First Picture of Wickersham League

New Produce Act Protects Shipper

President Howard and the Wickersham League Commission saw the first fruits in the White House where the last was held. The picture was taken on the lawn of the White House and shows, left to right: Senator Joseph P. Bruno, John L. Corcoran, Attorney General William D. Mitchell, Postmaster General W. Wickersham, chairman. William S. Ely, secretary. Back row, standing: Senator Eberhardt, Monte L. Loebsiek, Fred J. McFarland, William S. Gruh, Frank L. Latch, Mark S. Baker and Henry W. Anderson.

A Fish Story—With Evidence

The Fish Story—With Evidence

Michigan Center Now Is Made From Roe of Whitefish

Michigan Center is concerned about the quality of its whitefish. The center is under the supervision of the Whitefish Lake Research Station, which has been operating for the past two years. The research station is responsible for the improvement of whitefish quality and is working towards achieving this goal.

East Bays Must Be Cleaned

As of now, the state of Michigan is taking action to ensure that the east bays are free from pollution. The state has implemented regulations that prohibit the discharge of any pollutants into the east bays. These regulations are aimed at protecting the environment and ensuring the health of the local community.

Preferes Warmer Climate

In a private car attached to the regular train, Thomas A. Edsall and his wife left Newark, N.J., for Fort Myers, Fla., where the railroad passenger will continue his experiments to develop a method for preserving tomatoes.

You All Know Him

According to Commander Ernest Linck, who is studying the dry rot, and from whom we will hear something in the near future...
The new Ford is an economical car to own and drive

Low first cost, low cost of operation and up-keep, and low yearly depreciation mean a distinct saving to every purchaser.

The NEW FORD is a splendid car to own and drive because of its attractive lines and colors, safety, comfort, speed, reliability and long life.

There are, in addition, three other features of importance to every serious automobile owner—low first cost, low cost of operation and up-keep, and low yearly depreciation.

During the life of the car, the day-by-day economy of owning a Ford will amount to considerably more than the saving on the first cost. You save when you buy the Ford and you save every mile you drive.

The reason for this economy is simplicity of design, high quality of materials and care in manufacturing and assembling. Many vital parts are made to limits of one one-thousandth of an inch. Some to three one-thousandths of an inch. Throughout, the whole of the car is made with the greatest care and skill by men of fine craftsmanship in automobile engineering.

The more you see of the new Ford—the more you talk to Ford owners about it—the more certain you become of this fact. . . . It brings you everything you want or need in a motor car at an unusually low price.

LARGER LEGHORN BABY CHICKS 13c Each
In lots of 500 or Over 12c Each

Transected continuously for 11 years together with three direct importations from the world famous Tom Barron strain of Leghorns. Engaged for our large type S. C. White farm in Ashland the best value money can buy.

You don't raise chicks just to raise them. You raise chicks for the amount of eggs they lay during the fall and winter and through the following year.

I can furnish you abundant proof, not here by locality, that with intelligent care meticulous devotion pays more eggs than the average stock you can buy at any where near these prices.

AL WAUCHEK

INSURANCE

Last year our Insurance Business increased in all lines. An evidence that Quality and Service eventaully wins if one lives long enough.

WE THANK YOU

Respectful CHILDREN

CHILDREN who are often called "naughty" are often mistreated by their parents. These children are not necessarily "bad" children; they are simply children who are exploring their world. They are seeking to learn and understand the world around them. They are not necessarily disobedient; they are simply trying to make sense of their experiences. They are not necessarily disrespectful; they are simply trying to communicate their needs and desires. They are not necessarily uncooperative; they are simply trying to find their place in the world. They are not necessarily unloved; they are simply trying to find their way in the world. They need guidance and support to help them navigate the challenges of childhood. They need a safe and nurturing environment where they can feel loved and respected. They need to be listened to and understood. They need to be given the tools and resources they need to succeed. They need to be given the opportunity to explore and learn. They need to be given the chance to be children. They need to be given the chance to be happy.
