A Class for Harnessing Mighty Columbia Half Completed

The aerial view shows the completed half of the 40-foot dam across the Columbia river at Wenatchee, Wash., which produces 126,000 horse-power of electricity. When full the huge dam will produce 232,000 horse-power.

Wheat Dominates Agricultural Situation

"Wheat, now known to dominate the current agricultural situation," says H. S. Department of Agriculture, "is in there anything, such as corn, that is growing. Although the supply situation has changed greatly, and prices have dropped considerable, the country is still planted with wheat, and it is expected that the crops will be harvested in the next few weeks."

Why not begin to dominate the current agricultural situation," says the Bureau of Agricultural Economics, "is in there anything, such as corn, that is growing. Although the supply situation has changed greatly, and prices have dropped considerable, the country is still planted with wheat, and it is expected that the crops will be harvested in the next few weeks."

CAUSE OF BLOOD CLOTS

"What causes blood clots in eggs, and how can they be prevented?" asks a reader. The answer is that blood clots can be caused by a variety of factors, including but not limited to, high blood pressure, diabetes, and certain medications. To prevent blood clots, it is important to maintain a healthy lifestyle and to consult with a healthcare provider.

POULTRY

A Rarely Seen Mother and Son

This picture from Munich, Germany, shows the man's latest sculptural creation, a large elephant, with its trunk raised high. The sculpture is one of the few ever to have been born in captivity, and at 10 months old it stands over three inches tall.

A Class in Gold Digging to Aid Colorado Unemployed

Altafna Cures Head Ache

One way for Michigan farmers to help the miner is to use the most modern methods of early spring and late fall, and to cultivate the land at school districts in Michigan State College. By using this method, farmers can dig deeper, cultivate better, and avoid the common practice of deep digging, which is common in the area.

Gilbert's Next

Hoping to Sing

"If I Could Only Sing"

That potential pilot, the grass, has impressed the Biblical foremen, and will eventually ring some of the songs that make them want to destroy cranes in many Michigan communities. The songs of the golden crane are generally in sections, as seen in the three-panel picture, with the words "If I could only sing." The words are written in a single line, and the music is in the form of a harmonica.

To Leave

Latest Hollywood reports say that the name of Virginia Bruce, actress and cocoon called the title of the most beautiful woman in America, is that of John Gilbert, famous screen lover (actor), that she is to marry in August. In August the divorces de-

PORCELAIN CUPS
By James Branch Cabell

The week of June 13th began with a long, hot spell in Michigan. At the same time the barometer was dropping, and the weather was coming from the south.

Since yesterday was the first half of the week, we will be of the decided opinion that the weather is down to the bottom and that for the next few months we will have no more of the same.

However, there were some instances of storm, and a few drops of rain fell upon the ground.

With these storms, which are expected to continue, the weather will be cooler and more pleasant.

Locally there should be some

The average annual cost of business insurance in the United States for the year ended June 30, 1929, was $3,000,000. This was an increase of $500,000 over the previous year.

Some of the most common forms of business insurance are fire, theft, and liability.

In the case of fire insurance, the policyholder is protected against loss due to fire, lightning, and other perils.

For theft insurance, the policyholder is protected against loss due to theft and burglary.

Liability insurance protects the policyholder against liability for injuries to persons or damage to property caused by the policyholder's negligence.

Charmes of History

MANTENUE

The Marquesa de Mantenue was a woman of great beauty and grace. She was the most beloved of her courtiers and was known for her wisdom and charm.

One day, as she was walking in the gardens of her palace, she came across a young man who was lost.

The Marquesa, who was known for her kindness and compassion, took the young man by the hand and led him through the gardens until they reached a little pavilion.

Inside, she asked the young man if he needed any help.

He replied that he was lost and didn't know where he was.

The Marquesa, who was known for her beauty, took off her veil and revealed her face to the young man.

She said, "My dear," and continued, "I will help you find your way home."

She then directed the young man to take the path on the left and followed him out of the gardens.

As soon as he was out of sight, she turned and went back to the pavilion.

She sat down and began to cry, "Oh, I am such a fool! How could I have been so foolish?"

She continued, "I must have been in a daze. I should never have directed him to take the path on the left."

She finished her story and went back to her usual self, but everyone was moved by the story of her kindness and compassion.

Cereal and Milk Must Be Completely Absorbed

In looking where the housewife must watch for the most digestible and nutritious cereals, the dietitian says it is wise to plan the menu carefully so that the cereal consumed will be the most nutritious and least expensive variety. This means the cereals must be thoroughly absorbed, or else they may be lost in the digestive tract.

We have received the latest information from the Michigan State University on the correct way to eat cereals. The dietitian says, "We are concerned with the health and well-being of all ages, because it is to eat digestible cereals instead of using expensive cereals which may be lost in the digestive tract."

Speaking of Style

By IRENE VAIN

A rapidly changing fashion is one that is changing as you read these words. In this rapid change, what it is, how to wear it, and where to buy it is all a factor in the cost of the change. In the cotton industry, what is possible at one time is almost impossible to retain at another.

Chintz is the material of choice in this field, and it is changing as you read these words. The chintz of the past has been the chintz of today, but the chintz of today is changing as you read these words.
