work experience - Farmer, Carnie, G.M. - Midwest Abrasive

Married - 2 children (boy & girl) 12th grade edu.

Father worked Fisher - worked as Farmer - worked at Carnie (Taco stand) Midwest Abrasive - Fisher body - applied - Dad told him when they were

hiring - applied - Randy (brother) Saturn -

another brother works at D.M. another brother went time ~~from~~ for time no longer D.M. Brake in

bolt down seat belts, then garnish <sup>mold-</sup> job. Was trained - in a hurry so had to pick up jobs quick. Jokes pulled alot - garnish job - stuff get tied to stock so would fly all over the place.

Would place playboy centerfold up high & who ever looked at it got doused with water.

Dot locked in trunk had to pry trunk open to get out - Keys were hidden - almost got into trouble -

People have changed - attitudes have changed - use to have fun - now have to be very careful not to offend anyone.

People aren't as close today as they use to be.

Dept. dinner - almost everyone participated now, don't seem to have as many dinners as we use to. The new plant seems to be going <sup>back</sup> to doing things together having

fun and working together.

The name changes didn't seem to matter much, but they did seem to hire younger and college degree supervisors instead of in plant people and things seemed to change.

Radios personally has no preference but as committee person created problems (could care if have one in the dam plant) Became committee because he had a big mouth and argued alot - Ran for Shop Comm. but enjoys Comm. because he can work with the people.

Job has to deal with absenteeism, D.L.O's, (discipline) job overloading - more. Vending - in shop - against rules - but did it unless complaints -

Skilled trades (government job) had several jobs done for him - would help you out instead of having a work order -

LDT- people are working together alot better - have them all apart of each group skilled trades apart of groups now.

Committee - deal with people on floor Shop Committee (zone) hier up - situation already in-flamed had to decide who was a liar.

Dood supervisor - knew his area and worked with his people -

Best memory - Play ball together + fish + picnic together - each department

Alot of Rumors in the plant - Turkey at the supervisors office -

Series going down early - Somebody got fired -

Somebody just doesn't listen or someone who thinks it's funny (Smart asses) to start something

Sadest - when they closed the doors for the last time.

But glad we have a new plant & have a great start for a new future - someone in training said they woke up out of a 25yr coma because things have really changed so much.

Quality - let's build it together - the changes we are making to get our quality keep going good.

Use to stash bottles under parts - for everyone around the work area - rubber band on legs so ~~we~~ could bring bottles in -

Drinking problems won't exist at LDT their won't be a Harry's - booze at break & lunch. Drugs - Pot - passed up and down the line - ate bread with pot, and got sick -

Good times, good memories - enjoys work - has weld shop, races cars - remembers

the good times.

Good job - Earnish mold - Committee man  
Least favorite - zone

Straight forward - a asshole is a  
asshole
