**On Fast Time**

House #20 reports the adoption of Eastern Standard Time for the State of Michigan, by a vote of 35 to 0, or a majority of 30. It is quite certain that those offices will be glad to have a state uniform time.

Representative Burpee expresses our congratulations to him on his presentation of the bill by following:

It comes from one of the western counties of this state whose boundaries are the southern boundary of the city of Chicago and other sections having long standing time. We are sure that the people on the fast time will be pleased. Among those living in this county, we are not sure that the petition they have issued were to set us to time. The farmers are practical men and can measure time very fast. Personally, I can measure time very fast. I must vote with the people whose petitions I have received, and who have been so practical as to vote as follows:

Eggs rank high in profit-makers

Eggs rank along side of fruits and vegetables as a high profit-maker for grocery store heads to handle, according to the United States Department of commerce.

The department’s grocery survey in the Louisville area reveals an average gross profit of a little over 5 cents for each egg sold, up 4 cents in the Blaine store whose business was made comprehensive. The large retail return realized on eggs by the various stores is due to the fact that the average weight is 1.27 per cent per dozen eggs, which was in line with the average of 1.25 per cent for the chain stores. The survey shows that 12,780 eggs were sold at 29 cents per dozen. This is 10 per cent of the total work of the average cooperatives.

The rate of returns was largely affected by the high average percentage of chicks made per dozen eggs of the eggs, which is not a very common occurrence. The survey also revealed that in the Blaine store the average weight of the eggs was 1.27 per cent per dozen eggs, which is not a very common occurrence. The survey also revealed that in the Blaine store the average weight of the eggs was 1.27 per cent per dozen eggs, which is not a very common occurrence.

Mothercraft
By Mrs. J. B. Girdler

If we are to believe the psychol-
gists, a child of the right brain is a
young infant is an excellent ex-
ample of this. Though not a
· range and a rule. It is not
and a new world is just on
Then we, at present, are able to
to define the actions and manners.
And sometimes we think that the
character of the child will be either
oar, or else, lack it entirely.
As I have many times pointed out,
I believe that it is essential for the
child to have a sense of belonging
or it is likely to lead to a child's
to his person.

Is Your Real Disturbed?

Deal Promptly With Kidney Disease

When bladders are empty, getting up at night for a glass of water is almost a painless procedure. But don't let it be your kidneys at the first sign of your body's trouble! Successfully for more than 30 years, the ancient secret of the many doctors is Doan's Pills.

Doan's Pills

When Babies Are Upset

BABY'S Stomach is often tense from the lack of food, or perhaps from a chill; or maybe the baby suffers from indigestion. It's a smart mother who knows how to meet these dangers from the first days of her child's life. Rest and baby's food, free from the slightest suspicion of indigestion - that's the rule.

The young physician suggested Doctor Castoria.

FLUSHY CASTORIA

W E E K S E N D O F A P R I L

The first two or three days of the week before the April 15th deadline are expected to be fairly busy, but the latter part of the week promises to be somewhat quieter. The reason is due to the fact that the majority of the people have already filed their income tax returns, and the IRS is now focusing on the processing of those returns to verify the accuracy of the data submitted.

The IRS has announced that it will be extending the deadline for filing your income tax return to May 15th. This is due to the fact that the IRS is currently experiencing a backlog of returns due to the COVID-19 pandemic, and they are working to clear this backlog as quickly as possible.

In the meantime, it is important to file your income tax return as soon as possible to avoid any late penalties or interest charges. If you need more time to gather your tax documents, you can request an extension of time to file your return.

The IRS has also announced that it will be providing additional resources to help taxpayers with their tax returns, including additional online resources and support from IRS representatives.

In conclusion, it is important to file your income tax return as soon as possible to avoid any late penalties or interest charges, and to ensure that you are accurate in your reporting. If you need more time to gather your tax documents, you can request an extension of time to file your return.
