Good homes for sale. Share Bros. For prompt taxi service phone Robert, 543-2345.

Indian rice. The best. Buy now. For more information, call John, 543-2345.

All mailboxes in town are currently being painted with a new, colorful design. They are expected to be completed by the end of the week.

Goble's, Inc. has announced that it will be closing for a week-long vacation starting Monday, July 6th. During this time, the store will be closed and all employees will be taking their annual leave.

A special event is scheduled to take place on Saturday, July 7th. The event will feature a firework display in honor of Independence Day. The display will begin at 9:00 PM and is expected to last for 30 minutes. The event will be held at the community park.

Goble's, Inc. is currently looking for new employees. Interested candidates should apply in person at the store during business hours. Interviews will be scheduled as soon as possible.

In other news, Goble's, Inc. has announced that it will be hosting a summer sale starting next Monday, July 6th. The sale will feature discounts on a wide variety of items, including clothing, electronics, and home goods. The sale will run for one week and is expected to attract many customers.

Local sales have been strong this summer. Goble's, Inc. reports a 20% increase in sales compared to last year. The company attributes this success to the economy and the positive effects of the summer season.

Goble's, Inc. is expanding its product line to include new items such as home decor and outdoor furniture. The expansion is expected to increase sales and attract new customers.

Goble's, Inc. has also announced plans to renovate its store front. The renovations will include new paint, new windows, and new signage. The renovations are expected to be completed by the end of the year.

In other news, Goble's, Inc. has implemented a new employee benefits program. The program includes paid sick days, health insurance, and retirement benefits. The company believes that the program will attract more employees and improve employee satisfaction.

Goble's, Inc. has been awarded a contract to provide services for a major local event. The event is expected to attract thousands of people and is expected to generate significant revenue for the company.

Goble's, Inc. is committed to serving the local community. The company regularly supports local charities and organizations, and is currently sponsoring a local youth sports team.

Goble's, Inc. is committed to providing the best possible customer service. The company has implemented a new customer satisfaction system that allows customers to rate their experience. The system is expected to improve customer satisfaction and attract more customers.

In other news, Goble's, Inc. has implemented a new inventory management system. The system is expected to increase efficiency and reduce costs. The company is currently training employees on the new system.

Goble's, Inc. is committed to the environment. The company has implemented a new recycling program that allows customers to recycle their old products. The program is expected to reduce waste and improve the environment.

Goble's, Inc. is proud to be a part of the local community. The company is committed to providing high-quality products and services, and is dedicated to serving the needs of the local community.
CRAWLER NEWS

And Now the "Shaveleria" for the Jobless

The nation's war-time labor shortage is so acute... The local unemployment figure is now as low as it has ever been. More jobs are being advertised daily. A "shaveleria" shop has been established.

VARITIAL PROJECTS SHOW BEST CROPS

Reports on sources of variable tests are trickling in to the Michigan State department of Michigan State college. The latest report indicates that the best varieties of peas, beans, and other crops are being grown in various parts of the state. The new report will be available soon.

Grain growers are among the first to report in their reports this year. They have been doing variant testing in oats, wheat, barley, corn, and alfalfa. It will be some time before the complete reports will be available. In previous tests, the oat report is expected to be available soon. The report indicates that oats planted in the west have yielded 57.2 bushels per acre, compared with 47.2 bushels per acre from the same field in Monroe county. The report on peas and beans indicates that oats planted in the west have yielded 46.1 bushels per acre, compared with 33.2 bushels per acre from the same field in Monroe county.

Three Model Men Modeled

Hilte, a new born, was recently featured in a recent ad of a well-known manufacturer. He is the perfect example of a healthy child. His features are well-defined, and his hair is neatly trimmed. The ad is aimed at parents looking for natural foods for their babies.

Champion Litter Raiser of West

Oklahoma City Girl Very Romantic

When we are discussing the progress of Oklahoma, don't forget to include Oklahoma City, the city of romance. The city is home to many romantic couples who are always looking for new ways to celebrate their love. Whether it's a romantic dinner at a cozy restaurant or a leisurely walk in the park, Oklahoma City offers something for everyone.

Rich on Oil

Burl Orchards, Inc., of the large orchard farms in central Michigan, has a large crop of peaches ready to be picked. A 50,000-bushel crop of apples is ready to be picked. The principal varieties are Michigan and Macoun. The orchard is located in the southern part of the county.

Cows Must Be Good To Payout Now

When you buy a cow, it is best to choose one that is well-nourished. The cow should have a good set of udders and should be easy to milk. According to the national livestock department at Michigan State college.

Volume of Fruit On Benton Harbor Market Is Reduced

A rise in the volume of fruit in the market is expected. The market is already full of fruit, and more fruit is expected to arrive soon. The market is expected to remain full until the end of the season.

Can Improve Market Practices on Beets

Better sources of market information and a greater system of grading and handling are needed to improve the market. In addition, there is a need for more efficient handling of market beets by the government of Michigan. The government needs to take action to improve the market.

1952 Grasshopper Day

The grasshopper crop for 1952 is now in making. Female grasshoppers are laying their eggs (which will hatch in the spring of 1952, on or near the first of May.

GREEN-YESS, CROP MAKING

The grasshopper crop is growing. The green beans are now ready for pickling. The beans should be picked before they become too tough to eat.

The female grasshopper can be easily recognized by its white eyes, which are visible in the green beans. They are not easily located. By watching the fields where eggs are being laid in large numbers, it may be possible to stop the grasshoppers in their tracks if caught early.

If the content of the grasshopper report is true, then the grasshopper season is here again. The young grasshoppers will be on the wing next spring. At this time of year, the best chance to control the grasshopper is to use a chemical control method.

FARM Has 60,000 Bushels of Apples

Ball Orchards, Inc., of the large orchard farms in central Michigan, has a large crop of peaches ready to be picked. A 50,000-bushel crop of apples is ready to be picked. The principal varieties are Michigan and Macoun. The orchard is located in the southern part of the county.

Cows Must Be Good To Payout Now

When you buy a cow, it is best to choose one that is well-nourished. The cow should have a good set of udders and should be easy to milk. According to the national livestock department at Michigan State college.

Seeds From Beets

A new crop for Michigan milk lands appears to promise the future of the dairymen. The beet seeds are a potential source of income for many dairy farmers in Michigan.

The beet seeds are a potential source of income for many dairy farmers in Michigan. The beet seeds can be dried and stored for future use.

Large Egg Eggs Are Laid By HEN "THILDA"

Canadian records show that eggs from White Leghorns are the most profitable to breed. The eggs are used for white eggs, and the hens are used for meat.

HENS KEPT INDOORS IN WINTER LAY BEST

The United States Department of Agriculture made a test to find the effects of different types of hens on the production of eggs. The results showed that hens kept indoors in winter laid more eggs than hens kept outdoors.

POULTRY

POULTRYMEN SEARCH FOR BEST

Recent improvements in the poultry farm are an indication of the increased interest in the industry. The poultry farmers are searching for the best strains of poultry to improve the quality of their products.

The three essentials for good egg harvests are the right strains, the right hens, and the right feed. The farms that have succeeded in the past have done so by careful selection of strains, by giving the hens the best possible care, and by using the best possible feed.

For instance, the farm of John Smith, located in rural Michigan, has a flock of 100 White Leghorns. The hens are kept indoors in winter, and they are given the best possible care. The farm is in constant search of the best strains to improve the quality of their products.
Defending the housing plan adopted by the administrative board, Mayor Robert A. Flower said, "The plan is the best that can be found in the city of Detroit, and we look forward to the completion of the project." The Mayor said that the plan would be implemented promptly, and that the city council would be kept informed of its progress throughout the year.

Up for debate today will be the new housing developments in East Lansing. The council will be审议ing the proposal to approve the city's newest housing project, which is expected to be completed by the end of the year.

**Locust Congregations Will Work on New Basin**

The Congregational church of Lowell will hold a special meeting on Wednesday, March 23, to consider opening the new basin for new members living in agreement with the church. The meeting will be held at 8 p.m. in the church hall, and there will be a special frost for those desiring to join the congregation.

**Glady's on Beauty**

All of Us: Where the Pioneers Sleep

The headquarters tell of the story of the men who gave their lives for their country. The place where the veterans rest their heads is at Fort Meade, Maryland, and they are housed in a modern and comfortable facility.

The headquarters is located on a hillside overlooking the Potomac River, and it is surrounded by trees and gardens. The building is made of stone and brick, and it has large windows that allow natural light to enter the rooms. The floors are made of wood, and the furniture is made of polished mahogany.

The headquarters is a place of rest and comfort for the veterans, and it is a fitting tribute to their service. It is a place where they can relax and reflect on their experiences, and it is a symbol of their sacrifice and dedication.
BABY, FRETFUL, RESTLESS?

Lock to this cause

Babes are born fretful and restless until their first sleep; and if they are not fed and comforted immediately, they will continue to be fretful and restless until their first nap, and will remain fretful and restless until the second nap.

Babes are usually fretful and restless when they are hungry or thirsty, and will continue to be fretful and restless until they are fed and comforted.

Babes are fretful and restless when they are cold, and will continue to be fretful and restless until they are warm.

Babes are fretful and restless when they are angry, and will continue to be fretful and restless until they are comforted.

Babes are fretful and restless when they are afraid, and will continue to be fretful and restless until they are comforted.

Babes are fretful and restless when they are tired, and will continue to be fretful and restless until they are rested.

Babes are fretful and restless when they are hungry or thirsty, and will continue to be fretful and restless until they are fed and comforted.

Babes are fretful and restless when they are cold, and will continue to be fretful and restless until they are warm.

Babes are fretful and restless when they are angry, and will continue to be fretful and restless until they are comforted.

Babes are fretful and restless when they are afraid, and will continue to be fretful and restless until they are comforted.
