Learning Japanese Dances in America

Nippon Dancers from an American Watari Bando, one of the principal groups in America's Japanese, are being taught the art of stage dancing by Misses Sadao Miki and Arigita Yamaguchi, who recently visited Los Angeles from Japan. Miss Sadao Miki, who originated the art of Watari Bando in America, will also teach the art of stage dancing to the Japanese of Los Angeles.

Over Falls, Lives

Soldier Pens Impressions

Standing in the picture is the famous Japanese dancer, Misao Fukuda, who has been teaching the art of stage dancing in America for the past 20 years. Misao is a native of Japan and has been teaching the art of stage dancing to American students for the past 20 years. She has taught the art of stage dancing to many American students and has become very popular in America.

Harvesting Dams in Bridge

Over the precipice of a heavily wooded hill, we can see the remains of a dam. The dam is a small structure that was used to create a small lake. The lake is surrounded by trees and is a popular spot for picnics and other outdoor activities.

All Rolled Up

One of the stories that will be featured in the coming months is the story of a dam that was built in the 1930s. The dam was built to provide water for the local community and was a major engineering project.

Water Wagon!

Water wheels for use as a means of irrigation in modern agriculture can be a great asset in the fight against drought. The use of water wheels can provide a steady supply of water for crops and can also help to conserve water resources.

Two-Wheel of Four-Wheel Trailer

The glide between two-wheel and four-wheel trailers is a great advantage of the two-wheel trailer. A four-wheel trailer, which has a tendency to pull to the side, can be heavy on the turn. On the other hand, a two-wheel trailer, which is more stable, can be used in heavy farm loading at moderate speed, thus being a true gain in the total economy of the trailer.

World's Wheat Acreage

World-wide acreage has been expanding rapidly since 1924. In that year, the United States and China, in addition to having the largest acreage, were also the largest producers of wheat. However, since then, other countries have increased their acreage and production of wheat, making it a major world crop.

Poultry

Lice Killed Easily

Lice are so easy to control using a natural insecticide that will kill them in seconds. The insecticide is a combination of particles of a natural mineral and an essential oil that is highly toxic to lice but harmless to other insects. The lice are killed by the chemical when they come into contact with the insecticide.

Improvement Due

The raising of poultry in the United States has not been without improvement. Poultry farmers have been experimenting with new breeds and methods of raising poultry. The results of these experiments have been significant and have led to an increase in the quality and quantity of poultry produced.

Keeping Poultry Healthy

Keeping poultry healthy is essential to the success of any poultry operation. Poultry farmers should take care to keep their flocks healthy by providing them with clean water and feed, by protecting them from disease, and by providing them with a clean and comfortable environment.

How Much Does a Hen Eat?

How much a hen eats is an important factor in determining the profitability of a poultry operation. The average daily feed consumption of a chicken is about 100 grams, which is equivalent to about 100 eggs.

Argentina

Argentina has a vast range of livestock and agricultural products. The country is rich in natural resources, and its economy is based on agriculture and livestock. Argentina is a major producer of wheat, corn, and soybeans, and it is also a major exporter of beef and other livestock products.

Agricultural Status

The agricultural status of the United States is one of the most important factors in determining the economy of the country. The United States is one of the largest producers and exporters of agricultural products in the world.
CONSTRUCTION OF A 48-MILE PIPE LINE TO CARRY NATURAL GAS FROM THE BRANDON FIELD IN MICHIGAN

The plan is to lay the six-inch-diameter line in the existing trench used for the water supply line and to use the same methods and equipment. The pipe line will be laid in a straight line from the Brandon field to the city of Battle Creek, a distance of approximately 20 miles. The construction is expected to be completed by the end of September.

Alfred Engstrom, president of the Brandon Power Company, declared that the construction of the 48-mile stretch within the city limits will be started immediately.

HOLLAND'S POLICE DEPARTMENT

Chief to Leave After 17 Years

Frank Vallo has resigned as the police chief in Holland, a city of 17,000 people, to become chief of police in a community of 11,000 people. He will assume his new position on July 1.

BARRY COUNTY DISCOVERS' SELF

The 128-mile automobile route in a part of Barry county's lake region, owned by 68 members of the Holland Central club, gives them an outlet of the many miles of lakes and rivers in the vicinity. Excles County.

The feature for comfort and convenience is the bridge and curves. The road is easy on the ears and the eyes, and the scenery is breath-taking.

BAY CITY TIMES

Michigan, June 14, 1926

straums Industry And Alliance for Wage Question

Economic activity in general has been more pronounced in the early months of this year than in any other year since the depression began.

The statement of an employer at the meeting was that the company's policy of providing employees with a chance to make a living and be happy is the best for business.

The policy of paying the employees a living wage is the policy of making the company a success and not vice versa. The company's policy is to make the employees happy and to create a desire to work hard and to do their best work.

In conclusion, the statement was that the wages and salary reductions should continue.

Eaton's S. A. Hall Drive

Get Out To Good Start

The new Eaton's S. A. Hall Drive, located at 3333 S. State St., is now open for business. The store is open daily from 9:00 a.m. to 9:00 p.m.

Detroit, June 14, 1926

STATE DEPTICF OVER 7 MILLION

The state closed its fiscal year with a surplus of $7,500,000, nearly $4,000,000 more than the previous year. Because of its financial condition, the state government will continue to operate on a deficit until next year.

The surplus comes as a result of the state's ability to raise taxes and control expenditures. The state has been able to reduce its debt and improve its financial position in recent years.

The improvement is due to increased taxes and greater efficiency in government operations. The state has been able to reduce its debt and improve its financial position in recent years.

Revised Price for S. A. Hall Drive

The revised price for the S. A. Hall Drive is $2,000,000. This price is lower than the original estimate of $2,500,000. The difference is due to the fact that the state was able to negotiate lower prices with the contractors.

The revised price includes all costs associated with the construction of the drive, including land acquisition, design, and construction. The state was able to negotiate lower prices with the contractors, resulting in a savings of $500,000.

New Rail-Road Route

The new rail-road route between Battle Creek and Kalamazoo will be completed by the end of the year. The route is expected to be operational by the middle of the next year.

The route will provide a direct link between the two cities, which are currently connected by a less direct route. The new route will improve transportation between the two cities and provide a more efficient way to travel.

Broadway Looping Program

The Broadway Looping Program is underway in Detroit. The program involves the construction of a series of loops on the major highways in the city to improve traffic flow and reduce congestion.

The loops are being constructed at a cost of $2,000,000. The program is expected to be completed by the end of the year.

The loops are being constructed at a cost of $2,000,000. The program is expected to be completed by the end of the year.

Biggs and Others

Biggs and others are in favor of the Broadway Looping Program. They believe that the loops will improve traffic flow and reduce congestion in the city.

The loops are expected to be operational by the middle of the next year. The program is expected to be completed by the end of the year.

WILD FLOWER VANDALISM IS HIT BY LARIE

That people should "hurt" wild flowers is one thing. But to "hurt" them by not weeding them is another. It was the privilege of a recent president of the department of botany.

"Some of the wild flowers, such as celandine, are most experiment- able. In order to determine how far they are influenced by the care or lack of care, we set up a little garden, about the size of a man's hand, where all the wild flowers of the region are put, and we ask people to treat them as if they were a part of their garden."野 flowers, which are cultivated in the park, are also protected against injury. The garden is open to the public, and all are asked to observe the following rules:

1. Do not pick flowers from the garden, except for their own use.
2. Do not damage flowers by trampling on them.
3. Do not allow pets to enter the garden.
4. Do not feed animals in the garden.
5. Do not throw litter in the garden.

Those who violate any of these rules will be reported to the police.

GLADYS GIVES A LUCKY LESSON

"Miss Gladys: I recently read a book about the law of attraction. It said that if you want to attract something, you must believe in it first. So I started believing in love, and now I have found you!"

"Miss Gladys: I know what you've been doing. You've been reading those books and thinking about love. But the truth is, love is not something you can attract. It is a feeling that comes when you least expect it. So, my dear, you should stop worrying about love and start focusing on other things." Wild flowers, which are cultivated in the park, are also protected against injury. The garden is open to the public, and all are asked to observe the following rules:

1. Do not pick flowers from the garden, except for their own use.
2. Do not damage flowers by trampling on them.
3. Do not allow pets to enter the garden.
4. Do not feed animals in the garden.
5. Do not throw litter in the garden.

Those who violate any of these rules will be reported to the police.
LOVE, PREFERRED
THE ROMANCE OF A BUSINESS GIRL

By EDNA ROBB WEBSTER

Copyright 1903, Good Press America

CHAPTER I

SATURDAY morning early and the sun was shining brightly on the small city as Mary was leaving the breakfast table after a luxurious two days. Her hands were raised to her head as she exclaimed:

"Oh, Mary! How sweet you are!"

Mary looked down at her lover, Peter, who was standing before her. His face was flushed with excitement, and a smile played about his lips.

"Come on, Mary, let's go to the city," he said.

Mary nodded her head in agreement and Peter took her hand as they started out the door.

CHAPTER II

The two were walking down the street, arm in arm, when they came upon a man who was selling newspapers. Mary paused and turned to Peter.

"Look at that man, Peter. Isn't he funny?"

Peter laughed and agreed with her. They continued on their way, talking and laughing.

CHAPTER III

As they walked, Mary began to feel a little tired. She sat down on a bench to rest and Peter stood beside her. They talked about their future plans and dreams.

CHAPTER IV

Suddenly, a man approached them and exclaimed:

"Mary, you're late!"

Mary looked up and saw her boss standing there. She stood up and walked towards him.

CHAPTER V

When they arrived at the office, Mary was greeted by her boss and introduced to her new co-worker. The two women spent the day working together and getting to know each other.

CHAPTER VI

As the day drew to a close, Mary and Peter walked hand in hand down the street towards their hotel. They talked and laughed, enjoying each other's company.

CHAPTER VII

That night, they sat in their room, Mary holding Peter's hand as she told him about her day. Peter listened intently, a smile playing about his lips.

CHAPTER VIII

The next day, they continued their work, enjoying each other's company and the beautiful weather.

CHAPTER IX

As the days passed, Mary and Peter grew closer and closer. They talked about their future plans and dreams, and decided to marry.

CHAPTER X

On the day of their wedding, Mary and Peter stood in front of the altar, holding hands and promising to love each other forever. They were married in a beautiful ceremony, surrounded by their friends and family.

CHAPTER XI

After the ceremony, they celebrated with a reception, filled with laughter and joy. They spent the rest of the day together, enjoying each other's company and the beautiful weather.

CHAPTER XII

As the days and weeks passed, Mary and Peter continued to grow closer and closer. They talked and laughed, enjoying each other's company and the beautiful weather.
To Automobile Owners—

We plan to advise you that we are now making a
number of new items of parts for your cars and truck
available for you to have a wide variety of service
and repair jobs at your convenience. We can also offer
other services to help you save money by doing jobs
yourself.

Stay tuned for more information.

Hand Decorated
Silk Handkerchiefs
for ladies and boys are now in stock.

Saturday Free will give you one of these
Handkerchiefs FREE with each purchase of 50c
or more. Expect a surprise this week.
