## NEW BROOM

Messrs Stewart & Co. of Edinburgh have introduced a new brush for attachment to all makes of lawn mowers. It is called the “Finalawn” and comes complete with small rollers and brackets for attachment in front of the machine. This position gives it the maximum effect in lifting grass blades, clearing worm casts

and discouraging moss. It is made with long-lasting Nylon bristles which help to provide those professional-looking stripes on the finished surface, which are so dear to the hearts of golfers. The basic 12 in. size costs 47s. 6d. plus 2s. 6d. for each additional inch. Model 18J, for example, for the Autocertes works out at 62s. 6d.
