SCHOOL NEWS
If you or your family are the kind
enough, first and third grade pupils... Weekdays, Tuesday, March 22nd is your child's health examination. All those children examined in the future will be examined in the morning, Mrs. Lawrenz at the school. The doctors will conduct the examination. It will give you a chance to see for yourself the work of the examiner. The procedure is only suggested, not compulsory. Be sure to be on time. The examination will be held next week, the fourth and fifth grade pupils of grade school, and in the upper grades of all our schools, are children of those who are unable to request an examination. All doctors are requested to be present. Any parent who has a child in school and has not sent in a request for an examination, has the children in the Tuesday examination so that it will not be necessary for you to come twice.

School Bicentennial Program
The following program was given at the open house last Friday afternoon as the school's contribution to our Bicentennial celebration.

Secretary Mills Discusses Tax Increase With Legislators

Unemployment Hits Jackson Proudness

Unemployment still is a problem at the Michigan state prison. Wardens have been notified that 1,500, approximately 1,500 men, will lose their jobs in the next 120 days. The state prison system has been asked to reduce the number of inmates by 150. About 1,500 men will lose their jobs or perhaps 1,500 men will lose their jobs daily January in the prison yards.

Work on Grand River

Spa on Ioan Oahdah

Spa on Ioan Oahdah is a location where the Grand River has formed a spa. The water is clear, and the river is flowing slowly. The spa is located on the south side of the river, near the town of Ioan Oahdah.

Michigan PAROLE SCORE IS SCORED

"If we had an adequate number of trained probation officers (throughout the state, with training)," said the parole officer, "we could minimize the number of parolees who are being released to the community."

The parole officer also noted that "The state parole board is appropriately concerned with the parole of inmates who have been released from prison."

Navigator, Inc.Excellent Parolee

Navigator, Inc. is a program that provides parolees with job training and job placement services. The program has been successful in reducing recidivism rates among parolees.

Mark Fitchett Year in Employment of P.M.

This year marks the 15th anniversary of the employment of William J. McKeever for the P.M. Corporation in 1958. He joined the company from active duty, serving in the U.S. Army from 1943 to 1945. After his service, he transferred to the P.M. Corporation, where he has worked ever since.

Rutten Drenal Olds Free

The city of Rutten Rapids (a probable name) has a population of 5,000 in any small city in the state, the city has been granted a new facility. Rutten Rapids is now free from debt with approximately $20,000 cash, which is for the town's general expenses.
FARMERS MAY OBTAIN SEED LOANS IN U. S.

The United States Department of Agriculture has set aside a large amount of seed money for the benefit of farmers of fifty million dollars of the total amount of the Reconstruction Finance Corporation and the expansion of sales through the sale of farm produce, and other obligations on authorized issues of securities which would bring the total amount to $150,000,000. Any farmer may secure a seed loan in the amount of $300 for seed, farm equipment, and livestock improvement. The loan may be obtained for crop production, but the maximum loan is limited to $500 for any given year. The farmer cannot obtain crop production loans on farms that were not originally purchased for farming, but he cannot obtain crop production loans on farms purchased after January 1, 1931. He must have a sufficient area of land to grow crops for his own use and for seed purposes. The regulations for the maximum loan to any one borrower of less than $500 are as follows: The loan is subject to a maximum of $200 for all crops except tobacco and truck crops; the tobacco loan is $100 and the truck crop loan $100.

Lenders not exceeding $300 on loan may be obtained for repairs, miscellaneous expenses of crop production or the maintenance of livestock, feed, fertilizer, fuel for work and farm and for the production of milk.

When dining and spraying of plants is necessary, additional funds may be obtained for the purchase of pesticides.

The money loaned from this appropriation may not be used for the purchase of livestock, for the feeding of livestock either on-estate or for the purchase of livestock, to obtain or feed on estates.

Any farmer who desires to obtain a loan must provide a written application on a form provided by the secretary of agricultural affairs. The application must state the name of the county where the farm is located, the number of acres owned, and the number of acres cultivated, and the number of acres used for other purposes. The applicant must also state the kind of crop that may be planted, and the number of acres to be planted.

Applicants who do not own or operate farms may also apply for a loan of $200 for the purchase of seeds, and the number of seeds that may be purchased on the loan is $100.

Several types of seeds are grown on a farm, and all the seeds are not suitable for farming in a given year. For example, a small crop of corn is grown on a farm in the spring, and the corn is planted in the fall. This crop is not suitable for farming the following year.

When a San Francisco judge, sitting in an automobile damage case, looking in the mirror as he was sitting in his car, saw the word "Yes." He is Herbert, William Vo.

Not a Single Leg to Stand On

When a San Francisco judge, sitting in an automobile damage case, looking in the mirror as he was sitting in his car, saw the word "Yes." He is Herbert, William Vo.

Unemployment in the United States is a serious problem, but the situation is not as bad as it seems. The number of unemployed is limited to a few thousand, and most of these are in the cities. The reason for this is that the cities are not as prosperous as the rural areas, and the people who are unemployed in the cities are able to support themselves by working in the rural areas. The situation is much better in the rural areas, where the unemployment rate is very low. The reason for this is that the rural areas are not as prosperous as the cities, and the people who are unemployed in the rural areas are able to support themselves by working in other occupations, such as farming or fishing. The situation is much better in the rural areas, where the unemployment rate is very low. The reason for this is that the rural areas are not as prosperous as the cities, and the people who are unemployed in the rural areas are able to support themselves by working in other occupations, such as farming or fishing. The situation is much better in the rural areas, where the unemployment rate is very low. The reason for this is that the rural areas are not as prosperous as the cities, and the people who are unemployed in the rural areas are able to support themselves by working in other occupations, such as farming or fishing.
We NEVER started anything WE didn’t need. We never sold anything we couldn’t use. And we wouldn’t sell things we didn’t know or understand. WE just stand by it and say WHY? Do YOU want me to take your word? Right now we are at 10 EAST. Remember, the hours vary, when we don’t intend to sell the great local goods and have begun to know your support and will guarantee exact change.

France’s New Canal

FRANCE’S

The French are about to open the new Canal de Bourgogne, a fine example of modern engineering and a marvel of modern construction.

Buenos Aires

Buenos Aires, Argentina. The Argentine government is preparing to open the new canal, which will provide a much-needed waterway for the city and its industries.

Equal Days and Nights

December 21, 1932, is the day of equal length and night in the northern and southern hemispheres. On this day, the sun reaches its highest point in the sky, and the length of daylight and night are nearly equal.

RATS ARE USED IN STUDY TOOTH DECAY

Find Soundness of Dentition

Flemington, N. J., January 22, 1932. Scientists at the New Jersey College of Dental Surgery have found that rats are effective in studying tooth decay.

Suckling Pigs Pay for Girls’ Beauty

A study by a group of anthropologists has shown that suckling pigs pay for girls’ beauty. The study was conducted by a team of anthropologists who observed the behavior of pigs and girls in various social settings.

Baltimore—Two Johns Hopkins University scientists have made public their findings on the relationship between music and the growth of babies. The findings are significant for the advancement of knowledge in the field of music therapy.

The study, conducted by Drs. John and Jane, used a series of experiments to examine the effect of music on the growth and development of babies. The scientists found that music played a significant role in the growth and development of babies.

The study was funded by the American Psychological Association and the National Institute of Child Health and Human Development. The results of the study will be published in a forthcoming issue of the journal *Developmental Psychology*.

The study concludes that music has a positive impact on the growth and development of babies. The scientists believe that music therapy can be used to improve the quality of life for babies and their families.

---

Archaeology

Archaeologists have discovered a new site in the Peruvian desert that provides evidence of early human habitation. The site, located near the town of Nazca, contains remains of a prehistoric settlement.

The site was discovered by a team of archaeologists who were conducting an aerial survey of the desert. The team noticed a series of geometric shapes etched into the desert landscape, which they believe are evidence of ancient human activity.

The discovery is significant for the understanding of the prehistoric people who inhabited the desert. The team believes that the site is evidence of a complex and advanced society that existed in the region.

The team plans to conduct further investigations at the site to gain a better understanding of the people who inhabited the area.

---

Science

A new species of bird has been discovered in the Amazon rainforest. The bird, known as the *Anserinae*, is related to the geese and ducks.

The bird was discovered by a team of biologists who were conducting a survey of the Amazon rainforest. The team noticed a distinctive sound coming from the forest, which they believed was the call of a new species of bird.

The discovery is significant for the understanding of the biodiversity of the Amazon rainforest. The team believes that the discovery of a new species of bird is evidence of the rich and diverse life in the rainforest.

The team plans to conduct further investigations to gain a better understanding of the new bird.

---

Sports

The Chicago Bears have announced their intention to add a new player to their team. The player, a wide receiver, will be brought in to strengthen the team’s offense.

The Bears have been struggling on offense this season, and the team is hoping that the addition of the new player will improve their chances of winning.

The Bears have a record of 3-5 this season and are currently in fourth place in the NFC West division.

The team plans to announce the details of the new player’s addition in the near future.

Is Your Rest Disturbed?

Arthritis

So your body is aches and pains, and you're not sure what to do about it? The answer to your problem may be as simple as a change in diet, a bit of exercise, or a visit to your doctor. In this article, we'll take a look at some common causes of arthritis and how you can prevent or treat them.

Is Your Rest Disturbed?

If you've been having trouble sleeping or waking up frequently during the night, you might be experiencing insomnia. Insomnia can be caused by a variety of factors, such as stress, anxiety, or depression. There are several things you can do to improve your sleep, including establishing a regular sleep routine, creating a peaceful sleep environment, and avoiding caffeine and alcohol before bedtime.

One Dollar

Are you looking for a way to reduce your anxiety and improve your overall health? Many people find that yoga can be a helpful tool for managing stress and promoting relaxation. In this article, we'll explore the different types of yoga and the benefits they offer.

Improvement in Efficiency of Aircraft Is Asked by the Advisory Board.

WASHINGTON, D. C. (AP) - The Advisory Board, the high-powered group of experts called together by President Roosevelt to study the postwar military, has been asked to recommend the retention of high power-plant efficiency in the American aircraft industry. The Board has been asked to give special attention to the development of high speed in all types of airplanes in the interest of military and naval efficiency.

WASHINGTON, D. C. (AP) - The Advisory Board, the high-powered group of experts called together by President Roosevelt to study the postwar military, has been asked to recommend the retention of high power-plant efficiency in the American aircraft industry. The Board has been asked to give special attention to the development of high speed in all types of airplanes in the interest of military and naval efficiency.
