The Jacobsen Eclipse 322

the only 100% hydraulic-free greens mower available ... anywhere!

Other ‘hybrids’ still use hydraulic motors for propulsion, so when we say no hydraulics, we mean it. Traction, reel drive and lift/lower operations are all electrically driven using either a small petrol or diesel engine running a 48 volt generator. And now there’s an all-electric version using a battery pack. It’s stealth quiet and ideal for greens close to housing or hotel rooms.

For greener operation on your greens, less maintenance and lower operating costs, it has to be the Jacobsen Eclipse 322.

By the way, did we mention ... no hydraulics.
