NO TIME LIKE THE PRESENT TO BUY STORES . . . .

SNEAKER MILLS
April 15—Will close up in Grenville and patent their business, Wal-
ter Barlow.

If any of those in Maryland who have been closed for the past two years, can or will write us in private, we will be pleased to send them the new sneaker mill.

The child and little one are making rapid progress in the Mills, and are working well.

Miss Frank Hill, who intended to visit her mother this spring in the Mills, but was prevented from doing so on account of her mother's illness, is now in the Mills.

The library social and dance at the Pensacola, Thursday evening, attended by about $80.

Miss Ruby E. Allen, a former resident, who is visiting her friend in the Mills, was able to make her way there and join the social and dance.

The Daily Mirror was reduced in size to 160 pages of the present week's issue only, and in all, the paper will be reduced to a half-page size, the reduction being necessary due to the high cost of newsprint.

FLOOD VICTIMS AIDED

President McKinley’s Appeal is Heard.

He Asks Congress to Act at Once in the Matter of Relief, and in Very Brief Time $200,000 is Appropriated.

Message from the President.

President McKinley expressed to Congress his confidence in the people of the nation to do all that is necessary to succor those who are suffering in the flooded states. He called upon Congress to act at once and take the necessary steps to relieve the suffering people. Here is the text of the new appeal.

“Egg” roused fear in the hearts of all who entered the church. Sunday school classes were held as usual, but the sight of the man in the hat who had laid a huge egg on the floor gave a new twist to the proceedings. The classes were conducted in a hushed tone, with everyone looking at “Egg” with concern.

BATTLESHIP IOWA IS THE QUEEN OF AMERICAN WAR VESSELS.

The battleship Iowa is the queen of the American navy. On her grand tour she proved herself to be the successor of the battleship Texas, which was lost in the Philippines. The Iowa is 788 feet long, 96 feet wide, and 112 feet high. She has a displacement of 49,000 tons and is capable of a speed of 24 knots. She is armed with 14-inch guns and is equipped with the latest torpedoes.

A New Point in Immigration.

The new point in immigration is the establishment of a new settlement in the interior of the United States. The settlement is called the “New Point” and is located in the interior of the state of Ohio. It is a self-sufficient community and is designed to serve as a model for other settlements.

NEW YORK’S MONSTER PIER.

How the Land Has Been Made to Erode.

New York City has been transformed into a veritable jungle by the action of the ocean. The Hudson River is now only six miles wide, and the river bed has been eroded to a depth of 150 feet. The price paid for the pier is estimated at $20,000,000, and the damage to the city is estimated at $100,000,000. The pier was designed to be a floating harbor, but it has proved to be a failure.

A Gift of Great Value to You.

A woman recommended a gift of great value to her friend. She said that a piece of jewelry was the ideal gift, but that it should be something that would last a lifetime. She recommended a diamond necklace, which she said would symbolize eternal love.

WOMAN’S NERVES.

Mrs. Platt Talks About Nerves.

When a boy cut his arm, Mrs. Platt took him to the doctor. When the nerves became anesthetized, the boy said, “I don’t like it.” Mrs. Platt replied, “It’s just a temporary condition.”

The secret of life is not to be what you seem, but to be who you are. You must not let your actions be governed by others’ expectations. You must be true to yourself.

A further study of the properties of certain substances is being conducted by scientists. Researchers are experimenting with new compounds and are discovering new properties.

THE MIDDLEVILLE SUN.

AIR SHIP AS SEEN BY OUR CITIZENS LAST EVENING.
The following dispatches have been received of the last air-ship witnessed by number of persons:
M. S. Kellogg, Atalissa, Ida. White
airship was seen by several persons.
It was of a bright color and was flying
westward over the town. Its outline
was seen to be the ship. A party of
men were seen on the ship and spoke
with a man seated in the rear. To
describe the airship as a balloon, with a.
wheel in the rear, and for a distance of 200 feet in the
rear, a tall like a comic. Suspended
underneath was a man with a bow
and arrow, and some describe the
airship as having a man in the rear.
There was no other object seen in the
airship, and it was not seen to be a
balloon, but merely an object seen in
the rear.

WEDNESDAY, APRIL 16, 1925.
