The annual outdoor Saltex Show, at Windsor, in September, is the ideal complement to our own indoor BTME Show, at Harrogate in January.

It will again be a case of all roads heading to Windsor on September 8-10 for the annual Saltex Show and this year the emphasis is very much on special working features. More than 12,400 square metres of the 48,500 square metres of space available at the show has been dedicated to working demonstration areas where machinery will be put through its paces before the gaze of potential purchasers.

"Machinery and equipment demonstrations are one of the main reasons why people keep coming back to Saltex," said Show Director Jon Gibson.

"People spend a lot of money on some of this machinery and it's not enough simply to find out about it from leaflets and brochures. No one would be foolish enough to buy a car without first giving it a test drive, so why should the attitude be different towards buying a tractor."

However, Gibson adds that the demonstration areas are not just about giving visitors a better look at equipment.

"Some companies use the exhibition to introduce a prototype and they need feedback from visitors so that they can make adjustments before launching the real thing," he explained.

Among the companies exhibiting for the first time including Stihl, Twose Turf and Spray and Zaun while MJ Abbott are among the companies returning to the show after a gap.

The show will also include a free seminar programme, running throughout the three days of the show.

Among the special guest speakers will be Eddie Seaward, Head Groundsman at the All England Lawn Tennis & Croquet Club, who also spoke at this year's BTME, while the English Sports Council will give information on the Lottery Sports Fund and how to attract funding.

BIGGA will again be well represented at the Show with a prominently placed stand G1 and a team of staff keen to meet existing and prospective BIGGA members.

How to get to Saltex
SALTEx is held at Windsor Racecourse. About 20 miles west of Central London, Windsor is easy to reach by rail, road and air. Heathrow is only a 15 minute drive away; Gatwick and Luton are within an hour's drive.

By road
From the M25. Leave the motorway at Junction 15, where you'll join the M4, heading west.

By rail
From London Paddington: Leave the train at Slough and join the local service to Windsor and Eton Central Station. Approximate journey time is 35 minutes.

From London Waterloo: Leave the train at Windsor and Eton Riverside Station. Approximate journey time is 45 minutes.
WARDLE Consulting Engineers Ltd
Independent Irrigation Consultants
& Project Managers

Golf Irrigation Specialists
- Feasibility studies, water supply and storage
- Irrigation system designs, technical specifications
- Bills of quantities, tender documents
- Supervision of installation & project management
- System appraisals & upgrade recommendations

Our independence ensures you get:
- Impartial, objective and practical advice
- A system designed to meet the specific needs of your course
- A well designed, reliable & efficient irrigation system

Amenity Technology - Stand D71

Amenity Technology will be launching a number of new ranges at this year’s Saltex show, which will herald a new generation of Amenity Products to take the company into the new millennium.

This year Amenity Technology have moved their stand further forward to allow easier access and as in previous year’s free gifts will be available to the first 500 visitors every day, so don’t be late!

Amenity Technology continue to pioneer developments in products to the amenity market. A visit in to the Amenity Technology show stand is the best way to find what is new in the amenity market.

Avoncrop - Stand H71-73

Throughout ‘98 Avoncrop Amenity Products have continued to develop their range of turf products to enable turf managers to meet ever increasing expectations and challenges of producing high quality playing surfaces. We have also developed a range of products and services which help turf managers to meet strict environmental regulations and will be exhibiting the latest products from our own AAP range; Scotts Turf & Amenity; Rhone-Poulenc; Supaturf; Farmura; Headland and Vitax. The organic and microbial products from Green Relieft and Terralift will also be featured.

Details of the new highly successful AA Chemical Container Disposal Service will be available along with a range of the latest spraying, line marking and golf sundries.

Barenbrug - Stand H12

Whether it’s dedicated professionals or enthusiastic amateurs, when sports players take to the turf they expect nothing less than perfection. Which is why turf managers from all disciplines should seek out the Barenbrug stand. Their technical advisors will be on hand to discuss Barenbrug’s extensive range of quality grass seed varieties and mixtures. Barenbrug’s BAR 2 is today’s most successful mixture on golf and bowling greens. The presence of BACRONG, slender creeping red fescue, provides compactness, disease resistance and drought tolerance; this mixture offers a perfect sward. If shade or dryness is an issue, it will be worth investigating the presence of BAR126 and BAR120. These products combine the best of both worlds. For those who want a perfect sward, the BAR215 mixture would be ideal.

BLEC - Stand V43 and demonstration area numbers A29-33 & A43-47.

With an increasing demand to mechanise and create higher productivity in the landscape, turf care and amenity industry, at BLEC we are able to offer an extensive range of equipment to meet that need. Experience dating back to the 1950s has given us first hand knowledge of the industry’s requirements, both from a technical and cost effective point of view. BLEC are constantly researching and developing new equipment for the future - confirming our total commitment to establish BLEC in the forefront for many years to come. To purchase a BLEC product is to invest in a machine designed and built to serve you reliably and efficiently.

Does your current supplier of Top Dressings, Root Zones and Sands:
- Own a quarry containing the highest quality Cheshire Silica Sand?
- Produce all products to BS EN ISO 9002?
- Carry out hourly tests of all of the grades of sand which they produce, to ensure the highest quality?
- Test every batch of Top dressing and Root Zone to assure you the consistency which you require?
- Have the productive capacity to produce 600 tons of Top Dressing per day, so that you will not be let down at the busiest times of the year?
- Use top quality hauliers to ensure that deliveries are in the right place, at the right time and without a mess?

If your current supplier cannot offer you all of these, we would be delighted to.

Complete Weed Control - Stand E33

Following its highly successful introduction at Saltex '97, Weed-It, the winner of the award for Best New Landscape Product at Saltex '97, will be shown in final production form.

Weed-It is an acronym for Weed Economical Eradication Detection - Intelligent Technology. This employs an optic sensor working on the principle of measuring luminescence picked up from the chlorophyll in a plant by using an infra-red light and optic sensor. When a weed is identified, a signal is sent to the computer that effectively tells the sprayer to turn on a jet and spot treat the weed.

The unit incorporates a sealed chemical handling system that reduces exposure to the chemical by both operator and public alike, and also minimises problems with chemical disposal and waste packaging.

The Sisis Ecospray designed specifically for spraying close mown areas, and developed by Complete Weed Control and Cranfield University, will also be on display.

Eagle Promotions - Stand D24

Eagle Promotions provide an extensive range of services to Golf Clubs from the initial Course Measure through to Scorecards, Yardage Books and other Point of Play accessories. This Exhibition enables us to show our exciting choice of signage for the Golf Industry. Our signage is developing around our ability to create any image etched into zinc plate. These mounted on stone, moulded rock and wood create truly spectacular sign systems. For more information please contact Philip McInley or call on 0860 239 354.

Eric Hunter Grinders - Stand Q12

The chance to witness relief angle grinding first hand, is offered by Eric Hunter Grinders Ltd. Eric and his team will be demonstrating the unique capabilities of the Jupiter and Juno machines which are the only grinders guaranteed to grind a cylinder perfectly parallel to 0.004" over 30". Both models offer a total service to golf clubs, with their ability to accurately relieve grind cylinders "in situ" or out with the benefit of coolant, and also precision grind bottom blades.

The increasingly popular "in-frame" Jupiter is top of the range. It is built, like the standard machine, of heavy duty cast iron, ensuring that both models give accurate results for at least 50 years. The Juno offers all the advantages of the Jupiter at a budget price. Large golf and local authority complexes with ample work shop space can take advantage of the Amazon or the Orion. These precision grinders for bottom blades only are designed to supplement cylinder grinding machinery.

Gannon Oils - Stand T4

Gannon Oils Limited have a range of high performance multipurpose lubricants and specialist greases all designed to meet the criteria of the agricultural and amenity industry and will be launching their 'Slip Plate' dry film lubricant at this year's event. As the sole agency for Superior Graphite Co, Gannon Oils invite Groundsmen/Turf and Amenity Managers to sample the benefits of this superb product. Ideal for use on all grass cutting and landscape machinery or tools, 'Slip Plate' bonds quickly and is easy to apply, with little clean-up. You are warmly invited to meet our colleagues from Chicago to discuss your requirements.

Green Releaf - Stand H70-H72

Green Releaf, the US leaders in liquid microbial products are exhibiting a range of microbial products at Saltex. The Green Releaf liquid beneficial microbes applied with their own unique food source rapidly improve root structure, enhance nutrient uptake and increase natural resistance to disease. Other products at the show include Thatchless Liquid which will reduce your Thatch in only 30 days. And for faster, hard wearing greens why not try KCS 0-0-14 Liquid which is used on the USPGA tour for tournament preparation. Visit us at our exclusive South & South West distributor, Avoncrop Amenity Products.

Vitax Seaweed Soluble is a new, 100% pure, concentrated seaweed from Nova Scotia that stimulates root development, releases locked up soil nutrients and improves drought and disease resistance in turf. Now with the introduction of Vitax Tank Mixing Agent it can be combined with a whole range of Vitax supplementary fertilisers, especially iron. Cocktails, or on-the-rocks, there is a soluble solution for every turf requirement.
**No more slip-ups!**

**Slip-Plate** is a non-polluting greaseless, dry film lubricant which is ideal for all amenity and landscape machinery maintenance.

- Prevents build up of dirt, grass and mud
- Rust / corrosion resistant
- Resistant to most chemicals & solvents
- Available in 1, 5 & 25 litre tins or 400ml spray cans

**Superior Graphite Co.**

Another leading product from Superior Graphite Co.

**Gannon Oils LTD**

**EXHIBITOR**

**Hayter - Stand W15**

Products on the Hayter stand will include the upgraded gang and triple mowers and the production version of the R314 rotary mower. The popular professional pedestrian mower, the hydrostatic Condor will show a 36" rotary attachment. This machine can also be fitted with a 30" rotary or 30" verge attachment. The Bank Condor will also be shown with a 30" rotary attachment.

Recently voted "Product of the Decade" the Harrier will also be featured. Initially designed for the domestic market a high percentage of contractors use this product very successfully.

**Hydroscape - Stand U25**

The importance of water quality management in lakes and ponds has never been greater. The essential features of good lake and pond water are the maintenance of a balanced eco-system with high levels of circulated oxygen. As leaders in the development of amenity water quality management systems, Otterbine Barebo has the most comprehensive range available. This wide range of options allows for the selection of the most appropriate system for each application, including floating fountain models, submerged and land based circulation units. Visitors to the Hydroscape stand will be able to experience a unique opportunity. of seeing a number of water aeration units operating in a real life river setting and a demonstration of the benefits offered by the new range of Weather Stations introduced into the UK for the first time this year.

**Mommersteeg International - Stand F22-24**

Mommersteeg International will be exhibiting its wide range of top quality grass mixtures.

The company's MM mixtures, which continue to find favour with groundsmen and greenkeepers, will be the focus of this exhibit. The mixtures will be backed by a team of experienced technical experts who will be on hand to advise on the best use of grass seed mixtures for sports and amenity areas.

Recent contracts for the company include the supply of mixtures for the new Reading Football Club - the Madjiski Stadium - the soon to be opened Newbury bypass, where 32 tonnes of Mommersteeg grass seed will be used, and the new cricket arena and sporting village for Hampshire County Cricket Club, which includes 20 new wickets, outfields, 9-hole golf course and bowling green, will also be using all Mommersteeg grass seed.

**Ocmis Irrigation (UK) Ltd - Stand Q6**

Ocmis Irrigation (UK) Ltd are one of Europe's largest irrigation companies specialising in the design, supply, installation and service of sportsturf and landscape irrigation systems. Distributors for Rainbird, Hunter and Buckner products. In house design service with full ISDN links. Unique unrivalled installation methods ensure minimal scarring to existing sports surfaces. Recent contracts for the company include the supply of mixtures for the new Reading Football Club - the Madjiski Stadium - the soon to be opened Newbury bypass, where 32 tonnes of Mommersteeg grass seed will be used, and the new cricket arena and sporting village for Hampshire County Cricket Club, which includes 20 new wickets, outfields, 9-hole golf course and bowling green, will also be using all Mommersteeg grass seed.

**Kubota - Stand W40**

Kubota's Saltex exhibit will be highlighting the care and dedication applied by the company in all its contacts and dealings with owners and users of Kubota tractors, implements and ride on mowers. Areas which will come under the spotlight on stand W40 include:

- The care taken to appraise, understand and meet each customer's specific machinery requirements.
- The availability of competitive and flexible finance for lease or purchase funding through Kubota Credit.

**Respect for the environment through the extensive use of low noise, low emission diesel engines.**

The wide selection of implements available to extend the year-round versatility of Kubota tractors and mowers.

Sustained performance and reliability through the fitting of genuine Kubota replacement parts supported by trained engineers at appointed dealers nation-wide.

Pattison’s - Stand Q1

Pattison’s enhance product portfolio with 3 new additions: The, Oakland, The Windsor Tee Collection and The Junior Sarrell Rollers

1. Pattison’s have established themselves as the innovator of golf course furnishings since 1896 and continue to do so.

2. This year has seen 3 new product’s come onto the market, first was the Oakland Tee Marker, taking the popular design of the wooden log tee marker but making the tee marker out of resin instead of natural wood. The effect is identical and obviously environmentally friendlier. They came in two size’s and can be personalised.

3. The Windsor Tee collection consist’s of a matching Divot Box, Tee Block to hold the hole information and a Litter Bin all made from the same material. For anyone looking for consistency throughout the course you will find it with these new products.

4. The popular Sarrell roller has been complimented with a one and two drum version. These new versions will be a popular product for someone needing to aerate small areas instead of having to get the big machinery out of the sheds.

Rain Bird Europe - Stand CP9.

Rain Bird’s Nimbus Decoder central control system uses powerful colour graphics and simplified on screen instructions to provide ET-based schedules and advanced flow management. With Nimbus Quick StartTM, users easily start-up the software and are able to build their first customised program step by step. Maxi NimbusTM, uses Microsoft WindowsTM ’95. With advanced built-in features to maximise your irrigation efficiency, Nimbus will put you in control of your irrigation system in record time form top to greens, this feature rich, user-friendly system will optimise water use, reduce input costs and prolong the life of your hardware.

Rhone-Poulenc - Stand P2

Visit Rhone-Poulenc Amenity to discuss their extensive range of sportsturf products and to hear about a number of exciting new developments and additions to their product range. Zapper is a revolutionary new total herbicide giving season long control of all weeds thanks to its combination of glyphosate and the unique anti-germinative properties of oxadiazon. It has a superb environmental profile which is further enhanced by its innovative water soluble packaging. Also featured will be Mildothane Turf Liquid with its new label recommendation for the suppression of worm casts. Whatever your problem, be it sportsturf or total weed control, Rhone-Poulenc Amenity have an effective solution and look forward to sharing their expertise with you.

Richard Campey Ltd - Stand W60

Richard Campey Ltd are exhibiting in their own right for the first time in order to launch the KORO range of Turf Renovation Machinery. The equipment is new and exclusive in the UK via Richard Campey and is available as a Recycling Dresser and Field-Top-Maker.

This unique concept of surface management will be demonstrated to underline its ability to create an ideal environment for re-seeding by the completion of several jobs, i.e. flattens, creating even ground; collects earth and sand; aerates sports turf areas; removes top layer; improves drainage and surface water percolation.

The Field-Top-Maker corrects surface irregularities by removing top turf to 1 cm depth, eradicating weeds and weed grasses, resulting in flat level surfaces, ready for conventional overseeding.

Rigby Taylor - Stand M1

Come and talk to the experts at the Rigby Taylor. Staff will be on hand as always to offer friendly help and advice. In addition you will also have the opportunity to meet guest experts from major manufacturers who will be more than happy to provide more specialist assistance and information.

Our stand will again offer a warm...
welcome and comfortable hospitality as well as exhibiting the latest products together with comprehensive reference literature. All of us at Rigby Taylor look forward to meeting friends both old and new.

Rolawn - Stand CA11
Feedback from greenkeepers and agronomists throughout the UK led Rolawn to sow a new mixture of turf in late spring last year. Sown from a mixture of Chewings Fescue (Bargreen), Slender Creeping Red Fescue (Bercrown), Smooth Stalked Meadow Grass (Limosuine) and Brown Top Bent (Herriot) the turf is now ready for harvesting. The brand name Olympic has been used to identify the new turf and it was tested by STRI in late July with results available from August. It is non nyo and purpose grown for tees. However it is also suitable for green surrounds. It can be seen during the show.

Scotts UK Professional Turf and Amenity Division - Stand E1
Scotts UK Professional Turf and Amenity Division is the UK's leading supplier of fertilisers and chemicals to the landscape and amenity market, focusing in particular on fine and outfall turf-care and weed control. The business was formed following the acquisition of Miracle Garden Care and Levington Horticulture by The Scotts Company. The company invests heavily in agronomists throughout the UK and its long experience of pollu-
greens.

greenkeepers building new greens and for architects and greenkeepers growing in new greens.

Symbio - Stand H20
Symbio is launching a range of mycorrhizal inoculants for turf that will be of specific interest to greenkeepers growing in new greens and for architects and greenkeepers building new projects.

Lake, pond and irrigation water management. Symbio is building on its long experience of pollution control and management of urban lakes and wastewater to provide a complete service for golf courses and amenity water managers.

Textron Turf Care & Specialty Products - Stand V15
Textron Turf Care & Specialty Products may be a new name to some, though when it comes to equipment the stand remains the Mecca for all discerning greenkeepers. Revered names like Jacobsen, Ransomes, E-ZE-GO, Iseki, Ryan and Cushman will be demonstrated, though each brand will be grouped separately. So you'll see many familiar faces and some wonderful new machinery, for Textrom's philosophy is to continue providing exciting equipment that delivers value, performance and productivity-always. Newcomers include Jacobsen's Sand Scorpion, plus their innovative LF 3400 and LF 3800 fairway mowers, while Ransomes' unveil the acclaimed new Turf- Trukstar: the first of its type to offer automatic transmission.
Look also for the new G-Plex 11 with a swing-out centre reel for easy access, plus the reintroduction of Ransomes' highly favoured T-Plex 180 with improved performance and ecology. E-Z-GO vehicles on display will include golf buggies and specialist load carriers with bespoke bodywork, while a galaxy of Iseki tractors and accessories will nicely round off the Textron exhibition.

Toro Commercial Products - Stand W50

Toro Commercial Products is showing a large selection of turf care equipment from its comprehensive product range, including two new products being launched on to the UK market. Brand new and representing a bit of a departure from the normal Toro line-up is a walk-behind, compact utility machine designed to speed up and take the backache out of a wide range of groundworks operations. Far more conventional is the new Toro Reelmaster 5200-D fairway mower making its UK debut. A much-awaited diesel version of the Grounds Pro multi-purpose grounds machine makes its first appearance; while favourites form Toro's existing range include all four Greenmaster pedestrian mowers, as well as 3000-D and 3200-D models. Groundmaster out-front rotaries, Reelmaster 6500-D and 2300-D, Sand Pro bunker vehicle, Workman utility vehicle and the Hydroject aerator.

Vitax - Stand F54-56

Continuing Vitax's commitment to innovative new products, for Saltex 1998 we launch three new products to further boost the strength of our already successful Sportsturf Chemical range. Firstly comes a new fungicide/worm killer spray called "Twincarb". A very cost effective, it also offers the benefit of worm killing at low rates. We think it will be a winner with Greenkeepers and Groundsmen alike, but are reluctant to give too much away! Next is Vitax Vitamark, a super concentrated spray indicator which disperses over a 24 hour period, and has very low usage rates. Finally we launch Vitax Defoamer, again a super strength defoamer in a handy, easy to use trigger spray.

Weed Free - Stand CA15

A day at the races awaits the visitor who can meet The Mantis Challenge. Weed Free, who launched their unique spraying unit, The Spraying Mantis at last year's show and chose its name from entries submitted during the event, are offering free entry to Ascot Racecourse for two, to the turf professional who can correctly answer questions on the machine's performance and say in under 50 words why they would like the Mantis to spray their turf areas. The Spraying Mantis will be on show along with full information on Weed Free's comprehensive range of Amenity Spraying Courses.

Toro Irrigation - Stand W52

Toro will be demonstrating its most innovative computerised central irrigation control system ever - the revolutionary SitePro. Combining an easy, productive, graphic user interface, matched with a Microsoft Windows 95 operating platform, SitePro takes all the guesswork out of professional irrigation management. Toro Irrigation has contributed to an amazing summer of UK sport with its systems installed in many of the country's major sporting venues. Places such as Highbury, home of Arsenal; Wembley; The All England Tennis Club; Royal Birkdale; Twickenham and Ascot. Many other sporting arenas have benefited from Toro Irrigation systems, none more prestigious than the Home of Golf, St Andrews, where Toro Irrigation products have been specified for the Old Course and the other four and a half courses.
