THE PREACHER DISCUSSES THE STAR OF WOORTH.

AnotherGalacticTalentTakes to the
World of Life

In the remote reaches of space, a GalacticPreacher delivered a sermon on the significance of the Star of Woorth.

The Preacher, known for his eloquent delivery, began by invoking the presence of the Star of Woorth, a celestial body known for its rare properties.

He described the Star of Woorth as a beacon of hope, guiding those lost in the vast expanse of the universe. The Star, he said, represented the culmination of all the forces that had shaped our galaxy.

He continued by saying that the Star of Woorth was not just a physical entity, but a symbol of unity and cooperation, reminding us of our shared humanity and the common goals we aspire to achieve.

The Preacher concluded his sermon by encouraging the audience to look to the Star of Woorth as a reminder of our collective potential and the importance of working together for a better future.
HOW THE CASH WENT
THE FINANCIAL LEGISLATION OF CONGRESS REVIEWED

Mr. Cameron Says the Appropriations for the Second Session of the 60th Congress Are Amusing
Mr. Speaker: "They Were Never Known Before"

As viewed by both Unionists and Republicans the financial legislation of the Congress will have been the most
important of the two sessions that have recently come to an end. The lack of any marked tendency towards deflation
characterized the opposition of the two parties, and the financial measures of the administration have been
largely supported by the two houses of Congress. The measures are
not inexpensive, but they are not extravagant, and the public
will bear the cost with less than the usual amount of mortification.

The appropriations charged to the Treasury Department have
been estimated to amount to $2,000,000,000, of which amount
$1,000,000,000 has been set aside for the war and public
work. The balance of the appropriation is for the
administration of the government, and includes the
administration of the National banking system.
