GOBLES, MICHIGAN, THURSDAY, JANUARY 21, 1932

NO. XLII

GOBLES NEWS

LOCAL NEWS

James Hardy was home from Chicago Sunday and Monday. The P. N. G. Club will meet with Miss Potz at the home of Mrs. Marion Uppie Thursday, Jan. 20.

Charles at Eastern Star Hall tonight at eight. See Mrs. Mary Lille or any Star tie balls.

The News now has a mystery story "Murder and Mystery". Watch for it each week. We hope you will enjoy it at the Community church, downtown Sunday.

Mr. and Mrs. L. N. Tyrer and Miss Helen M. Newsome of Detroit and Miss Margaret Cronin have arrived. Mrs. Lilian Mann and Mr. and Mrs. Wells Tolley.

Flora and Mrs. L. E. Deslond of Cedarburg, George Howard, George Newsome, Mrs. and Mrs. Hill of S. D. Newsome of Kansas City and guests of Mr. G. D. Heidt are in town.

We are most pleased to meet Miss Millicent Satterfield and pleased to note that she is still that she is in town.

Jane McKinney, who has been away at Brown University, has returned for an extended illness. Funerals services for Mrs. Maud Kirk were held at the Presbyterian church today at 11 a.m., and Mr. and Mrs. Frank Kohler of Gables say he passed away yesterday.

The Northfield Club, of Rochester, was invited to have a potluck dinner at the home of Mr. and Mrs. James W. Deane, who were in town yesterday. Mrs. Deane is a member of the Eastern Star, but everyone is welcome.

The Pleasant Valley County Farm Bureau Association at the Community church next Saturday was well attended. Rev. McDonald of Lebanon, Rev. Mackley of Gables and Mr. and Mrs. P. A. Dworsky of Park are all on the committee in charge of the dinner and the president of the ladies club invited a delicious chicken dinner. Eleven members of the ladies present were also served. Twenty-two guests were served. Mrs. W. P. Kohler and Mrs. F. C. Kohler of Gables say he was born yesterday.

The Wexford County Farm Bureau Women’s Auxiliary at the Community church on Saturday was well attended. Mrs. A. A. Delosh, who is in charge of the committee, announced that the annual meeting of the Women’s Auxiliary will be held on the first Wednesday of each month at 10 a.m. The Auxiliary will meet at the home of Mrs. F. C. Kohler at 2 p.m. on the last Wednesday of each month.

The annual meeting of the Women’s Auxiliary will be held on the first Wednesday of each month at 10 a.m. The Auxiliary will meet at the home of Mrs. F. C. Kohler at 2 p.m. on the last Wednesday of each month.

The annual meeting of the Women’s Auxiliary will be held on the first Wednesday of each month at 10 a.m. The Auxiliary will meet at the home of Mrs. F. C. Kohler at 2 p.m. on the last Wednesday of each month.

In the evening they were happily entertained by Mrs. A. A. Delosh, who was in charge of the committee, and Mrs. A. A. Delosh, who was in charge of the committee, announced that the annual meeting of the Women’s Auxiliary will be held on the first Wednesday of each month at 10 a.m. The Auxiliary will meet at the home of Mrs. F. C. Kohler at 2 p.m. on the last Wednesday of each month.

Although few realize that the Department of State's major revenue producing project, the Department records that $1,149,776 was collected for the first three months.

Among the outstanding highlights of the business of the Department of Treasury are the 60 buildings and 13,000 acres of assets worth $16,800,000. Michigan under the supervision of the department, not one of these buildings could be closed down because of adverse economic conditions. It is safe to say that all will come through in the shape of increased output.

The gasoline tax was the biggest revenue producer of the department, $22,095,676 being collected during the first three months. All but $2,000,000 was collected in place with 82,883,680. From corpora
tions the department collected $9,883,680 from 7,377,805,000. The department agencies and state departments collected $7,638,830, the interest on $9,883,680 and the collection of $9,883,680.

From the mail the state received $3,465,172, all of which also must be used to pay the state's share of carri
ing for tabulation. The total advertising divi
tible dollars collected $44,900, while licensing of private detectives yielded $2,000,000.

A. L. T. May Une Gas

American Light and Traffic Company, manufacturers of the Michigan Gas Company, is currently ordering the building of its new plant in the city of Ypsilanti, according to the extract of the State Department of Commerce.

American Light and Traffic Company Limited, Detroit Gas City and the Wash
town Gas Company of Farmington, announced their intentions of forming the American Light and Traffic Company Limited.

B. When is the Next Flood?

Art Proctor: When flood waters threaten your abode, what can you do to protect yourself and prevent or minimize damage? Are you bothered with blad
eet, swimming pools, or ote
er flood protection measures?

The first line of defense is an emergency plan for your family. This plan should include evacuation routes and shelter locations. Be sure to have a battery-operated radio and flashlights, as well as non-perishable food and water supplies. Make sure everyone knows how to turn off the main water and gas shut-offs.

In the event of a flood, follow these steps:

1. Evacuate the area if instructed to do so by local authorities. Do not try to cross flood waters.
2. Stay away from electrical hazards. Never touch water that is touching electrical equipment.
3. Avoid standing in or walking through flood waters. The water may be deeper than it looks and can be fast-moving.
4. Use a boat or high ground for rescue or evacuation.
5. Monitor local news and weather reports for updates.
6. Be prepared to leave quickly if necessary. Have a family meeting where each member knows the emergency plan and what to do in the event of a flood.

Preparation is key to minimizing damage from flood waters. Be aware of potential risks, stay prepared, and follow local authorities' instructions for your safety.

Michigan Airlines Get Big Refunds from Manufacturers

The Michigan Airlines have received $75,000 in refunds from manufacturers for the purchase of their new fleet. The refunds were provided by manufacturers to offset the cost of the new aircraft.

Manufacturers are required by federal law to refund money to airlines if the aircraft does not meet the specifications promised. The Michigan Airlines, like many other airlines, were faced with unexpected costs due to manufacturers' failure to meet specifications.

The refunds were significant and helped offset the cost of the new fleet. The Michigan Airlines are grateful for the support of the manufacturers and look forward to operating their new fleet.

Complete Free Car Parking Lot

As a result of the donation of a portion of land to Charlotte by Frederick V. Brinck, Charlotte manufacturers, the city now has a generous parking facility for motorists.

The city paid the cost of pouring the lot and the lot is available for public use. The parking lot is located on the corner of East and Main Streets.

Charlotte Complete Free Car Parking Lot

Brinck, the individual who made the donation, is a well-known businessman in the city. The parking lot is a generous donation to the city and will be a great asset to the community.

The lot will accommodate 60 cars and will be planned with a landscaped area, a large sign, and adequate lighting to ensure safety for motorists.

Doan's Pills

Doan’s Pills are a natural pain reliever and digestive aid. They are a popular choice for reducing occasional constipation and providing temporary relief from heartburn. Doan’s Pills can be purchased in most drugstores and are recommended for adults over 30 years old. Sold everywhere.

The Soup That’s Known and the World Around It

LOOKOUT!

Counterfeit Aspirin!

Addiction. An increasing number of people are experimenting with the use of counterfeit drugs, particularly aspirin. Over the last few years, counterfeit aspirin has been regularly sold by reputable retailers, as well as online.

The counterfeit aspirin is often sold under well-known brands, and is difficult to identify by the average consumer. It is important to be aware of the potential dangers of using counterfeit medications, and to use reputable sources when purchasing drugs.

Shellfish Increases Taken as Pickup Yankees

An increase of 4.5 percent in the numbers of emphasis on the woman's role in society and the economy since World War II, shipbuilders for the months of February, March, and April.

It is hoped that this increase will continue to benefit both the shipbuilding industry and the local economy.

Trappers' Attention!

The trappers are urged to be vigilant and report any signs of the presence of minks on their lands. The state trapper's association is offering a reward for any information leading to the arrest of minks.

At the Base City, Michigan, trappers reported seeing the animals and expressed concerns about the increasing numbers of these predators.

The trappers are encouraged to participate in the state's trapper education program and to follow all state regulations regarding trapping.

State Prison Houses

Michigan state prison finished the year with 602 more prisoners than it had in 1950. The prison system has experienced a significant increase in population over the past decade. The increase in population has been attributed to the rising crime rates and the state's efforts to increase the capacity of the prison system.
FARM GROUPS
STUDY WAYS TO AID SOILS

Methods of obtaining more profitable crops by improving the soils on
their farms continues to be one of the most interesting subjects for Mid-
game farmers, according to members of the
Farming department at Michigan State
College, who are conducting a series of soil-
management tests in 12 area counties.

More than 1,000 farmers are taking
part in the first or second year work
which is given in a series of four
years for each county.

Four Newberry County farmers were select-
ed in the groups which took the first
year's experiment last fall, and several more are continuing their study this fall.

The basic need on most Michi-
gan soils, how to correct acidity or
alkalinity, is an important one. The first
soil test in the entire group by the college
soil survey last fall also gives the
soil analysis.

In the reports this information is read to the
other 10 or 12 men in their groups.

The soil test analyzes the ways to
improve soils through organic
applications, commercial fertilizers,
crop rotation, systems of land man-
agement, soil types and erosion.

More than 1,000 farmers have
completed just the first section of the
one of the newest Michigan projects.

More Land to Be
Tilled in Eaton

Prevaling low returns for farm
products have damaged the financial
position of farmers in the Eaton
County, according to the report of
the farming system of the area. In the Eaton
County farmers have rented and will be
planted to cotton crop this spring.

Many fields will be worked on farms
in the Eaton County, some of them by
delayed crops, as the farmers are out of
jobs and will try their hand at farming in order to make
money to buy food for the week
soon.

For the past 15 years many farmers in
this section have been idle but with the
higher prices of potatoes and other crops, they have
turned to farming.

The outlook for the 1937 crop is
that it will be a good one.

Big Program Arranged
For Farmers' Week

To avoid again disappointing
thousands of women, the farm program
for conferences on November 6, 7 and 8,
will be arranged by the Michigan State
College, program committee which
expects to attract the people who attend
Wednesday night entertainment will
not be able to attend Thursday night.

A band concert, beginning at 6 p.m.
eastern standard time, will be
played each night by the College band.

The band enjoys the reputation
of being one of the best in American
institutions.

Each concert will feature a
special guest soloist.

Students in the athletic and
military departments will vary
each night. The schedule will be
different each night, and different vocal
stars will be provided for each program.

Doris Ponder
Describes Flies

Doris Ponder, an inseminator con-
gressing the area of field crops in the豫
the tropical plant known as doris, is
especially interested in trying some
tests of the plants in America. She is
aiding the U.S. Department of
Agriculture, cataloging the
inseminators of the plant in the
district.

The project is being
conducted by the National Bureau of
Agricultural Research.

Third of Mason County
Farmers Grow Alfalfa

Mason County farmers are
reporting that of the 2,000 farmers in the
area, they are participating in a program
with a total of 4,700 acres.

Alfalfa is being grown on 1,100
acres of the 2,000 acres of wheat
produced by farmers in the area.

Using Oats for
Starting Calves

Oats do not make a satisfactory
grain for starting high quality
calves, but if one has plenty of
cereal grain ready for use, oat feed
is not especially dangerous in feeding a
young calf, since oats can be used
without any concern for protein, fats
or carbohydrates since they contain
some of all these elements.

Poultry
SALES OF UNLADED EGGS DECREASE

Warehouses in New York northwest and Chicago are
continuing to make cuts in the prices of eggs due to the
changes in the market.

The新局面 in the market has been
an adverse one, and the
changes have been
made in a series of cuts.

Poultry farmers are
continuing to refer to
the futures market
as "quaking in their boots" and
they also bring out that the
fact that the market through
the New York and Chicago
market is now being
affected by the changes. The
price of eggs is being held by with
only 100.

In spite of this, however, there are
some poultry farmers who are not
willing to pay the new low prices.

The reason is that they believe
that they will not be able to
sell their eggs.

They also point out that
unrestricted entry of eggs into the
market will make it difficult for
eggs by speculators owning the stock.

Just Over the Boundary Line

By ROSE MEREDITH

JIM WARRINGTON stood on the hill where his dream had excelled. The Sussex property from the field Magnavox and it was his own. The sun was just beginning to set over the property, and the great motor highway was clear of vehicles. The property was surrounded by a white fence, and the only thing visible was a red-tailed hawk soaring over the trees.

"I've seen this place many times," he said. "But it's always special." He looked out over the property, taking in the view of the mountains in the distance.

The Sussex property had been in Jim's family for generations. It was a place of peace and tranquility, and he was glad to finally have it for himself.

"I'm going to make this place my home," he thought. "I'll make it a place of beauty and serenity." He turned to his family, who were gathered around him. "I promise you, I'll do my best to make it the best it can be." They nodded in agreement, happy to have their family member finally get what he deserved.

The Sussex property was now Jim's new home, and he was already planning the improvements he wanted to make. He was grateful for all the hard work and sacrifice his family had put into making this dream a reality.

End of story.
MAD LAUGHTER
A THRILLING MYSTERY STORY
by MILES BURTON

WEEK OF JUNE 24

THE present crisis in Europe has received a startling increase in the number of newspapers published. A new one, the "National Mirror," appeared in the January issue of "Public Health Bulletin," and there is no real limit to the number of children's newspapers to which the members of the American Medical Association are subscribed. The present crisis in Europe is of a more serious nature than any that has been seen in the past, and it is the only one that has been able to make a real impact on the nation.

On May 15, the present crisis reached its peak, with the publication of the "National Mirror," and the number of newspapers published increased by a large margin. The "National Mirror" is a newspaper that is published weekly, and it is the only one that has been able to make a real impact on the nation.

Astronomy Holds Between Limited

More large is the universe we live in; can it be measured or is it infinite? The question is impossible to answer. Moderns have made a study of the universe and have found that it is finite and can be estimated as 1,000,000,000 light years in diameter. The parts of the system are running away from one another, and this is creating the universe at a very rapid rate. Combining this with the observations of the recession of the galaxies, astronomers believe that the universe is very old, and that it has been evolving ever since the beginning of time. This theory is accepted by most astronomers, and it is called the Big Bang theory. The theory states that the universe began in a very hot, dense state and has been expanding ever since. The Big Bang theory is supported by many lines of evidence, including the cosmic microwave background radiation, the expansion of the universe, and the abundance of light elements.

Dance Frocks in Vivid Colors

DANCE FROCKS ARE IN VOGUE.

Dance frocks are in such favor these days that many women are choosing them for their evening wear. The frocks come in a variety of colors and styles, and are often made of lightweight fabrics such as chiffon or silk. The frocks are designed to be worn for dances and other social events, and are often accessorized with jewelry and shoes.

Hot Breads for Breakfasts on Chilly Mornings

By Julia Winsten

On cold days, a hot bread is the perfect comfort food. It can be made from a variety of ingredients, including flour, eggs, milk, and butter. The bread is often cut into small pieces and served with butter or jam.

Quick Tuna, a Horse Product

By Tuna Lark

Tuna is a rich source of protein and fat, but it is also a good source of vitamins and minerals. Tuna is often used in salads, sandwiches, and on its own.

You and Your Child

By JANE HBERT HOWARD

In the early days of this century, children were often neglected by their parents. They were often left to fend for themselves, and were not provided with the love and attention that they needed. This changed with the advent of the Progressive Era, and children began to be treated with more respect and kindness.

Speaking of Style

By DORE L. WINE

The uniquely personal collection displayed in the window of the newest fashion house is a true reflection of the current trends in women’s clothing. The collection features a variety of styles, including short dresses, long gowns, and coats.

Maternal Instinct in Script

I am not a fan of following your articles and finding them quite interesting, as much as I am of reading them for the sense of historical perspective. What does my handwriting tell you about me?

Your Handwriting and What It Tells

By JANET WINTON

Handwriting is a unique form of self-expression. It can convey a lot about a person’s personality and emotions.

Dance Frocks in Vivid Colors

The simple frock dress is in fashion today, and it is often made of lightweight materials such as chiffon or silk. The frocks are often accessorized with jewelry and shoes.

Moms and Manners

Moms have always been a crucial part of society. They have been the ones to raise their children, and to instill values in them. Moms have always been respected, and have been seen as the most important people in a family.

France and Genoese are bred beds were tried in chilly mornings, and the farmers objected to the use of hot breads, as it was feared that they would not be able to sell as many. However, it was discovered that this was not the case, and that the breads were actually in demand.

Way back in his childhood, J. B. Smith, 84, of 165 Main Street, was a big fan of his mother’s cooking. He would often go to the store to buy bread, and his mother would always make sure to have some on hand.

He was a good son, and he always took care of his mother. He was a quiet boy, and he never made much noise. He would often sit in the kitchen, and listen to the stories that his mother would tell.

You may wish to double the recipe of this bread, as you will only need to prepare a small loaf for 4 or 5 people. When the bread is baked, it is a perfect size for a small dinner party. The bread is moist and tender, and it is a perfect accompaniment to soup or a salad.

If you wish to do as the starch and the flour I have used in making bread, the bread I have used is the same as the one you would find in a bakery. The flour is the same, and the bread is the same.

Cloud bread is a little different from regular bread, as it is not fermented. It is made from flour, eggs, and milk, and is baked in the oven until it is golden brown.

This changed with the advent of the Progressive Era, and children began to be treated with more respect and kindness.

Children, under your care would be well taken care of and kept under the best of care.

The book also contains a list of the most popular words of the time, along with examples of how they were used.

Chambers of History

By M. L. ELLIS

In the early years of this century, children were often neglected by their parents. They were often left to fend for themselves, and were not provided with the love and attention that they needed. This changed with the advent of the Progressive Era, and children began to be treated with more respect and kindness.

Children, under your care would be well taken care of and kept under the best of care.

The book also contains a list of the most popular words of the time, along with examples of how they were used.
