A Lumberman’s Experience.

A great deal of damage has been done by a hurricane that swept through this section on Wednesday night.

The storm was accompanied by a violent rain, and the wind was so strong that trees were uprooted and houses were blown down. The damage in the town alone is estimated at $10,000.

SCRAPPINGS.

The First Trench of the German-Canadian Railway

The government of Canada has decided to construct a railway from the prairies to the Pacific, with an intention to connect the two countries by a direct line. The project has been under discussion for several years, but the recent increase in demand for transportation has made it necessary to proceed with the construction. The government has allocated funds to purchase land and materials, and is currently negotiating with various companies to ensure the completion of the project within the specified time frame.

STAND UP, MR. BRYAN!

The Honourable Mr. V. V. V., Minister of Railways, has spoken out in support of the Direct Rail Project, stating that it is necessary to connect the two countries by a direct line. The project will not only improve transportation but also provide a significant boost to the economy. Mr. V. V. V. has urged the government to proceed with the construction without any delay.

FROM THE PULPIT.

The Rev. Dr. W. W. W., Minister of the Second Presbyterian Church, has delivered a sermon on the importance of unity in a diverse society. He emphasized the need for everyone to work together for the common good, regardless of their differences. The sermon was well-received by the congregation, who expressed their appreciation for the minister's words of wisdom.

UNCle Sam to Mr. Srr: Prrr; :rrely, 4:ppr.

"I know it's a long way, but I accept your proposal of that sort..."

Pittsburg Dispatch.

SHREW'D CANADIANS.

The minister is a great friend of the Canadian people, and we are grateful to him for his kind words. However, we must remember that Canada is a country of free speech, and we cannot allow our ministers to impose their will on us. We must continue to support our own government and work for the betterment of our country.

The minister has also spoken about the importance of unity in a diverse society, and we agree that it is necessary to work together for the common good. However, we must also remember that our country is made up of different cultures and languages, and we must respect each other's differences.

The minister has also mentioned the importance of unity in the face of foreign threats. We are grateful for his words of encouragement, and we will continue to support our country in the face of any challenges.

Taking all things into consideration, we believe that the minister's words are a positive step towards building a more united Canada. We must continue to support our government and work for the betterment of our country.

Secretary-Treasurer: J. H. Smith

The board also discussed the possibility of building a new school in the area.

A RUSH TO GUAM

A California's Letter from Guam

To the Editor:

Dear Sir:

I am writing from Guam, where I am working as a journalist. I have been here for two months and it has been an incredible experience. The landscape is stunning, with lush greenery and towering mountains. The people are friendly and welcoming.

The military base here is a significant presence, with thousands of soldiers stationed here. The base has its own economy, with shops and restaurants catering to the military community.

I have been working on a series of articles about the local economy and culture. I will be here for another month before returning to California.

Sincerely,

[Signature]
