SAFETY FOR CITIES.

REV. T. MALMSEE PRAECHE ON MUNICIPAL WELFARE.

He discribes the Cities and Towns of EUROPE and THE UNITED STATES with great detail, and emphasizes the need for municipal reform. His work is dedicated to the memory of his late friend, Dr. D. L. Goodwin, who was born in Philadelphia, Pennsylvania, in 1824, and died in the same city in 1860.

The study of the Safe City.

This part of the book is a study of the safe city, and it contains a great deal of practical advice. The author suggests that cities should be designed with safety in mind, and he provides specific suggestions for improving existing cities.

The conclusion.

In conclusion, the author emphasizes the importance of municipal reform and the need for cities to be designed with safety in mind. He believes that the future of cities depends on the actions of the city government.

JOSEPH'S CAMP IN EGYPT.

An Engineering Work Still Good.

How many of the engineering works for which Joseph was employed by the Egyptians are still in existence? Very few, we believe. The ancient records are silent upon the subject, and our knowledge is entirely dependent upon the accounts of ancient authors. But the story of Joseph's engineering work is a notable instance of the value of human ingenuity, for it shows how much can be accomplished by careful planning and execution.
