There is no doubt the UK market for domestic lawn care has taken off in the last couple of years, and will continue to expand. The American market already exceeds $29 billion dollars expenditure and the UK market is set to follow suit. There are a handful of Lawn Care franchises available in our sector, many have no formal training in turf care, or any course experience. Lawn Master is a company with a Unique difference. The majority of our staff are highly experienced, and we are the only professional lawn treatment company to have come through the ranks with qualified commercial staff with experience.

Lawn Master has set the standards in the last few years for unrivalled quality and adaptable feed programs. Lawn Master has always refused to use the 'one product' franchise method, which some franchises use because they are of terrified of scorching lawns, or know no better. Our customer base runs into thousands, employing our services between our depots, and customers are content in the knowledge that they have real qualified staff dealing with there lawns, rather than an ex-bus driver or redundant bank manager.

The 'Lawn Master franchise masters pack' is the first of it's kind to be offered in the UK. Since it's launch in November 2004 we have opened two new areas run by fully qualified staff, to run along side our other outlets. The earnings potential is around £450 pounds per day per vehicle after business training.

What about turf knowledge experience?

Well you should already have a good idea how to treat lawns - just let us show you how to put your knowledge and training to a more profitable use.

The package includes:

- full business support
- training
- in-depth software package
- professional machines and equipment

Finance packages are available of up to 66% per cent of the cost of the franchise so you could start with as little as £7000.
