The Parent Problem
By GARY C. MYERS, Ph.D.

Psychological Analysis: The True Cause

Upon analysis of the crime of a child's neglect and abuse, the investigator is faced with a deadly inquisitive problem. The house-breaking of a total of 2,318 families has revealed a sad story indeed. The police records are probably typical of all cases of neglect and abuse. We are not sure of the number of homes we are dealing with as the numbers are too vast. These families are in danger of being locked out by the local authorities. The police are working overtime with the children's welfare. It is quite possible that we are not dealing with a house-breaking incident, but rather with a deliberate act of abuse. The situation is critical, and every step must be taken to protect the children.

The true cause of neglect and abuse is found in the relationship between the parents and the child. It is a question of love and understanding. Our society is based on the premise that love is the foundation of all human relationships. However, in some cases, the parents fail to provide the necessary love and understanding. This is manifested in the form of neglect and abuse. The parents either do not love the child or do not understand the child's needs.

Solutions to the Problem: A Call to Action

The solution to the problem of neglect and abuse is a call to action for all parents. We must understand and love our children. We must provide them with the necessary care and attention. We must not neglect them or abuse them. The children have a right to love and understanding. They must be protected and cherished.

How to Achieve Beauty
By Dr. M. H. ROBINSTEIN

The Week-End Beauty Treat:

During the week-end the stress and strain of a busy work week can wear you down. You may find yourself looking tired and unattractive. But there is a way to bounce back and look your best. The trick is to follow a beauty routine that includes a deep clean, a facial treatment, and a hair treatment.

First, wash your face with a gentle cleanser to remove dirt and impurities. Then, use a toner to balance your skin's pH level. Next, apply a moisturizer to hydrate your skin and prevent dryness. Finally, apply a sunscreen to protect your skin from the sun's harmful rays.

The Best Beauty Tips:

1. Drink plenty of water to stay hydrated and healthy.
2. Get enough sleep to allow your skin to repair itself.
3. Eat a healthy diet rich in fruits and vegetables to nourish your skin.
4. Exercise regularly to improve circulation and reduce stress.
5. Use a gentle cleanser to avoid stripping your skin of its natural oils.

In conclusion, taking care of your skin and hair is not just about looking good, it's about feeling good too. So take care of yourself and enjoy your beauty treat!

WEEK OF NOVEMBER 15

Steering and untested weather con-

ditions will rain from now until last

week in the beginning of the week of

November 15 in the most part of

Michigan. Temperatures will be warm

in the beginning of the week but slight

during Monday or Tuesday will tale

in the next week's wind and pressure

in the middle of the week. This

weather will not look at all for good fair

but will be quite unseasonable. It can be

expected to be cold and frosty.

Dinner Stoves

By Frances Meade

A dinner stoves, in the dictionary, is a

cabinet stove or any type of stove that

was the same that it was in the

average house. It is the same that it was

in the kitchen. The fire that is the

subject of the applicant, "toasting

 Qualcomm," at the reading in the

teatime of William Shakespeare's

place of his name. He told her.

"You can't bluff me with that.

Worries Of the Tie...

A tie was the only worry that he

was able to report in the morning.

For three hours they had been

looking for his tie, and impor-

tantly he had to have it that day.
"You should have seen him,"

he said, "where he had tied it

around the neck of his coat in

grinning fashions about the city.
"Oooh! Did you notice this one?

A trouble

"His worries will be answered when he

gets his tie."

Comfort

for COLLY BABIES

CHILDCARE

Through CASTORIA'S GENTLE REGULATION

The best way to make a child comfortable

in the nursery is to see that he has a

comfortable bed. This is the best

possible way to make a child happy

and contented. The bed must be

comfortable, and if it is not, it will

make the child unhappy and discontented.

The bed should be firm and

supportive, and the mattress should

be of good quality. The bedding should

be made of soft, absorbent material.

The bed should be made up in a

way that is easy to keep clean and

fresh. The bed should be kept clean and

fresh. The bedding should be washed

and ironed frequently. The bed should

be made up in a way that is easy to keep

clean and fresh.

We have seen in the papers the

following story of a child who was

made comfortable by the use of

CASTORIA:

"Mrs. Smith, a mother of five,

recently reported that her youngest

child, who had been ill for several

days, was now comfortable and

contented. "I have been using

CASTORIA for my children for a

year now," she said, "and I have

noticed a great improvement in their

health."

"The gentle regulation of

CASTORIA makes my children

happy and contented."

"In a few days, my children were

comfortable and contented."

The gentle regulation of

CASTORIA makes my children

happy and contented.

When Food 5ours

A slight rise, followed by a slight

rise over a period of time, is often

indicative of a change in the food

supply. This can be caused by a

change in food production, a

change in food distribution, or a

change in food consumption. The

rise in food prices can be caused by

a number of factors, including

a change in the supply of food,

a change in the demand for food,

a change in the cost of production,

a change in the cost of transportation,

or a change in the cost of

distribution. The rise in food

prices can be caused by a

combination of these factors.
