

Take - All Patch (*Gaeumannomyces Graminis*)
Rings of yellow or orange grass 0.1 to 1.0m
in diameter. The disease kills off the bents
(*Agrostis spp*), leaving the centre of the ring

populated with weeds and non-susceptible grasses.

The disease can occur on all types of turf and is often induced by the application of lime to neutralise an acid soil. It is also favoured by poor drainage.

TORO®

TORO

management equipment

If you want the best equipment that will ensure the finest finish whatever the climate or ground conditions it can only be TORO. The GREENSMaster 300 with new cutting unit is in a class of its own and is recognised throughout the world as the No 1. If you are looking to improve your greens, fairways and any other grass areas there's a model to suit the task. For example, the 'big boy' illustrated left is the REELMASTER 350D, tough, reliable 50hp, 4 cyl, diesel engine, 5 cutting units to effectively get through 10.5 acres an hour, day in day out! Why not have a word with Graham Dale who will be delighted for you or your operative to get behind the controls... the only trouble will be, getting you off!
