ICI, whose wholly owned subsidiary, SAI, supplies fertiliser and peat-based products to Scotland, much of England and Wales, is to integrate its marketing arrangements.

Production by SAI of fertilisers and peat-based products will continue at their various sites, but ICI's plant protection division will be responsible for sales and marketing of the current SAI and ICI product ranges. Garden and amenity products will be marketed by ICI's garden and professional products departments and those for commercial growers by ICI Midox, which currently handles ICI's range in that sector.

In Scotland, the latter products will continue to be sold by SAI as ICI's sole distributor.

SAI production staff will not be affected by the changes and almost all technical and sales staff will be integrated into the new structure, which will become effective from next January.

For further information, contact Richard Walker at ICI's plant protection division on Farnham (0252) 724525 or Alec Gordon, SAI Horticultural Products. Tel: Livingston (0506) 39281.

The Belfry recently called in Shropshire amenity experts Hodges & Moss to conduct a comprehensive weed control programme on the Brabazon and Derby courses.

A two-man team from Hodges & Moss accomplished the task, with the help of a special low ground pressure self-propelled sprayer, in two days.
