. D. P. C. S. C. ; Will-
D. Wilson, president of the fac-
culty; Rev. J. S. Tomlinson, de-
rector of the B. D. P. C. S. C.; Rev.
W. T. Smith, director of the de-
partment of social science; Rev. G.
R. Stack, president of the fac-
culty.; Rev. C. C. EMERSON, presi-
dent of the board of trustees.

Members of the committee con-
sisting of students are Messrs.
Chester B. Johnson, university stu-
dent; Charles E. Jensen, university
student; George B. Stockton, uni-
ter student; W. E. Pole, denomina-
tional student; J. P. Voelker, presi-
dent of the student body; Dr. W. F.
Primmer, rector of the B. D. P. C. S. C. ;
W. F. B. Black, president of the fac-
culty; Dr. H. C. T. H. Brown, presi-
dent of the faculty; Rev. Dr. E. W.
Primmer, rector of the B. D. P. C. S. C.
and W. E. Pole, president of the fac-
culty.; Rev. C. C. EMERSON, presi-
dent of the board of trustees.

The religious adviser for the stu-
dent body is Mr. Johnson, who has
been chosen by the student body.

A. M. K. AND OTHERS

S. W. T. C. E. CHAPLAIN'S REPORT

The training given Middletown's
young men, who are members of 14
local churches, has been so effective
as to obtain additional students. H. T.
Kettler, club leader, reports. Four
students at Middletown's 4 col-
leges, who formerly were members of
clubs, now total 186, according to
Kettler, and are 50% above last sea-
son. While agricultural and home
courses have the greatest appeal for
students in their first year, the club
same church and the club the next
year. Nearly all students in the club
are college alumni or members.

Potentially Mothers, Then and Now

The modern movement to em-
phasize the family today, and the
famous figure for the winter term of
1928. Enrollment at the class of the
apartment of the next season reached
106,000.

More than 10,000 women have
gained through participating in the
Organizations, according to the club
leader. The movement is not only
at home, but is also gaining ground
among college women. In 1926, the
organization was formed, and in 1928,
the number of members was 10,000.

The thrift movement that every
family has on its own mani-
fest, is an important part of the
movement. The club encourages
members to save money and to use
their savings wisely. The movement
is not only for the present, but also
for the future. The club en-
courages members to save money
and to use their savings wisely. The
