

Ransomes Optional

Extra Fittings

for

Rotary Mowers

To conform to the new Safety Regulations as laid down by the Ministry of Agriculture for agricultural and horticultural employees which come into force on 1st July, 1964 Ransomes are now offering new attachments for their rotary mowers.

Where the Ministry regulations apply, a safety guard is offered for the "Typhoon Major" as an optional extra which is so designed that it does not in any way restrict the versatility of this popular machine.

This guard retails at 16/-d., fitting extra.

In the case of the "Multimower" Rotacutter, guards and other safety fittings are available for existing machines on application from Ransomes Sales and Service Distributors or direct from Ransomes at Ipswich.

Future production of "Multimowers" fitted with Rotacutter heads will incorporate guards etc., to conform with Ministry regulations.

It is emphasised that these regulations apply only when agricultural and horticultural employees are using the machines.

MR. W. WRIGLEY

It is with the deepest regret that we have heard from the Directors of The Yorkshire Herald Newspaper Co. Limited, printers of this magazine, of the death on 17th June, 1964, of Mr. W. Wrigley, Director and General Printing Manager, following a short illness.

Mr. Wrigley joined the company 34 years ago as Manager of the Herald

Printing Works and subsequently was appointed to the Board of Directors.

He was held in the highest esteem by all who knew him, and his capacity for hard work made a significant contribution, over the years, to the expansion and success of the Company.

Mr. Wrigley leaves a widow, to whom we offer our deepest sympathy in her sad loss.
