OUR WEEKLY PLAN.

The republic party is necessarily correct and unmeritorious in every respect, and as such we cannot fail to see the necessity of its continued existence for the reason mentioned above.

We are not unqualifiedly opposed to the republican party, but we are opposed to it as an institution, because we believe that it is not for the good of the country. We are opposed to it because it is not for the good of the people.

We wish to see a republic party that will be for the good of the country, and we believe that such a party can be created.

Samuel C. Blythe has for many years been a member of the house of representatives, and it is acknowledged to be well qualified for the office of chief of Barry county, and it is worthy of the people of said county.

If Inspector is not the one that will be a good thing for the county of Barry, what is the use of the people of said county.

When "Old Mother Hubbard went to the cupboard," etc., etc., and "I heard the old man say, etc."

If they inst had a meeting, they would have been the ones to make a note of the young men of the city of Barry.

If we want protection, we must have protection. We want the people of said county to have protection. We want the people of said county to have protection.

MCKINLEY TO VOTERS.

HAS SPOKEN TO 230,000 PEOPLE AT HIS HOME.

The Vote Has Not Waited To Be Sought, For McKinley Has Visited The Home States at His Own Expenditure.

Major McKinley has, it is estimated, spoken to 230,000 voters at his own expense in his campaign. In this, as in other respects, he is in advance of any other candidate, and, in fact, it must be confessed that no greater measure of public confidence is shown in any American campaign. The public may reasonably expect, therefore, that the McKinley campaign will be fair, open, and honest.

As many as three thousand speechmakers have been sent out to speak in various counties in the last few days, and each of the speeches has been more or less of the same nature, and the same words have been used at each place.

Mr. McKinley has, of course, been unable to reply to the dozen or more books of abuse that have been issued against him. His friends, however, have been able to reply. He has not merely made speeches, according to such words as they have written, but he has written a book in which he has tried to inform the public of the facts of the American experience, and to point out the deficiencies of the other candidate.
