

FACTS ABOUT THE "SISIS" LITAMISA

Sweeps and collects a 6 ft. wide path. Self-emptying hopper of 72 cubic feet capacity. Sweeping brushes driven by tractor power take-off. Can be adjusted to suit surface conditions. Suitable for tractors with category I or II hydraulic linkage and power take-off drive. Unladen weight 7 cwt. Price £275 0s. 0d. ex works. Delivery from July 1967.

New from Atco

The redesigned range of Atco domestic power mowers incorporates a number of new features for ease of use, efficiency and appearance. There are four models. The 12, 14 and 17 in. are powered by a 75 c.c. 4-stroke petrol engine and the 20 in. has a 98 c.c. 4-stroke.

To persuade users to take greater care in mowing their lawns, the manufacturers, Charles H. Pugh Limited of Birmingham, have developed a simple to operate cut adjustment. A single lever movement changes the height of cut which is all too often neglected. A

height of cut scale is included for easy visual check.

All models have a two-clutch arrangement with controls conveniently mounted on the tubular steel mower handles. The two clutches give full drive or power to cutters only for operation in difficult corners.

The overall appearance of the range is pleasing, and each model has a storage space-saving fold-down handle.

Consideration has been given to petrol tank, chain case and clutch streamlining the appearance of the housing.

Other features include, 6 in. diameter steel rear roller, lubrication cut down to a minimum and large capacity grass box with a special bayonet fitting to facilitate easy removal and to prevent accidental dislodgement whilst the machine is in use.

12 in. Model £32 0 0d.

14 in. Model £37 0 0d.

17 in. Model £48 10 0d.

20 in. Model £57 10 0d.
