Roger Robinson has been involved in BIGGA since its inception and is well placed to measure the Association's progress since then.

It has always been essential in an organisation to be looking and planning ahead. The world of golf gets larger and larger, entailing the R&A to represent them at the first official much and is progressive in outlook.

progress since then.

in the events leading up to the formation of

achieved though, as Neil would agree, there

BIGGA since its inception and is well

have thoroughly enjoyed my involvement with BIGGA making many friends in the process. I speak for the R&A as well as personally in congratulating BIGGA on reaching its present position and wishing further success. I would say to the BIGGA membership, do please support your Chairman, Board of Management, Executive Director and Staff. They work long and hard for you.

May I also pay tribute to your President - Viscount Whitelaw - who has contributed so much to your cause since the inception.

Good luck and success to BIGGA.

Experience 'Reel' savings and make your course a 'Cut' above the rest

NEWCASTLE UPON TYNE, NE 16 6EB.

SATISFIED CUSTOMERS:

"Every forward thinking Golf Club should have a Juno in their workshop, a truly excellent machine." Mr. Mark Jones, Head Greenkeeper, Preston Golf Club.

"Hunter's relief grinding is far superior to anything I have ever seen, each blade cuts true, the savings are substantial and the cost is minimal." Mr. Roger Stow, Course Manager, Ramsdale Hall Golf & CC, Co Durham.

"Our sole plates/bottom blades are now lasting between 2-3 times longer than when we were spin grinding." Mr. Philip Baldock, Head Greenkeeper, The Royal Portrush Golf Club, County Antrim.

"It is the best piece of machinery this course has ever invested in, a five machine that I would recommend to anyone." Mr. John Badford, Head Greenkeeper of the Green Hotel Golf Course, The Kinross Estate.

"A quality machine that gives a superb finish to our cylinders, and saves money." Mr. Derek Green, Head Greenkeeper of Royal Liverpool Golf Club.

YES! All these clubs are breathing a big sigh of 'Relief' – let us tell you why!

With our unique and accurate 'Relief angle' grinding method which:

- Reduces contact between cylinder and bedknife (blades can last up to four times longer)
- Reduces drag which means less friction. 
- Reduces maintenance 
- Makes cutting units easier to 'set'
- Blades cut cleaner and stay sharp longer.

But the biggest 'relief' is cutting service costs, reducing downtime and improving standards.
