A Quick Trim

Introduced to the UK market 18 months ago by JSM Distribution, the TAS Trimmer range is gaining in popularity with clubs around the country. Sprinkler head and marker maintenance is now made easy, with various sizes to cover all popular makes of sprinkler head, valve boxes and vandalism markers. Our happy customer is John Soones, Head Greenkeeper at Caversham Heath Golf Club. ‘I heard about the TAS blades on the BIGGA website and ordered one to try. It arrived at 10.00am the next day and fitted straight onto my Stihl strimmer within 5 minutes. We had half the irrigation heads on the course (300) trimmed that afternoon. This is a real time saver which has made a previously laborious job a breeze!’

The TAS Trimmer will cut approximately 1300-1500 sprinkler heads when used for the first time, after which replacement units will have a trimming life of 1500-2000 heads. JSM Parts Manager, Peter Biddlecombe, says ‘The TAS Trimmer fits any brand of straight shaft strimmer and mounts easily like a brushcutter attachment. The feedback we are receiving from owners has been extremely positive, mainly informing us how easy to use it is and how neat the finished job looks. They also appreciate what good value it is with a relatively modest price.’

JSM stock a full range of TAS Trimmer sizes to cater for all makes of sprinkler head and valve box, a quick reference chart is available to help the customer match the right blade diameter to their make and model of pop-up head.

A Quick Trim

Introduced to the UK market 18 months ago by JSM Distribution, the TAS Trimmer range is gaining in popularity with clubs around the country. Sprinkler head and maintenance is now made easy, with various sizes to cover all popular makes of sprinkler head, valve boxes and yardage markers. Our happy corer is John Soones, Head Greenkeeper at Caversham Heath Golf Club. “I heard about the TAS blades on the BIGGA website and ordered one to try. It arrived at 10.00am the next day and fitted straight onto my Stihl strimmer within 5 minutes. We had half the irrigation heads on the course (300) trimmed that afternoon. This is a real time saver which has made a previously laborious job a breeze!”

The TAS Trimmer will cut approximately 1300-1500 sprinkler heads when used for the first time, after which subsequent replacement units should have a trimming life of approximately 6000 heads. JSM Parts Manager, Peter Biddlecombe, states “The TAS Trimmer fits any brand of straight shaft trimmer or brushcutter on the market and mounts easily like a brush cutter attachment. The feedback we are receiving from owners has been extremely positive, mainly informing us how easy to use it is and how fast the finished job looks. They also appreciate what good value it is with a relatively modest price and long life.”

JSM stock a full range of TAS Trimmer sizes to cater for all makes of sprinkler head and valve box, a quick reference chart is available to help the customer match the right blade diameter to their make and model of pop-up head.

Lister Wilder

Lister Wilder is a very straight forward company which specialises in supplying and maintaining machinery for four key markets: Agriculture, Construction, Arboriculture and, of course, Groundcare.

Established in 1947, it remains a wholly owned family business, and this has certainly been a factor in attracting and retaining excellent sales, parts and service staff.

It’s their knowledge and expertise that allows the company, in its own words “to make the leap from being ‘just another machinery dealer’ into one of the most focused, customer friendly, and forward thinking Dealerships in the South of England.”

The franchises play a big part in any dealership and Lister Wilder has worked hard to build up a significant portfolio of some of the leading names in Groundcare. Kubota plays a large part in the business and the company has developed an extremely good working relationship with them over the years. Lister Wilder is now Kubota’s largest dealer in the UK.

The company has a branch in each of the key counties in which it operates, and a number of key accounts where they have established a very strong partner for their customers.

What would you like to see changed?

We would like to see Golf Courses given more choice to pick the best of what’s available, rather than being pushed towards package deals where they sometimes have to accept second best on certain product lines.

Do you support customers who have in-house Service facilities (i.e. OEM parts supply)?

We would like to see one of our strengths as our flexibility and willingness to meet our customers’ individual needs. With this in mind we already work with a number of key accounts where they hold what we call impose stock. This is stock owned by Lister Wilder but held at the customers’ premises that can be used and subsequently invoiced as we move through the year.

To nominate a GI Dealer of the Month contact Scott MacCallum with your reasons why the dealer of your choice should be featured. Email scott@bigga.co.uk

Kubota plays a large part in the business and the company has developed an extremely good working relationship with them over the years. Lister Wilder is now Kubota’s largest dealer in the UK.

The company has a branch in each of the key counties in which it operates, and a number of key accounts where they have established a very strong partner for their customers.

The use of RUBBER CRUMB on grass as top dressing has been proven to retain moisture when watered and has the added benefit of being a natural, low cost, non-toxic, non-hazardous material. RUBBER CRUMB is widely used in golf club top dressings.
