

Barb Rossi

10:30 a.m.

NOV 7, 2005.

Married. BA MSU - School Teacher  
MA - Aquinas - B. Management

The week before I hired in. I was working at MESC - 1981 - I was employed through recommendation of people at MESC. Bob McMonagle called. And I was hired in.

I wore a dress. I walk out on floor in red & white and they called me "candy cane" - I ~~was~~ was accepted.

Got BA in '76

Got MA at 86 - Aquinas - All night classes.

It worked for me.  
I teach every single day. You empower others.  
So I use my skills every day.

I worked in hourly personnel for 9 mos.

Plant Manager Don Chenoweth asked me to interview for Plant Mgr. Secretary. I got the job.

Tuition Assistance - I'm very grateful.

Change of Plant Manager's Chenoweth a detailed manager. I learned a lot from him about the business.

Frank Schotters - very classy. He was brought here after the merge. And he came to help us together. He was wonderful to work for. He was always cool & calm.

Jim Zubkus - outgoing & out spoken

Amy Farmer - Dealing with personalities -  
↳ she is superb. She had compassion

She didn't have trouble asking you to step up to and handle your job, Schitters was an area manager + he had to come in and bring us together, "I'll listen to all sides and then I will make the decision."

Women / Men

I see them as the same. Men + Women managers.

I think when Amy came, then DC then Maitland more female mngs as the years passed. No one can figure out why we are successful. But it is because we care.

TALENT SHOW - 1985

It was a good experience. I loved to dance. I met lots of other managers that way. Volunteer for the dances. St. Mary Cathedral with handicapped / caregivers. I share my love of crafts with them.

Joint funds redone.

Amy gave me a monetary award. I didn't expect.

Praise costs nothing and means everything.

Customer Calling: Why do I have to do this? - 3 -

They didn't have anyone to do it & so  
sub offered me up. It was a good  
experience

Chenoweth had Christmas Parties at his house  
they were very special

Oldsmobile. Always - now.

Now I use Glen Buzee - and Drive Buck,

Stakes - I don't recall crossing a picket line.  
We know how to handle ourselves and  
the TV stations don't.

"Thrown to the wind" Shirley Samborn says  
We care about each other.

There isn't anybody here I couldn't call.

We aren't alone. ~~As~~ We rely on each other  
and care about each other.

It will always be Fisher Body

Best Advice - Listen First. Then see what  
you can do to help.

Best Memory - Betty Casar Act to help. She helped  
me understand it & got me through it.
