Village trip

The republic auction drew a good crowd on Monday night and as no other bid was made, Mr. Blankenship was chosen receiver of the property and the following people were made: John Bogle, Pres.; John C. Roberts, Sec'y; Mr. McDonald, Treas.; Al Mahkin, W. W. Buehler and Mr. Van Voorhis. The meeting was held at the community center on Tuesday evening.

Random Hot Springs

The Hot Springs Club met at the home of Mr. and Mrs. Van Voorhis on Tuesday evening.

Local Businesses

Business Localities

Indian oil was wanted. See Van Row.

Boring Churches offer to help send money to Jerusalem.

For Pine Grove-Overseer

I hereby announce my candidacy for re-election of Overseer of Union Township. I have served the township faithfully and will give the job my best effort. I am a member of the Democratic party and support the same. J. M. Wooten.

Frank Barker for Justice of the Peace

We, the friends of Frank Barker, think he should have a justice of the peace seat; therefore we believe he would make a very digested judge.

Simmons for Commissioner

We, the voters of Kendall and South, think Simmons has performed his services as nearly perfect as it is for any man to do with us to practice so well.

Come and hear numismatists - Kendall and South Side Voters.

Busy Workers

Fowler Workers

Busy Workers met with Mrs. Jesse Grove for an all day meeting. A motion was made that they should meet and during the afternoon all enjoyed various games and were entertained.

The meeting will be held at the Community House Feb. 26 at which time Mrs. Coffin's side will be on hand.

There were three plates sent to the Kendall House at the meeting.

School Notes

The eighth grade class wishes to express their appreciation to the publishers of the "Valentine" paper which they gave us a good time.

Good night.

The junior class will present their play "The Abandoned" at 2 P.M. Saturday afternoon, Feb. 26.

A play by the junior class was presented Saturday evening, Feb. 26. The play was a fine success and everyone present was highly gratified.

The school joins the many friends of Ronald Gilger in extruding its heartfelt sympathy to his bereaved home in their great loss. Louise Allen Gilger was well loved by all who knew her and counted the entire student body as her friends. This makes two young people who have left us in the prime of life.

These two deaths have occasioned many expressions of grief from the students of the school. The school felt that it was a part of their school spirit to publish this notice.

Good night.
Potato Plants Suffer Under Extreme Conditions

The merchantable stocks of potatoes in the hands of farmers and dealers in the Western Corn Belt at the close of the growing season on January 1 are estimated to be 63,000,000 bushels, about 15 per cent smaller than the estimated total of 76,000,000 bushels for January 1, 1930. Michigan’s estimates are optimistic; they specify 53,000,000 bushels or about 10 per cent smaller than the 1930 estimate.

Many hard frost days in January, however, caused considerable injury to the potato plantings in the Western Corn Belt and to a number of potato districts in the East. It is too late to make accurate estimates of the extent of the damage, but it is evident that the potato crop will be much smaller than estimated. The unfavorable conditions have been caused by a number of factors. The unusually warm winter of 1930 and the unusually mild winter of 1931 have caused the potato plants to grow too rapidly, and the late frost of March 1931 has caused heavy losses in the potato districts.

Again WE REPEAT
COMPARE

Compare the values, prices and service we give you with those of any other tire dealer or distributor of special brands. The low prices of Firestone bring the following advantages due to their world-wide facilities in securing these raw materials and their efficient manufacturing. With Firestone’s most economical distribution system, with over 600 branch stores, warehouses and service stores, we can secure a complete line of fresh Firestone tires, tubes, batteries, brake lining, rims and accessories within a few minutes’ time, to fit your “base” and give our customers service and values that are not duplicated.

WAVERTY
Core Alden lost the week and lost his job, Robo and Othard, of Lansing.
Mrs. A. B. Palauf and grandson visited her mother, Mrs. N. Rockwell, Sunday.

The Military News will meet with General Arthur Harris, Tuesday, February 24.

Mr. and Mrs. E. E. Sage entertained the Military and Young Married People’s classes last Tuesday night. A fine dinner was enjoyed and all report a very pleasant time throughout the evening.

Mr. and Mrs. Roy Sage and Mr. and Mrs. Milfred Goehl of Bloomington entertained at Claire Reynolds’ of Mattawan last Wednesday.

Mr. and Mrs. E. E. Sage and Mr. and Mrs. Howard Coles of Gladstone visited in Kalamazoo Sunday evening.

Mrs. Sage remained for a longer visit.

All who attended the Valentine’s Day dance on last Saturday evening report a most wonderful time.

Mr. and Mrs. Otto Morrell entertained a company of friends last Friday evening.

Messing Rights Claim
Gobles is the home of a wonderful Clock
Montic, one of the most important branches of the great clock firm, is located in the city. Its products are known throughout the world and are sold in every corner of the country, which contains the most wonderful example of the firm’s skill.

The tower is surrounded by a bronze dome, a monument to the firm’s fame, and is the most remarkable feature of the tower. A beautiful clock face is placed on the tower, where it may be seen from almost any point.

The case is made of the finest materials and is designed to last for generations. The clock is a perfect timepiece, and is of the most valuable example of the Montic Clock Co. work. It is a wonderful example of the firm’s craftsmanship.

Cotton Is King This Fashion Year

The new rod of attack on gems diseases found

New light on the life history of disease germs, indicating that their behavior is more complex than was once thought, and that they commonly undergo a "polychromatic" type of life cycle, has been described by A. C. H. Harris, of the University of Michigan, in a recent paper. This cycle is a series of changes in structure, and is the first proof of a theory as to the origin of bacteria. Bacteria have long been known to undergo changes in structure, but the changes have been thought to be due to the action of the microscope, but these changes were later shown to be due to changes in the bacterial cell itself. The new evidence is important, as it throws light on the germ theory of disease.

By locating a ultravioletochromic substance in the bacterial cell, and finding that it is formed by the ultraviolet stage, it is shown that the ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. This is an important discovery, as it shows that the ultraviolet stage is not the same stage in both the bacterial cell and the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell.

This phase in the life history of a germ is an important one, as it is the stage in which the germ becomes infective, and may be compared with the "germ of life" stage, in which the germ is first formed in the tissue of the host. The study of the ultraviolet stage is an important one, as it shows that the ultraviolet stage is an important stage in the life history of a germ.

The people of the Pacific are also making progress in the study of the ultraviolet stage in the bacterial cell. In a recent paper, Dr. Harris has shown that the ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. This is an important discovery, as it shows that the ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell. The ultraviolet stage is not the same stage as the ultraviolet stage in the bacterial cell.
Joan Puller had forgotten how much she hated rain. She knew she was going to have to. The sky was gray and cloudy, and the wind was blowing hard. Joan pulled her hood over her head and started walking.

"Why do I hate it?" Joan thought to herself as she walked. "It's just being here. I don't know why."

Suddenly, a voice broke through her thoughts. "Stop right there, young lady!" Joan looked up to see a police officer standing in front of her.

"What do you want?" Joan asked warily.

"Your name, please," the officer replied.

"I don't know," Joan said. "I just wanted to know..."

"Your name, young lady," the officer repeated.

"Joan," Joan said. "What's your name?"

"My name is Joan," the officer said. "And who are you?"

"I'm Joan," Joan said. "I don't know what you want."

"I want you to come with me," the officer said. "You have something to tell me."

Joan looked around, suddenly feeling scared. She tried to think of what to say, but the officer continued.

"You have to come with me," the officer said. "It's important."

Joan nodded, feeling helpless. She knew she had to trust the officer, but she didn't know what was going to happen next.

---

Sales by Alice

Alice was shopping for fresh produce at the Apple Market. She was looking for some apples to buy and make some applesauce.

"I need some apples," Alice said to the produce clerk.

"Sure, we have plenty," the clerk said. "How many do you want?"

"Just a couple," Alice said. "I'm going to make some applesauce for this evening's dinner."

The clerk picked out some apples and handed them to Alice.

"Thanks," Alice said. "That's perfect."

Optometry

Optometry is the science of protecting the visual system by preventing, diagnosing, and treating eye diseases. Optometrists are trained professionals who specialize in the diagnosis and treatment of eye problems.

In order to become an optometrist, you need to complete a bachelor's degree in optometry and then pass a series of certification exams. Once you have passed these exams, you can begin working as an optometrist.

---

Has Your Back Given Out?

Backache often warns of back strain. It can be caused by lifting or carrying heavy objects, sitting in one position for too long, or accidentally twisting the back. If you have a backache, it's important to see a doctor to rule out any serious problems.

Doan's Pills

Doan's Pills are a popular medication for back pain. They contain a combination of ibuprofen and naproxen, which help to reduce inflammation and relieve pain.

---

Rheumatism

Rheumatism is a condition that affects the muscles and joints. It can be caused by a variety of factors, including age, injury, and genetic factors. If you have rheumatism, it's important to see a doctor to determine the best course of treatment.

---

What Are You Good For?

What are you good for? This question has been asked many times, and the answer can vary depending on the situation. In general, people are good for helping others, enjoying hobbies, or simply being a part of society. It's important to remember that everyone has a purpose and can contribute to the world in their own unique way.

---

Cut Out

Cut Out is a popular men's clothing store. They offer a wide variety of clothing options for men, including suits, dress shirts, and casual wear. If you're looking for a new outfit, be sure to check out Cut Out.

---

Adventures

Adventures is a travel magazine that offers tips and advice for planning your next vacation. They cover a wide variety of destinations, from tropical beaches to mountainous landscapes. If you're looking to plan your next adventure, be sure to check out Adventures.
