Many People Are Misted by those manufacturers who make all sorts of misrepresentations and good promises before selling their goods, but forget them after the sale is made.

WE ARE GLAD TO SAY
That a great many people are not being "taken in" by such a confidence game. When you buy a wheel look well to the standing of the maker. What is his rating? Will he be in business when you want repairs? Here's our advice, good people—

Aunt Taffy's Stilling
May 13—Uncle Sam is moving the Aunt Taffy's Stilling again. A number of John Black had control of the entire business, and the working force was divided into sections, each section having a separate master. The work was divided upon the sections, and each section was responsible for its own part. The work was organized upon a piece-work basis, and each section was paid according to the amount of work done. The work was skilfully and efficiently done, and the finished product was a credit to the company.

NEWS FROM THE FRONT

NEW YORK—Washington, D.C., June 16—The Senate committee on coinage and currency, in a report to the Senate, recommended that the legal tender be amended to allow the minting of a silver dollar. The report states that the present system of minting only silver and gold dollars is unconstitutional and that the amendment would be in the best interest of the country. The Senate is expected to consider the report next week.
