WALTER SCOTT.

Walter Scott was the most celebrated writer of his time, and his influence on literature has been lasting. His works, with their moral and religious teachings, were widely read and admired. Scott was not only a great writer, but also a great man, and his life is one of inspiration and example.

A few years ago, a new edition of his works was published, and it is now easier than ever to appreciate his genius. The works of Scott are a treasure trove of wisdom and beauty, and they continue to be read and enjoyed by people of all ages.

THE WORLD'S FIREPLACE.

The world's fireplace is a place where people gather to share stories and experiences. It is a place of warmth and comfort, where friends can come together and enjoy each other's company. The fireplace is a symbol of the human need for connection and community, and it is a reminder of the importance of social interaction.

SPAIN AND THE UNCLE SAM.

We have a material interest in the interests of Spain. We are concerned with the state of the country, and we are interested in the welfare of its people. We believe that Spain is a great country, and we hope that it will continue to prosper.

NEW GERMAN CONFORMITY.

A new German country with a capital city of Berlin. Everything revolved around the Pariser Platz. The streets were wide and clean, with tall buildings and modern architecture. The people were friendly and welcoming, and the atmosphere was vibrant and energetic.

The new German country was a remarkable achievement, and it was a testament to the power of unity and progress. It was a shining example of what can be accomplished when people work together towards a common goal.

ALWAYS IN THE LIGHT.
TWENTY-
SEVENTH
ANNUAL ANNOUNCEMENT.

We wish to say to our old friends and pat-
trons that we are in the trade to stay with
the best assorted stock we have ever car-
ergal. We have made a large addition to
our Watches, Clocks, Jewelry and Sil-
verware, and will meet the prices of any
store in Michigan for up to date good
products. We positively carry no low grade
goods stock. We have had 20 years at the
bench repairing Watches, Clocks and Jewelry,
and we can guarantee a good work as can be done in any shop
in the state. Our business is...

CROCKERY AND
GLASSWARE

Has increased almost double this last year
and if you give me your confidence trade I
will show you prices you never dreamed of.
The larger bill I buy the cheaper I can sell.
We have just put in a new Decorated pattern and
would like to have every lady's opinion of it.
You are invited.

Wallpaper and
Indow Shades

With all the new and latest styles, and
the advance in Wallpaper we will
make prices far below that of other
stores. We invite everybody to call whether you
buy or not. We will try and use you well.

TOURS WITH RESPECT,
M. F. DOWLING.

MAY 19, 1896.

EFORE THE first post card was printed, there was a man named William H. Russell, of Norwich, Connecticut, who worked for the American Steam Navigation Company. He was the first to use what we now call a "Post Card." The Post Card was a way for people to send messages without having to use a letter or a telegram. It was a simple way to communicate, and it was very popular.

The first Post Card was printed in 1873, and it was a small card with space for a message and a stamp. The messages were often pre-printed, and they were usually about the sender's hometown or a tourist attraction.

Over the years, the Post Card became more popular, and it was used for all sorts of things, from sending messages to marketing products. Today, the Post Card is still used, but it is not as popular as it once was. However, it is still a popular way to send messages, and it is a great way to see the world from a different perspective.

In conclusion, the Post Card is a wonderful invention that has been around for over 150 years. It is a reminder of how far we have come in communication, and it is a reminder of how much we have to be grateful for. So, the next time you see a Post Card, take a moment to appreciate it and the role it has played in the history of communication.

J. E. Ackerson
The Ins and Outs of It.

If you get too bent over a cost, best work must have its price. And when you don't feel the floor, you can't get ground floor and poor floor.

You can't get the best out of anything unless the book is in it; and the best book to put in it is a book for a certain purpose. And if you want to know what goes into a book, ask a book at the library. That's what the book is for. But these modern bookstores are all the same. The book is there, but you have to look for it.

Stop! There's one exception: one area that has no secret in it. It's the area that's never been written about. And if you want to know what goes into a book, ask a book at the library. That's what the book is for. But these modern bookstores are all the same. The book is there, but you have to look for it.

The book is there, but you have to look for it. There's one exception: one area that has no secret in it. It's the area that's never been written about. And if you want to know what goes into a book, ask a book at the library. That's what the book is for. But these modern bookstores are all the same. The book is there, but you have to look for it.
