B tend Brooklyn and the Detroit neighborhood for over a year. He was an active member of the Detroit Bar Association and a long-time resident of the city. His contributions to the community were widely recognized and he was a beloved figure in the city. His passing was mourned by many who knew him and respected his work.
Farmers Plan to Plant More Spuds

Farmers in the United States are planning to increase their potato acreage by 40 acres per 100 acres of land, according to growers' intentions to plant more potatoes than last year. The increase is due to rising prices for potatoes, which are expected to be higher this year than last. The increase in potato planting will be concentrated in the northern states, where the crop is more profitable.

FIBER FOR CHICKS ON WIRE

Chicks and young chickens on wire feeders are popular because they can be easily observed by the producer. The wire feeders help to increase the amount of chicken feed consumed, which is important for producers who are working to increase their flock size. Wire feeders are also popular because they can be placed in any location, making them a versatile tool for producers.

CHOCOLATE

The most popular flavor used at soda fountains

And we are really proud of the chocolate we use. It is popular place and Sundays. It is made from imported Dutch cocoa—best money we let you be the judge, as your taste will certainly tell the tale.

A New Ice Cream Cone

And we wish to call your attention to the New Ice Cream Cone we are now serving. It tastes like real fresh ice, it is made with eggs, milk and honey, and filled with Arnie Real Strawberry Ice Cream—most delicious

BOWLES WHERE QUALITY COUNTS

Legislative Letter

With the date of adjournment of the General Assembly today, I am at this writing making a start at the publication of my legislative record. It was a great week, I wish I could tell you more about the work I did. The Senate was very busy. And I am sure you will have my full support for the next session. The House is also very busy, but I am sure you will have my full support for the next session. The House is also very busy, but I am sure you will have my full support for the next session.

We are asking this in Come to our Service Stores and see for yourselves sections from various tires. Compare Quality—Construction—and Prices.

Advertise your Health with the American Cancer Society

Small Steps Add Up

In 1946, the American Cancer Society launched the first successful national anti-cancer campaign. The campaign was simple, yet effective: Americans were invited to join a nationwide effort to eliminate cancer as a cause of death.

At the time, cancer was the second leading cause of death in the United States. The society began promoting the idea of small steps that could add up to a big change. The first small step was asking people to make a small donation to the society. This modest start led to a movement of people coming together to fight cancer.

Today, the American Cancer Society continues to work to eliminate cancer as a cause of death. We know that cancer is a complex disease with many causes, and that there is no single solution to this problem. But we also know that we can make progress by working together to find new ways to prevent, detect, and treat cancer.

The American Cancer Society is supported by the generosity of people like you. We are grateful to everyone who has donated to our mission over the years. Your support has helped us to make a difference in the lives of people affected by cancer.

We encourage you to continue to support our work. Together, we can make progress against cancer and help to create a world with less cancer and more birthdays.

American Cancer Society

Kalamazoo Girl Selected to Lead Normal Women

Martis Austin, Batastol, a Kalamazoo junior at Western State Teachers College, was elected president of the Women's league of the college on the same ballot that chose her as the normal woman of the year. Bernice Danielson, Alcona, is the new secretary-treasurer of the Kalamazoo chapter of the Student Teachers National Association.

One Minute Pulpit

This will be the first time that the thaw when down to the grave is reached in a minute. I was beheld by the great master, and I was sent to speak to him, and restored the friend, and I was sent to speak to him, and I was restored to him. This is the time. I was beheld by the great master, and I was restored to him.

Hope College Gets $20,100 Requests

Hope College received two bequests in the amount of $500 each, and one of the $10,000 gifts. The first, a bequest in the amount of $500, was left by Bernard R. N. Calderon, a Caledonite, by the late Mrs. R. N. Calderon, a Caledonite, in memory of her husband, who was a member of the class of 1879. The second was a bequest of $500, left by her in her will.

Gladys Glad on Beauty

AMERICA'S FOREMOST

Foods and Medicines

Dear Mrs. Glad: When I was a young girl in the 1890's I was a great sufferer from night and morning sickness. You know how I feel now. I'd like to know just how you can suggest.

You can suggest foods that contain

1. Milk
2. Eggs
3. Biscuits
4. Peanuts
5. Bread
6. Meat
7. Fish
8. Cauliflower
9. Tomatoes
10. Cabbage
11. Spinach
12. Beets
13. Lettuce

Gladly yours,

Hope College Gets $20,100 Requests
The Judgement of Vulcan

BY LEE FOSTER HARTMAN

One of O. Henry Memorial Award Selections

"I am the Judge of all the gods," said Vulcan, the smith who hammers the thunderbolt of Zeus into shape. "I must judge the most beautiful of all the goddesses. The contest is between Athena and Aphrodite. Which one do you think is more beautiful?"

"I can't decide," said the god. "Both are equally beautiful. But I will make one thing clear. The loser will be banished from Olympus forever."

The goddesses set out to please the god with their offerings. Athena brought a mighty oak tree, while Aphrodite brought a beautiful garden filled with flowers. But the god was not satisfied. He looked at both and said, "These are not the offerings I was looking for."

Athena then brought a beautiful city, adorned with temples and statues. But the god was not impressed. He said, "These are not enough." Aphrodite then brought a beautiful woman, adorned with jewels and pearls. But the god was still not satisfied. He looked at her and said, "These are not the offerings I was looking for."

"I will give you a harder test," said the god. "I will give you both a mask. Whichever one of you can make the most beautiful face will win the contest."

Athena took a few minutes to think, while Aphrodite took a moment to prepare. The god watched as they both began to work on their masks. The god could see the sweat on their faces, as they struggled to make the most beautiful face possible.

After a few moments, the god announced the winner. "Aphrodite," he announced, "you have won the contest. Your face is the most beautiful of all."

"But why, O god," asked Athena, "why did you not choose my city or my garden or my woman?"

"Because," said the god, "beauty is not just outward appearances. Beauty is found in the heart and in the spirit. Athena, you have conquered the world with your intellect. Aphrodite, you have conquered the world with your beauty. But beauty is not enough."

"Then what is enough," asked Athena, "O god?"

"What is enough," said the god, "is the ability to love. The power to make others happy. The strength to overcome adversity. These are the true signs of beauty."
