

still in parent talking about environmental conditions  
saying that now there is a lot automation  
but back then there were a lot of people doing the  
work with light words and then applying Sealers  
By hand, it was <sup>hard</sup> work, people had to wear the  
Heavy Boots and overalls the smell was terrible  
the heat was terrible over the summer => I didn't mind  
working ~~and~~ on the ~~works~~ work deck because it was  
cooler => what did you think about Building Autos?  
when I first hired in I went to vernal tops  
it was a good job, ~~the job I was on~~ what is  
a 26? its a work standard grievance that any  
man ~~to~~ could ask for, I always knew I was a  
part of the group when the old guys would  
ask you to go out with them for a beer they  
the old guys would take care of you watch out  
for you. the day I hired in I was with steel  
outmen people.

PPH DAYS were Better than Christmas PPH => Person

paid Holidays get one once a month

no to go. jobs NOT till after I test the line and went

to the international union then they went out of the way

to help only ran for union position after I went to A system

Because supervision was so mean

Protest movement was working the membership out of the

factory out of the factory on strike

out on strike => Mas is tag

short the line down
